

## PURPOSE OF BILL: HB 1333

To mandate coverage for breastfeeding and lactation consultant services.

## ACTUARIAL STATEMENT

The Fiscal Impact Statement was prepared according to generally accepted actuarial principles and practices, in compliance with ACT 112. The Statement provides an estimate of the financial and actuarial effect of the proposed change(s) on the Plans, if possible. The Statement makes no comment or opinion with regard to the merits of the measure for which the Statement is prepared; however, any identified technical or mechanical defects have been noted.

We have reviewed the input and results of our analysis for reasonableness and relied upon the data and information provided by the Plans and their Claims Processing Contractors.

## PROJECTED COSTS

Plan	Plan Design Change	Estimated Cost/(Savings)
EBD	No Change	Negligible Impact

## PRICING APPROACH AND COMMENTS

House Bill 1333 mandates coverage for breastfeeding and lactation consultant services and prohibits it being a subject to annual deductible, copayment, or coinsurance.

EBD currently covers up to 5 sessions of breastfeeding and lactation counseling during pregnancy and after birth. These services are not subject to cost sharing.

There is potential for increase in utilization, but given the current utilization of this service (under 2 sessions per claimant), any additional costs would be considered negligible.
