## **EXHIBIT C3**

1	INTERIM STUDY PROPOSAL 2025-084
2	
3	REQUESTING THAT THE HOUSE COMMITTEE ON EDUCATION STUDY AND
4	DEVELOP A STATEWIDE PROGRAM TO REDUCE DROPOUT RATES AMONG
5	PREGNANT AND PARENTING STUDENTS IN ARKANSAS.
6	
7	WHEREAS, Arkansas has the second highest teen birth rate in the United
8	States, with twenty-three and eight tenths (23.8) births per one thousand
9	(1,000) females between the ages of fifteen (15) and nineteen (19) compared
10	to the national average of thirteen and one tenth (13.1); and
11	
12	WHEREAS, teen pregnancy significantly increases the likelihood of
13	students dropping out of high school, with national research showing that
14	only approximately fifty percent (50%) of teen mothers receive a high school
15	diploma by age twenty-two (22); and
16	
17	WHEREAS, Arkansas students who are pregnant or parenting often face
18	barriers including without limitation lack of access to affordable childcare,
19	transportation challenges, chronic absenteeism, stigma, and insufficient
20	academic and social-emotional support; and
21	
22	WHEREAS, dropout rates among pregnant and parenting students contribute
23	to generational poverty, decreased earning potential, and poorer long-term
24	health and educational outcomes for both the mother and child; and
25	
26	WHEREAS, schools and school districts in Arkansas have varying levels
27	of support for these students, leading to inequities in access to services
28	and educational opportunities,
29	
30	NOW THEREFORE,
31	BE IT PROPOSED BY THE HOUSE COMMITTEE ON EDUCATION OF THE NINETY-FIFTH
32	GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:
33	
34	THAT the House Committee on Education conduct a study to:
35	(1) Assess the current scope of the problem to:
36	(A) Compile and analyze data on dropout and chronic

1	absenceersm rates among pregnant and parenting students in Arkansas,
2	(B) Identify demographic, geographic, and socioeconomic
3	trends associated with the absenteeism rates among pregnant and parenting
4	students in Arkansas; and
5	(C) Survey school districts on current policies, support
6	programs, and gaps in services for pregnant and parenting students;
7	(2) Identify barriers to school completion for pregnant and
8	parenting students, including without limitation:
9	(A) Lack of access to affordable or onsite childcare;
10	(B) Inflexible attendance or course scheduling policies;
11	(C) Limited transportation options;
12	(D) Insufficient wraparound supports, including academic,
13	mental health, and health care; and
14	(E) Social stigma and lack of understanding from peers or
15	school staff;
16	(3) Research best practices from other states and school
17	systems, including without limitation:
18	(A) Onsite childcare programs in schools;
19	(B) Alternative scheduling or virtual coursework options
20	for students balancing childcare responsibilities;
21	(C) Case management and mentoring programs for pregnant
22	and parenting students;
23	(D) Partnerships with local health providers, Special
24	Supplemental Nutrition Program for Women, Infants and Children (WIC) offices,
25	and community-based organizations; and
26	(E) State level grant programs or incentive funding for
27	schools serving pregnant and parenting students;
28	(4) Develop a comprehensive program model for Arkansas that
29	could include:
30	(A) Onsite childcare through pilot programs at selected
31	high schools to provide accessible childcare during school hours;
32	(B) Flexible learning models through expanded virtual or
33	hybrid course offerings to allow students to balance school and parenting;
34	(C) Transportation assistance through vouchers or
35	coordinated transportation options for both student and child;
36	(D) Wraparound services through school-based access to

1	caseworkers, social services, and mental health support;
2	(E) Mentorship programs through peer or adult mentors who
3	have successfully navigated parenting while completing school; and
4	(F) Policy recommendations to include guidance for school
5	districts on attendance flexibility, credit recovery, and supportive
6	discipline practices; and
7	(5) Estimate cost and funding sources for a statewide
8	implementation plan, including without limitation possible federal, state,
9	and philanthropic funding opportunities.
10	
11	BE IT FURTHER PROPOSED THAT the findings of this study be compiled into a
12	final report to the House Committee on Education, with specific
13	recommendations for legislation or program funding to be considered during
14	the next Regular Session of the General Assembly.
15	
16	
17	Respectfully submitted,
18	
19	
20	
21	Representative Lincoln Barnett
