**METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES -
INPATIENT HOSPITAL SERVICES**

Revised: ~~August 1, 2015~~ April 6, 2024

1. Inpatient Hospital Services (continued)

Inpatient Hospital Access Payments

Effective for services provided on or after July 1, 2009, all privately operated hospitals within the State of Arkansas except for rehabilitative hospitals and specialty hospitals as defined in Arkansas Code Ann. § 20-77-1901(7)(~~D~~) and (~~E~~) shall be eligible to receive inpatient hospital access payments. The inpatient hospital access payments are considered supplemental payments and do not replace any currently authorized Medicaid inpatient hospital payments.

1. For each rate year, the state shall determine for each hospital and in total the number of Medicaid inpatient discharges for private hospitals eligible for this supplemental payment.
2. For each rate year, the state shall identify, on the basis of paid inpatient discharge claims adjudicated through the State's MMIS, reimbursement for inpatient hospital services that were delivered by the private hospitals identified in step one.
3. The state shall estimate the amount that would have been paid for the services identified in step two using Medicare principles consistent with the upper payment limit (UPL) requirements set forth in 42 CFR 447.272. ~~Respective Case Mix Indexes (CMI) shall be applied to both the base Medicare per discharge rates and base Medicaid per discharge rates for comparison to the Medicare-related UPL.~~
4. The maximum allowable aggregate Medicaid inpatient hospital access payment for private hospitals shall not exceed 97% of the difference between the results of step three (Medicare UPL) and results of step two (Medicaid based payment).
5. Using discharge data identified in step one, the state shall determine each eligible hospital's pro rata percentage which shall be a fraction equal to the number of the hospital's Medicaid discharges divided by the total number of Medicaid discharges for all eligible hospitals. This percentage will be calculated annually.
6. Each eligible hospital's inpatient hospital access payment shall be determined by multiplying the aggregate inpatient access payment identified in step 4 by the pro rata percentage identified in step 5. The current year's adjustment will be based on discharge data from the most recently audited fiscal year for which there is complete data. In this manner, the State will make supplemental payment to eligible hospitals for current year Medicaid utilization.

Inpatient hospital access payments shall be paid on a quarterly basis.

For hospitals that, for the most recently audited cost report period filed a partial year cost report, such partial year cost report data shall be annualized to determine their inpatient access payment; provided that such hospital was licensed and providing services throughout the entire cost report period. Hospitals with partial year cost reports that were not licensed and providing services throughout the entire cost report period shall receive pro-rated adjustments based on the partial year data.

Effective August 1, 2015, and forward, if an audited cost report is more than 2 years old, the State will elect to use the most recent cost report available as of June 30 for Inpatient Hospital Access Payments. Most recently submitted partial year cost report data will be annualized in the same manner as was used for audited cost report periods as described above.
