

DEPARTMENT OF HEALTH, STATE BOARD OF HEALTH

SUBJECT: Rules for Massage Therapy in Arkansas, 17 CAR pt. 52

DESCRIPTION: Proposed amendments to the existing rule are to implement changes pursuant to Acts 2025, No. 267 (Interstate Massage Therapy Compact); No. 484 (posting of National Human Trafficking Resource Hotline); No. 629 (Establishment Registrations), and minor clarification e.g., minimum time for revocation for sex offenses.

PUBLIC COMMENT: A public hearing was held on these rules on March 2, 2026. The public comment period expired on March 2, 2026. The agency provided the following public comment summary:

Commenter's Name: Christabelle S. Carpenter

COMMENT: B1 section....the inspector has the right to inspect a massage establishment during business hours.... It is not spelled out in so many words, but does the proposed wording give the state massage inspector the right to enter a room where a massage is taking place, while a massage client is inside the massage room? In the past, massage inspectors have not had the right to enter a massage room while a massage client was inside the massage room, either on or off the massage table. **RESPONSE:** This rule section is updated to include the use of the term “establishment” pursuant to Act 629 of 2025, but otherwise remains unchanged from previous Rule versions. The law provides that the Department is prohibited from entering into a room where a client is being served. See Ark. Code § 17-86-203(b)(2). The Department will review the suggested addition of the text of Ark. Code § 17-86-203(b)(2) in future rule amendments.

Commenter's Name: Robert Fisher

COMMENT: I want to make sure specific posture related bodywork with the anterior thorax and breasts, and implant related bodywork, is inclusive to the wording. Perhaps add: Posture Related Bodywork and related hours. It's not directly related to the breast tissue itself, like lymphatic. But it is directly related to soft tissues all around, and under, the breasts. And yes, sometimes this requires undraping, with permission of course. 1) Include wording: Posture Related Bodywork (and related hours); 2) Please reply that you recognize my bodywork relative to the anterior thorax and breasts, so I can save a copy for approval in Arkansas. My primary focus is posture related chronic muscle pain relief. And not all continuing education related to posture is worded as myofascial because it is a Neuro-Myo-Fascial system, and thankfully we have access to different techniques and approaches. **RESPONSE:** The text of the rules concerning massage of the breasts are directly from the requirements of the Massage Therapy Act and cannot be modified or changed via rule.

Commenter's Name: Kirby Clark Ellis

COMMENT: 1) “17 CAR § 52-119. Conduct and ethics. (a) It is the responsibility of the licensed massage therapist or therapists to create and maintain a safe environment during a massage session.” Should instead read: It is the SHARED responsibility of the

licensed massage therapist or therapists and the client to create and maintain a safe environment during a massage session. Rationale: If the client is not forthcoming in sharing information that could render specific modifications to ensure safety and best practices are created and maintained, the onus should not fall solely on the practitioner because the client withheld pertinent information. Furthermore, massage therapy is not a service or treatment that is simply “done” to a client, it is a collaborative experience that the client and therapist must both be engaged and participating in. Are there any other healthcare practices the Department oversees that have rules that enforce that same level of liability on their licensees?

2) “(19)(A) “Massage therapy instructor” means a person who: (iii) On or after July 1, 2010, in addition to the experience under subdivision (b)(17)(A)(i) of this section has completed no fewer than two hundred fifty (250) continuing education hours as approved by the Department of Health department as a licensed master massage therapist...” Should include the addition: “no less than 25 continuing education hours obtained as a licensed master massage therapist must be in some acceptable coursework pertaining to: instructor development, learning styles, adult education, instructional design, lesson planning, classroom management, learning delivery/experiences, and/or student assessment/evaluation methods in order to qualify for licensure as a massage therapist instructor.” Rationale: the Arkansas massage therapy rules outline specific entry level curriculum required for licensure as a Licensed Massage Therapist (LMT), but no specific hours that would be relevant to the licensure of Massage Therapist Instructor (MTI), this not only results in massage educators and teachers being unprepared in the classroom, but harms the public (potential students enrolling in entry level programs) by receiving poor quality education with no recourse for complaint upon completing a program.

3) “his or her” should be replaced with “their” throughout the rules. Rationale: not only is the pronoun “their” singular in use and inclusive of individuals meant to be included with the phrase “his or her”, but it is also concise language that reduces word count on this document.

4) 17 CAR § 52-102. Principles, methods, and definitions. Should include: a definition for what a “Client” is. Proposed definition: “Client” means any person who (i) is the recipient of treatment or services of a licensed massage therapist, licensed master massage therapist, or licensed massage therapist instructor at a regular or irregular frequency. (ii) a person shall be considered a client from a period of time that begins at the start of the client-therapist relationship and lasts no less than 6 (six) months following either termination or the last date of services rendered, Unless (iii) an ongoing familiar relationship existed prior to the date the client-therapist relationship began. Rationale: The term “client” appears 5 times in the Arkansas Massage Therapy Law and 29 times in the Rules for Massage Therapy in Arkansas, but nowhere is there a concrete legal definition of what a client is. Relying on abstract implied understanding of what constitutes a client is a lapse in regulatory and legislative oversight. New Jersey defines client in the following way: “Client” means any person who is the recipient of massage or bodywork therapy. “Client-therapist relationship” means a relationship between a

licensee and a client in which the licensee owes a continuing duty to the client to render massage or bodywork therapy services consistent with his or her training and experience. **RESPONSE:** The Code of Ethics section sets forth the requirements for licensed massage therapists as a condition of their licensure. The Arkansas Massage Therapy Act does not grant any authority over a massage therapy client to ADH. The definition for massage therapy instructor is directly from the Arkansas Massage Therapy Act and cannot be amended via rule. The current proposed amendments do not include any changes regarding pronouns. The Department will review and consider changes in future promulgation in compliance with administrative policy and state law. The Department will review the request to add a definition of “client” in future rule promulgation. However, the Department generally defers to the Legislature for guidance rather than substitute its own detailed definition for a term in the law for many years which indicates a Legislative intent that a plain language reading suffice.

Lacey Johnson, an attorney with the Bureau of Legislative Research, asked the following question and received the following response:

Q. 17 CAR § 52-121(c)(2)(D)(ii) states that an applicant for multistate licensure must not have been convicted, found guilty, or entered into an agreed disposition of a misdemeanor within the last two years. Does this requirement come from statute or is it based on something else? **RESPONSE:** The language on 17 CAR § 52-121(c)(2)(D)(ii) comes from Ark Code § 17-86-401 “Text of the Compact” under Article 4 (A)(6).

The proposed effective date is pending legislative review and approval.

FINANCIAL IMPACT: The agency indicated that this rule has no financial impact.

LEGAL AUTHORIZATION: The State Board of Health may promulgate and enforce reasonable rules for the purpose of carrying out Title 17, Chapter 86 of the Arkansas Code, regarding massage therapists. Ark. Code Ann. § 17-86-203(a)(1). This rule implements Acts 267, 484, and 629 of 2025.

Act 267, sponsored by Representative Jason Nazarenko, established the Interstate Massage Compact in Arkansas. The Department of Health may adopt rules consistent with the Compact as necessary to implement the Compact. *See* Ark. Code Ann. § 17-86-402(b), *as created by* Act 267.

Act 484, sponsored by Representative Joey Carr, concerned the prevention of human trafficking and required the display of information about the National Human Trafficking Hotline.

Act 629, sponsored by Representative Mary Bentley, amended the Massage Therapy Act and established registration for massage therapy establishments.
