Target Rate of Investment Return and Actual Rate of Investment Return
June 30, 2024

Complying with ACT1088, the State Board of Finance establishes a benchmark rate of return for the Treasury Investment Portfolio. Several factors contribute to the development of the target rate of return. These include the stated standards of safety, liquidity and then return. The primary mission of the Treasury is providing adequate liquidity for the State's business. Upon meeting those needs all other funds are invested to balance future needs with market opportunities.

Treasury monitors the cash flow process on a dynamic basis. Cash flows are managed daily to meet the needs of State Agencies. The Treasury also has a fiduciary responsibility to all taxpayers. The current investment policy maintains the conservative investment portfolio management approach highlighted in previous reports. Treasury has added systems and process improvements to responsibly manage overall return. As market conditions vary over time, Treasury has a commitment to manage risk versus return to meet the standard of Safety, Liquidity and then Return. Meeting this standard requires on-going analysis and risk assessment of cash flows and market opportunities.

The ROI for Fiscal Year 2024, July 1, 2023 – June 30, 2024, is 3.402%.

<u>Benchmark Period</u>	<u>SBoF Target Book Return</u>	<u>Actual Book Return</u>
1 st Quarter FY24	3.20 – 3.30%	3.279%
2 nd Quarter FY24	3.25 – 3.35%	3.436%
3 rd Quarter FY24	3.30 – 3.40%	3.364%

Liquidity Requirements and Actual Liquidity

June 30, 2024

The State Treasury dynamically models cash flows across daily, weekly, monthly, and quarterly projections to match anticipated liabilities with the timely return of cash from investments and in more liquid bank demand accounts. Treasury works with the Department of Finance and Administration along with other state agencies to meet the state's cash commitments. The cash forecast process matches daily cash needs with investments that mature before or on days with outbound cash flows. Treasury negotiates the best possible rate of return for these investments across several sectors including bank accounts, money markets, treasury bills, and commercial paper. Currently, Treasury maintains around \$1 billion in short-term commercial paper and at least \$200 million in bank and money market deposits to facilitate warrant fulfillment. Liquidity is managed on a liability driven basis to best meet the state's commitments in a timely and efficient manner.
