

## AME-6577 - Potential Population for Dementia

Description	Population	Low Estimate %	Low Estimate Population	High Estimate %	High Estimate Population
Current Eligible Members 65 and over	98,539	2%	1,971	5%	4,927
Current Eligible Members 60 and 64	38,569	2%	771	5%	1,928
Unduplicated Recipient Count for those with Down Syndrome diagnosis	152	2%	3	5%	8
Unduplicated Recipient Count for those with TBI diagnosis	1,807	2%	36	5%	90
Overall Unduplicated Count for 60+, DS, and TBI Diagnosis	40,528	2%	811	5%	2,026
<b>Total Other Medicaid Population</b>	<b>99,368</b>	<b>2%</b>	<b>1,987</b>	<b>5%</b>	<b>4,968</b>
Estimated Population (Exc 65+)			2,798		6,995
Medicare Copay Estimated Amount			\$0.00		\$0.00
99483 CPT Rate	90% of the Medicare		\$241.20		\$241.20
Total Computable			\$674,858		\$1,687,146
FMAP			69.71%		69.71%
Federal Share			\$470,444		\$1,176,109
State Share			<b>\$204,415</b>		<b>\$511,036</b>

We estimated a graded range impact for a cognitive assessment for the above populations. All recipients excluding 65+ were estimated with 99483 CPT Code for Cognitive Assessment. We estimate a low impact of \$675 thousand total computable, or \$204 thousand State Share and a high impact of \$1.7 Million total computable, or \$511 thousand State Share.
