

DEPARTMENT OF HUMAN SERVICES, DIVISION OF MEDICAL SERVICES

SUBJECT: Urgent Care Clinics

DESCRIPTION:

Statement of Necessity

The Department of Human Services, Division of Medical Services, revises the Arkansas Medicaid Provider Manual to include Urgent Care Clinic visits for beneficiaries without a primary care provider (PCP). The revision clarifies that Urgent Care Centers are necessary to ensure beneficiaries who are not yet assigned a primary care provider can get non-emergency services for a brief time while the PCP selection process is completed. This revision will increase access to services, ensure healthcare is provided at the proper level, and avert unnecessary emergency room costs.

Summary

Section 171.100 of the Arkansas Medicaid Provider Manual is revised to include Urgent Care Clinics as an allowed provider type. Beneficiaries who do not have a PCP now will be allowed a total of four Urgent Care, hospital affiliated Walk-in, or Emergent Clinic visits, or a combination thereof, before a PCP referral is required.

Section 172.100 is updated to clarify that a beneficiary with an assigned PCP may access up to two (2) Urgent Care Clinic visits per state fiscal year without a PCP referral. Once two (2) non-referral Urgent Care Clinic visits occur a PCP referral will be required for the remainder of the fiscal year. These visits will apply to all related benefit limits.

PUBLIC COMMENT: A public hearing was held on this rule on December 4, 2024. The public comment period expired on December 14, 2024. After the public comment period expired, the agency amended the rule with additional language and opened a second public comment period. A second public hearing was held on March 26, 2025. The second public comment period expired on April 7, 2025.

The agency indicated that it received no public comments during either public comment period.

The proposed effective date is pending legislative review and approval.

FINANCIAL IMPACT: The agency indicated that this rule has no financial impact and provided the following explanation:

DHS/DMS anticipated the revision to be budget neutral. The aim of the rule is to reduce strain on emergency rooms by improving access to a more suitable care setting for non-emergency visits.

LEGAL AUTHORIZATION: The Department of Human Services has the responsibility to administer assigned forms of public assistance and is specifically

authorized to maintain an indigent medical care program (Arkansas Medicaid). *See* Ark. Code Ann. §§ 20-76-201(1), 20-77-107(a)(1). The Department has the authority to make rules that are necessary or desirable to carry out its public assistance duties. Ark. Code Ann. § 20-76-201(12). The Department and its divisions also have the authority to promulgate rules as necessary to conform their programs to federal law and receive federal funding. Ark. Code Ann. § 25-10-129(b).

Statement of Necessity and Rule Summary

Urgent Care Clinics

Statement of Necessity

The Department of Human Services, Division of Medical Services, revises the Arkansas Medicaid Provider Manual to include Urgent Care Clinic visits for beneficiaries. The revision clarifies that Urgent Care Centers are necessary to ensure beneficiaries who are not yet assigned a primary care provider can get non-emergency services for a brief time while the PCP selection process is completed. This revision will increase access to services, ensure healthcare is provided at the proper level, and avert unnecessary emergency room costs.

Summary

Section 171.100 of the Arkansas Medicaid Provider Manual is revised to include Urgent Care Clinics as an allowed provider type. Beneficiaries who do not have a PCP now will be allowed a total of four Urgent Care, hospital affiliated Walk-in, or Emergent Clinic visits, or a combination thereof, before a PCP referral is required.

And section 172.100 is updated to clarify that a beneficiary with an assigned PCP may access up to two (2) Urgent Care Clinic visits per state fiscal year without a PCP referral.
