Reports of Child Maltreatment

Quick Facts

Volume and Description of Child Maltreatment Reports

Volume of Incoming Reports

Maltreatment Reports Received During
4th Quarter SFY 2025

Of the 8,331 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during the fourth quarter, 81 percent were assigned to DCFS and 19 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 78 percent were assigned for an investigation and 22 percent were handled through differential response (DR).

DR allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

The following types of allegations can qualify for DR:

- Inadequate supervision if children are at least five
- Environmental neglect if children are at least three
- Medical neglect if children are at least thirteen
- Lock out if children are at least ten
- Inadequate food, inadequate shelter, inadequate clothing, or educational neglect with no age restrictions
- Certain allegations of abuse where the incident occurred at least one year prior to the report date

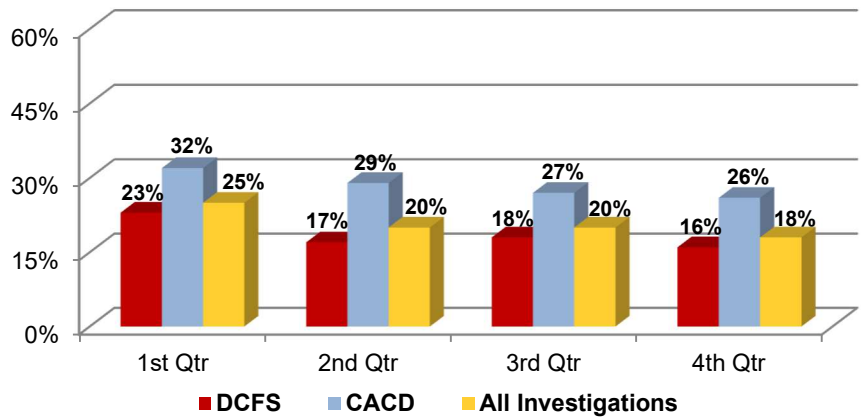

Quick Facts

Findings of Child Maltreatment Investigations

Sixteen percent of the investigations assigned to DCFS during the fourth quarter were found true, compared to 26 percent for CACD. The overall substantiation rate stood at 18 percent.

Appendix A provides further detail on the number of referrals accepted for investigation and those found true for the most recent quarter.

Percentage of Investigations Found True

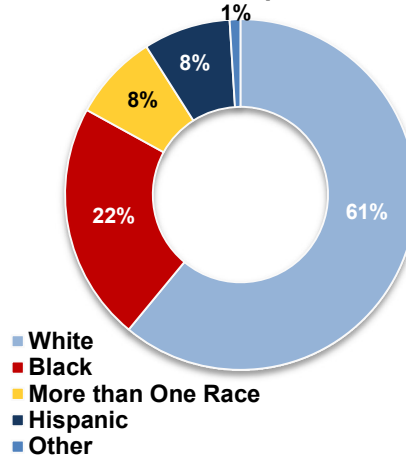

Characteristics of Children Involved in True Investigations

There were 1,627 victim children involved in substantiated maltreatment investigations during the quarter.

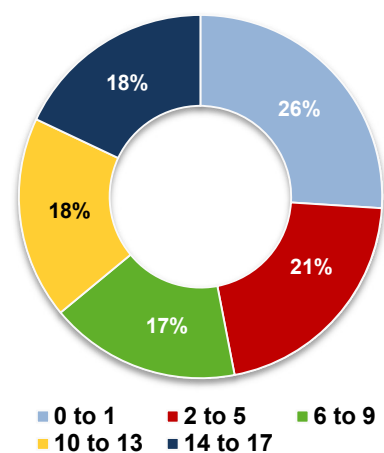

Of those children, 61 percent were white, 22 percent were black, 8 percent were Hispanic, and 8 percent were multiracial. Less than half (47 percent) were under six years of age.

The majority of victim children (52 percent) were female.

Race/Ethnicity of Children in True Reports

Ages of Children in True Reports

Types of Allegations in True Investigations

Neglect was the most commonly reported allegation for the 1,627 victim children, followed by allegations of physical abuse and sexual abuse.

Percentage of Children in True Allegations of Maltreatment

| | Number of Children Cited in True Allegation | Percentage of Children Cited in True Allegation |
|---------------------|---|---|
| Neglect | 1,069 | 66% |
| Physical Abuse | 367 | 23% |
| Sexual Abuse | 313 | 19% |
| Sexual Exploitation | 27 | 2% |
| Abandonment | 24 | 2% |

A child may have more than one allegation.

Quick Facts

Reports Involving Fatalities or Near Fatalities

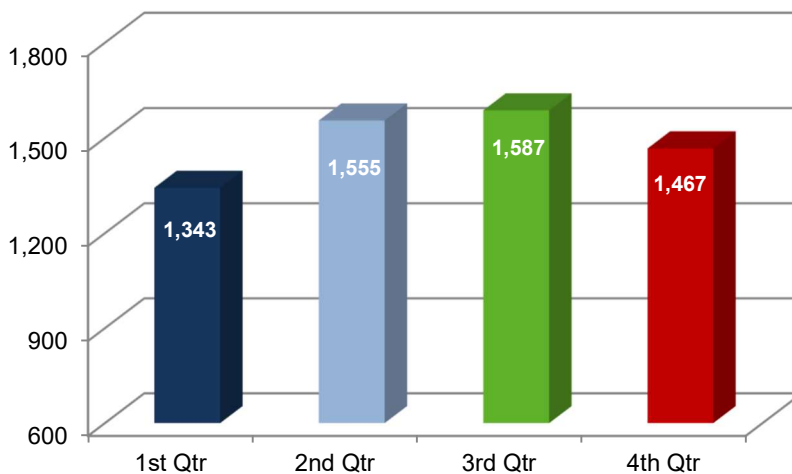

| Findings of Maltreatment Reports Involving Fatalities or Near Fatalities | | |
|--|----------------|---------------------|
| Finding | Child Fatality | Child Near Fatality |
| True | 1 | 3 |
| Unsubstantiated | 1 | 3 |
| Inactive | 0 | 0 |
| Pending | 6 | 3 |

During the fourth quarter, there were eight maltreatment investigations of child fatalities. Of those, one was found true, one was unsubstantiated, and six were still pending.

Over the same period, there were nine investigations of near fatalities. Three were found true, three were unsubstantiated, and three were still pending.

Reports Assigned for Differential Response (DR)

Number of Reports Assigned for Differential Response

The number of reports assigned for DR during the fourth quarter (1,467) decreased by eight percent from the previous quarter.

Quick Facts

Meeting Agency Policies

Timeliness of Initiating Investigations

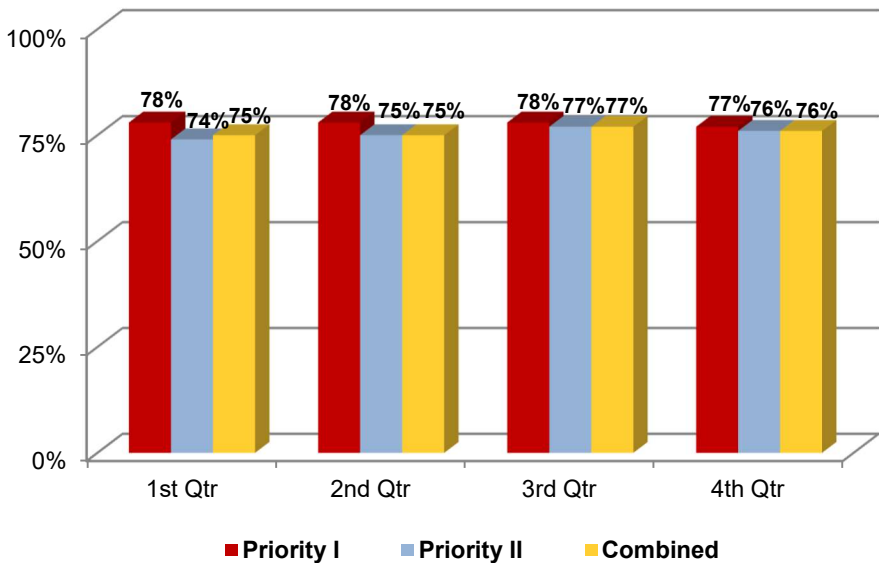

The law requires reports of maltreatment to be initiated within 24 hours of receipt of a Priority I report or within 72 hours for a Priority II report.

Priority I reports cite more severe allegations while Priority II reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 76 percent of its investigations on time during the fourth quarter, similar to its performance in recent quarters.

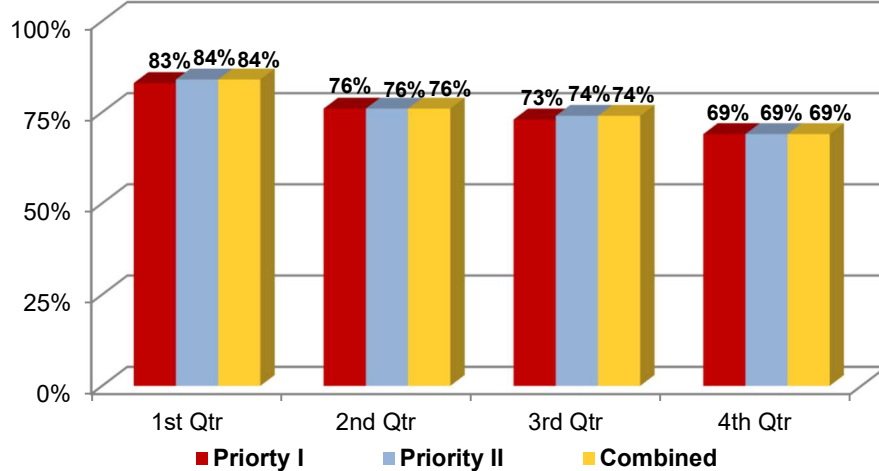

Timely Initiation of Child Maltreatment Assessments (DCFS Only)

Timeliness of Completing Investigations

DCFS completed 69 percent of its investigations on time (within 45 days of receipt of the report) during the quarter. This signified a decline in its performance from the previous quarter (74 percent).

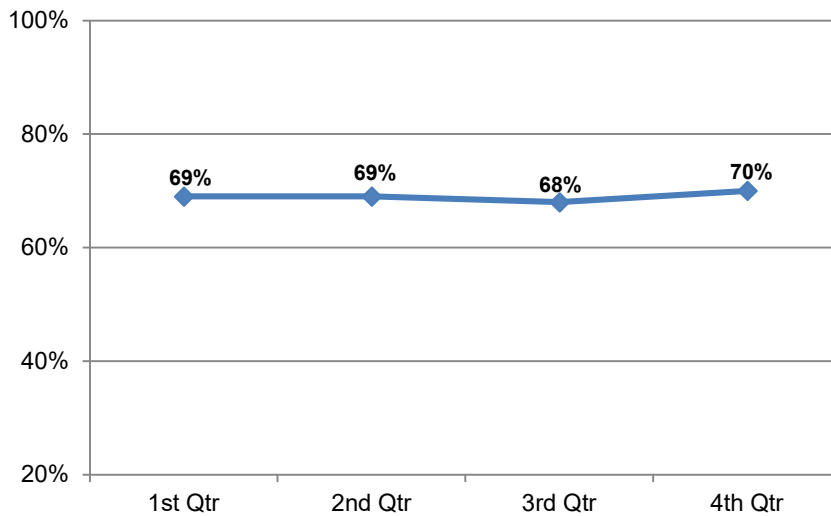

Timely Completion of Child Maltreatment Assessments (DCFS Only)

Quick Facts

Timeliness of Initiating Reports Assigned to DR

Timely Initiation of DR Reports

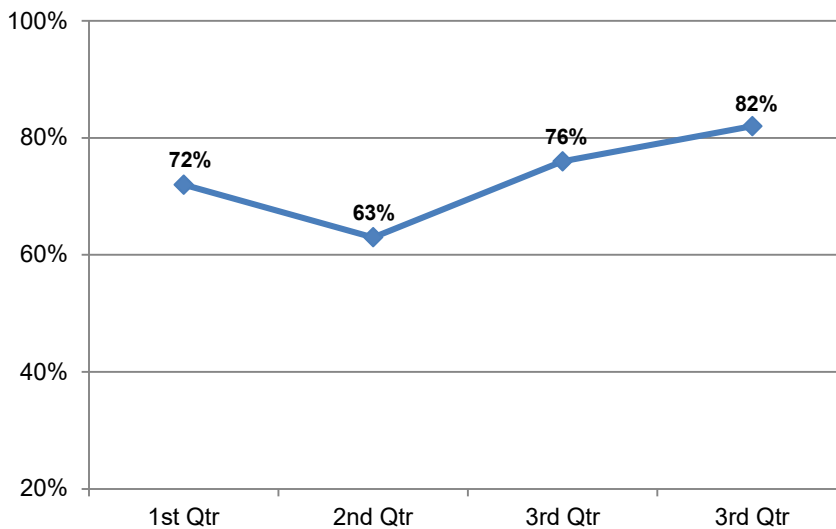

DR referrals must be initiated within 72 hours of receipt of the report.

DCFS initiated 70 percent of its DR reports on time during the fourth quarter, similar to its performance during the previous quarter.

Timeliness of Completing Reports Assigned to DR

Timely Closure of DR Reports

Reports assigned to DR must be closed within 30 days of receipt of the report. In certain instances where the family's needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The Division closed 82 percent of DR reports on time during the fourth quarter, taking into account reports in which extensions were granted.

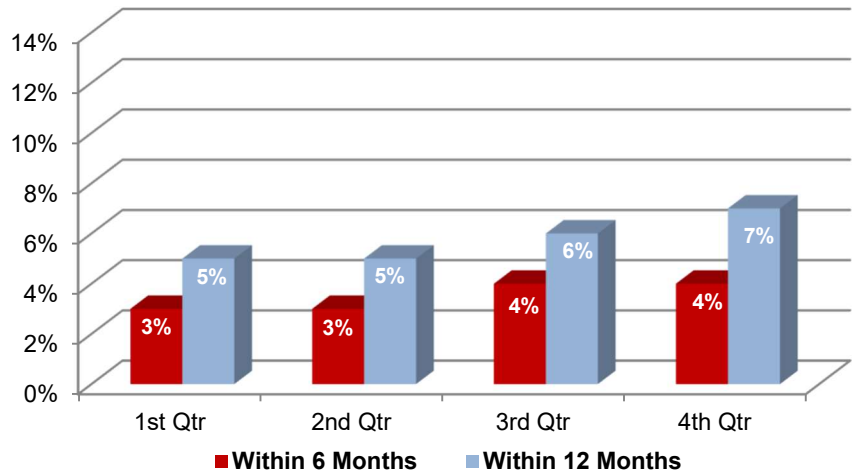

Quick Facts

Benefits to Children and Families

Preventing the Recurrence of Maltreatment

Seven percent of the victim children involved in true investigations during the fourth quarter of SFY 2024 experienced a recurrence of maltreatment within 12 months. Four percent experienced a recurrence of maltreatment within six months.

Recurrence of Maltreatment within 6 and 12 Months

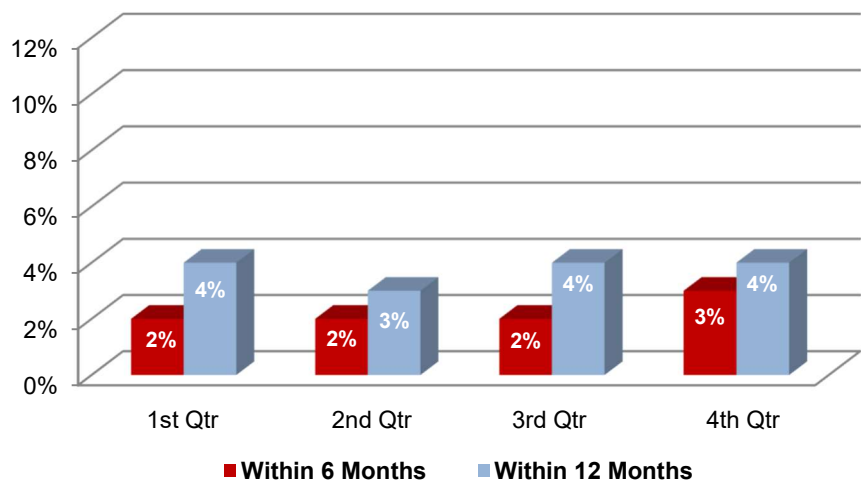

The National Standard for recurrence within 12 months is 9.1 percent or less

Recurrence of Maltreatment Among Families Who Received DR Services

Four percent of the children who began receiving DR services during the fourth quarter of SFY 2024 were involved in a true investigation of child maltreatment within 12 months, and three percent were involved within six months.

Involvement in True Maltreatment Reports within 6 and 12 Months of Receiving DR Services

In-Home Services

Quick Facts

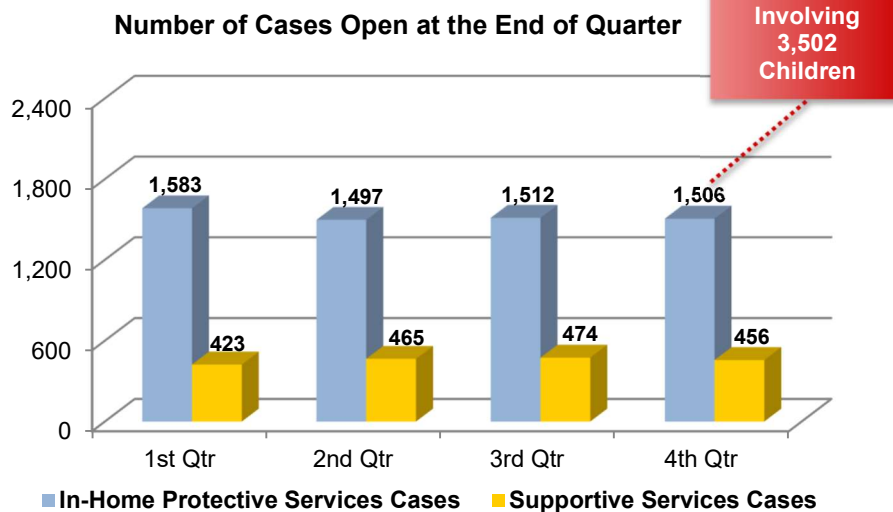

Volume and Description of Cases

Volume of Cases

In most instances, DCFS offers in-home services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS' involvement with a family but there is not an immediate threat to any child's safety in the home.

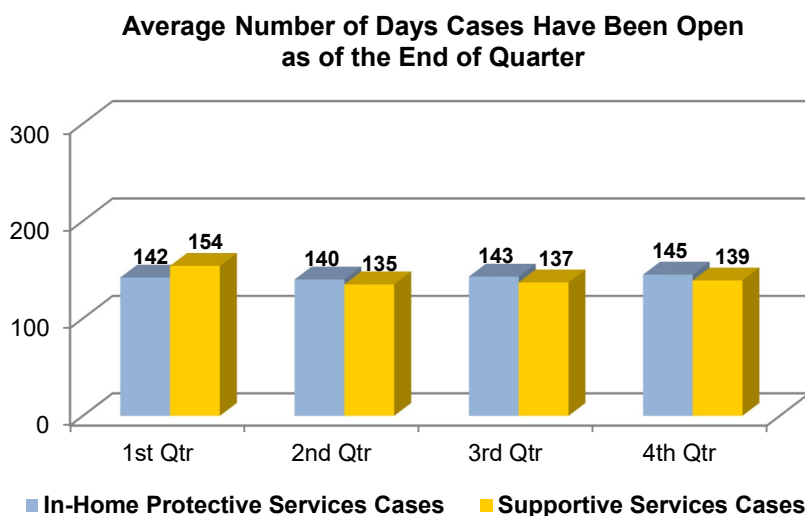

The number of in-home protective services cases decreased slightly during the quarter. There were 1,506 in-home protective services cases, involving 3,502 children, open across the state at the end of the quarter.

The Division also offers in-home supportive services to families on a voluntary basis. DCFS was responsible for 456 supportive services cases at the end of the quarter.

Length of Time Cases Have Been Open

Both in-home protective services cases and supportive services cases that were active as of the end of the quarter had been open, on average, for just four and one-half months.

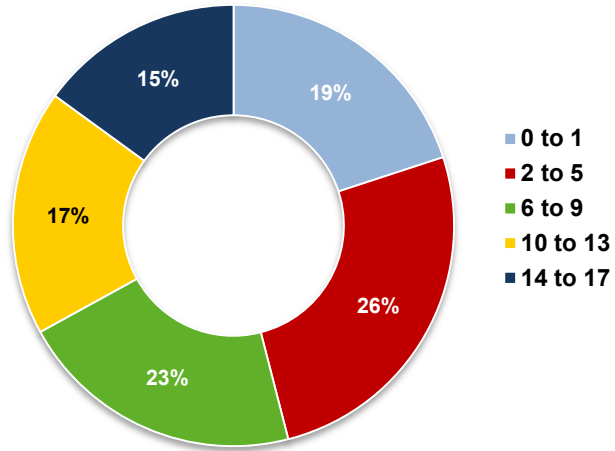

Quick Facts

Age of Children in In-Home Protective Services Cases

Over half (55 percent) of the children involved in in-home protective services cases at the end of the quarter were ages six or older.

Age of Children in In-Home Cases

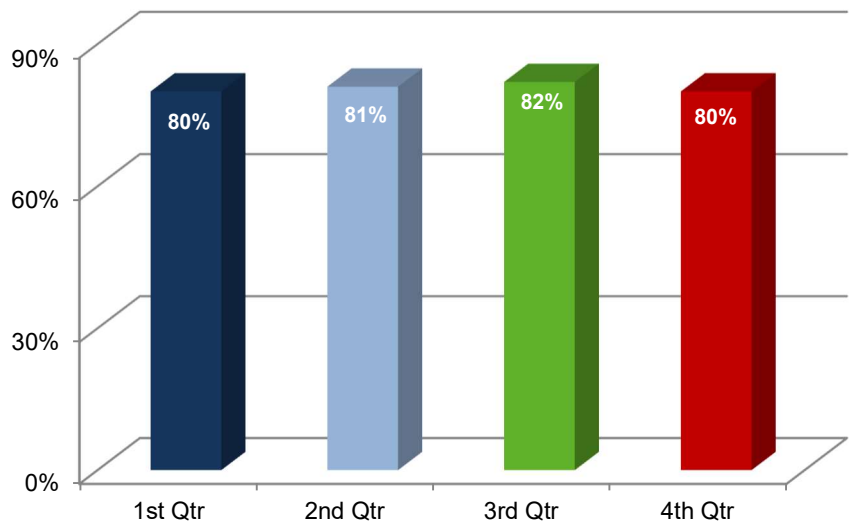

Meeting Agency Policies

Monthly Visits to In-Home Protective Services Cases

Families with an open in-home protective services case must receive a face-to-face visit from a caseworker each month. Caseworkers made 80 percent of these required visits during the fourth quarter.

This is similar to the in-home visitation rate observed for each of the previous three quarters. The Division's goal is 85 percent.

Required Monthly Visits to In-Home Cases

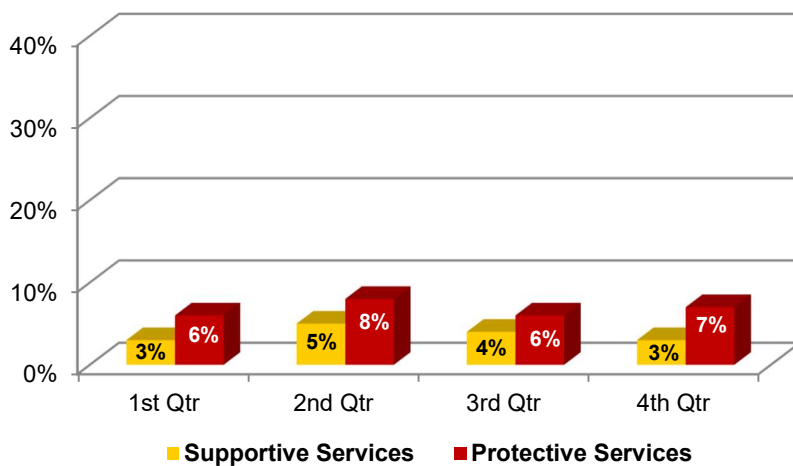

Quick Facts

Benefits to Children and Families

Victimization Rate Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive or Protective Services who were Abused or Neglected within One Year of the Initiation of Service

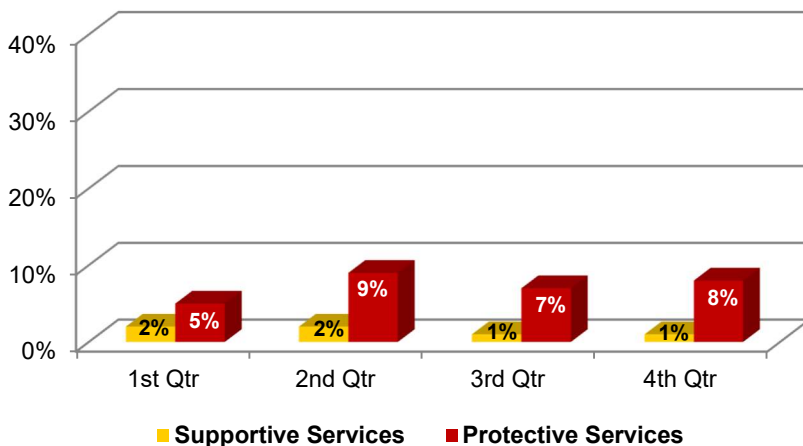

The percentage of children involved in a protective services case who were maltreated within one year of service initiation was seven percent for the fourth quarter.

The rate of maltreatment for children involved through a supportive services case was three percent for the fourth quarter.

Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive or Protective Services who Entered Foster Care within One Year of the Initiation of Service

Of the children who began receiving protective services during the fourth quarter one year ago, eight percent entered foster care within one year of the initiation of those services.

One percent of the children who began receiving supportive services during the same timeframe entered care within one year.

In-home services prevent the vast majority of children from being re-victimized or entering foster care within one year.

Quick Facts

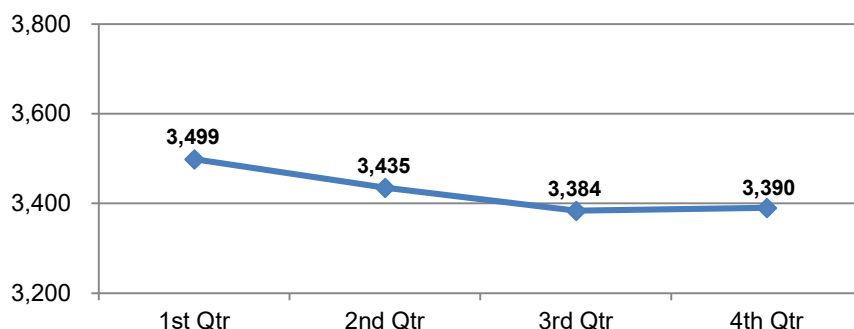

Foster Care

Volume and Description of Cases

Number of Children in Foster Care

There were 3,390 children in foster care at the end of the fourth quarter SFY 2025, similar to the previous quarter (3,384).

Number of Children in Foster Care

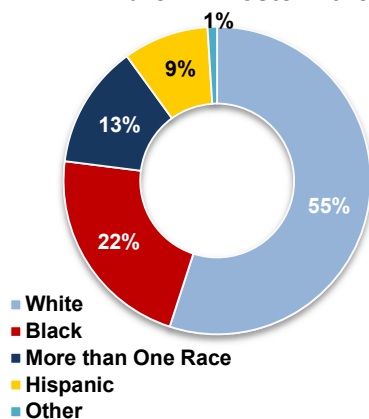

Characteristics of Children in Foster Care

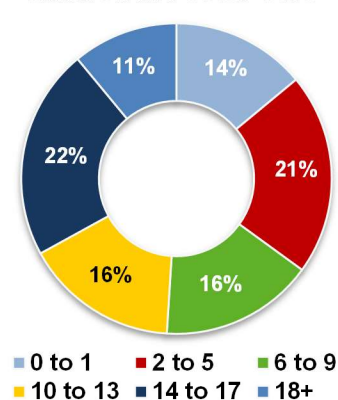

At the end of the quarter, children ages five years or younger made up 35 percent of all children in foster care. Fifty-five percent of those in care were white, 22 percent were black, and 13 percent were multiracial.

Of the children in foster care at the end of the quarter, 51 percent were male and 49 percent were female.

Race/Ethnicity of Children in Foster Care

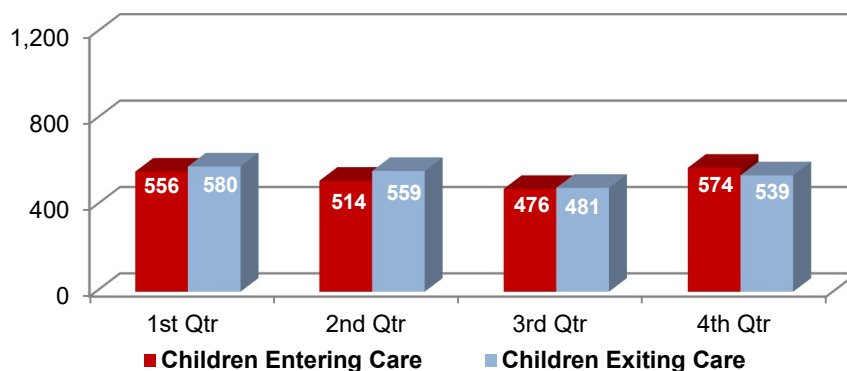

Age of Children in Foster Care

Admissions Into and Discharges From Foster Care

Slightly more children entered foster care during the fourth quarter than had exited.

Number of Admissions into and Discharges from Foster Care During the Quarter

Quick Facts

Reasons for Children's Entry Into Foster Care

Reasons for Children's Entry Into Foster Care 4th Quarter SFY 2025

| Placement Reason | Number of Entries | Total |
|----------------------|-------------------|-------|
| Neglect | 304 | 53% |
| Substance Abuse | 254 ¹ | 44% |
| Parent Incarceration | 153 | 27% |
| Physical Abuse | 102 | 18% |
| Inadequate Housing | 88 | 15% |
| Sexual Abuse | 35 | 7% |
| Abandonment | 29 | 5% |
| Caretaker Illness | 18 | 5% |
| Child's Behavior | 16 | 3% |
| Truancy | 7 | 1% |
| All Other Reasons | 11 | 2% |

A child may have more than one reason for entry.

Neglect and substance abuse were the most common reasons for children entering foster care during the fourth quarter, similar to the previous quarter.

Arkansas' Safe Haven Law allows for anonymous and legal relinquishment of infants up to 30 days old in designated locations (e.g., hospitals, police and fire stations, Safe Haven baby boxes), with the infants then entering foster care so DCFS can work to find them a permanent home. No children entered foster care via the Safe Haven Law during the fourth quarter.

Reasons for Children's Discharge from Foster Care

Reasons for Children's Discharge from Foster Care 4th Quarter SFY 2025

| Discharge Reason | Number of Discharges | Total |
|------------------------------|----------------------|-------|
| Reunification | 239 | 44% |
| Adoption | 107 | 20% |
| Relative Custody | 72 | 13% |
| Guardianship | 53 | 10% |
| Child Aged Out | 45 | 8% |
| Non-Relative Custody | 11 | 2% |
| Non-Custodial Parent Custody | 8 | 1% |
| All Other Reasons | 4 | 1% |

National data² indicate that the three most prevalent reasons children leave care are reunification (44%), adoption (27%), and guardianship (10%).

Forty-four percent of the children who left foster care during the quarter were reunified with their own family, and 20 percent were adopted.

Overall, 91 percent of the children exiting care in Arkansas achieved permanency either by returning home or via discharge to relatives, an adoptive home, or another permanent living arrangement.

¹ These 254 cases of substance abuse include 204 instances of parental drug abuse, 43 instances of parental alcohol abuse, 6 instances of drug abuse by a child, and 1 instance of alcohol abuse by a child.

² National data from the Children's Bureau (May 2025).

Quick Facts

Length of Stay in Foster Care

Of the children in foster care at the end of the fourth quarter, just over half (53 percent) had been in care for 12 months or longer.

Length of Stay in Foster Care for Children in Care
4th Quarter SFY 2025

| Length of Stay | Number | Percentage |
|-------------------|--------|------------|
| Less than 30 days | 142 | 4% |
| 1-3 Months | 344 | 10% |
| 3-6 Months | 371 | 11% |
| 6-12 Months | 733 | 22% |
| 12-24 Months | 813 | 24% |
| 24-36 Months | 371 | 11% |
| 36+ Months | 616 | 18% |
| Total | 3,390 | 100% |

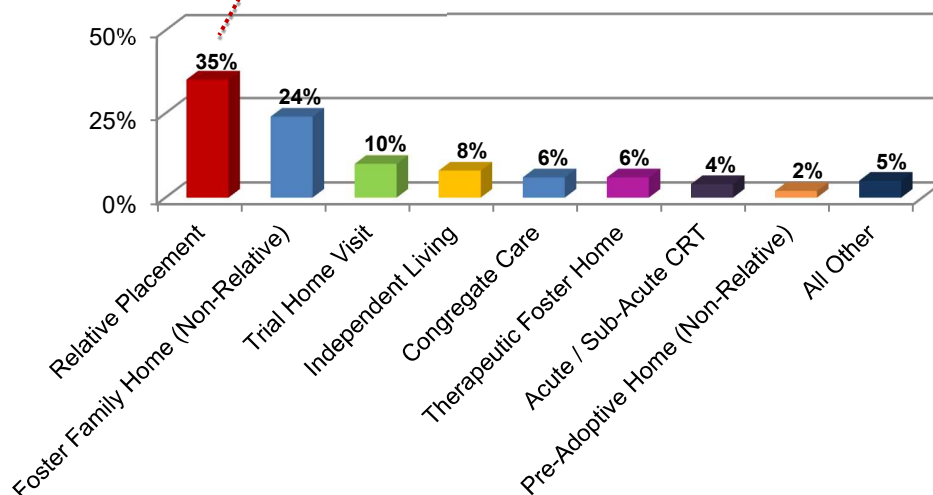

Placements of Children in Foster Care

Overall, 77 percent of the children in foster care at the end of the quarter resided in a family-like setting (i.e., relative placement, foster family home, therapeutic foster home, trial home visit, pre-adoptive home).

Six percent resided in congregate care, which represents placement in a qualified residential treatment program (QRTP), residential treatment care or residential care only program, or emergency shelter.

Foster Home (Rel/Fic): 21%
Provisional (Rel/Fic): 11%
ICPC (Out of State): 2%
All Other Relative: 1%

Placement of Children in Foster Care at the End of the Quarter

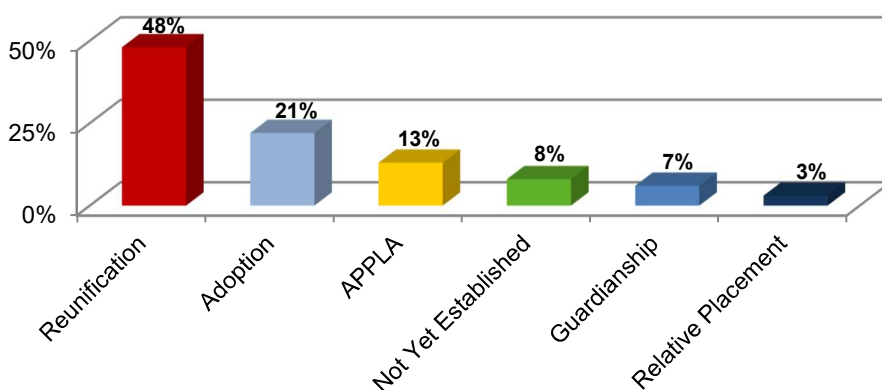

Permanency Goals of Children in Foster Care

Forty-eight percent of the children in care at the end of the quarter had a permanency goal of reunification (return home) and 21 percent had a goal of adoption.

These figures differ slightly from national data from the Children's Bureau as of May 2025, with averages of 42 percent for reunification and 23 percent for adoption.

Permanency Goals of Children in Foster Care at the End of the Quarter

Quick Facts

Meeting Agency Policies

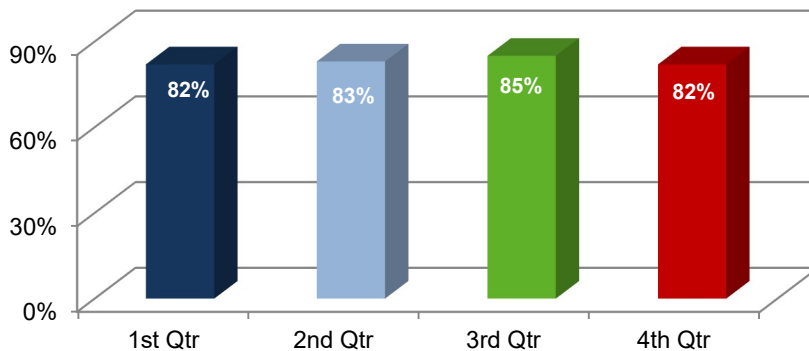

Monthly Visits to Children in Foster Care

To ensure their safety and well-being, best practice requires children in care to be visited in their placement by a caseworker monthly (measured in this chart). The Division's goal is 95 percent.

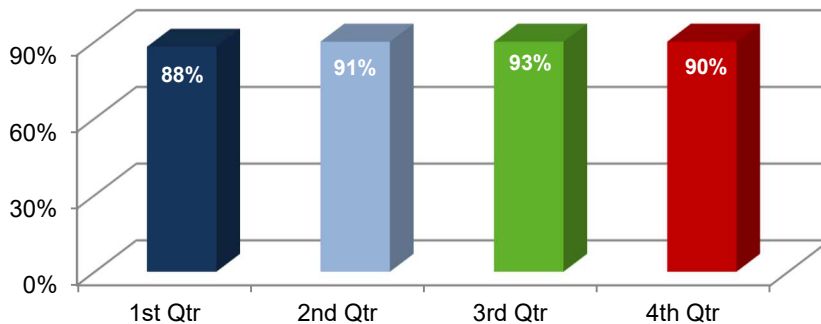

DCFS caseworkers made 82 percent of their required monthly face-to-face visits with children in care during the fourth quarter. This was in line with the visitation rates observed for previous quarters.

Ninety percent of the foster children received a monthly face-to-face contact from *any* DCFS staff member, regardless of the staff member's position, location of the visit, or the purpose.

Children in Care who Received Monthly Face-to-Face Visits by Caseworkers

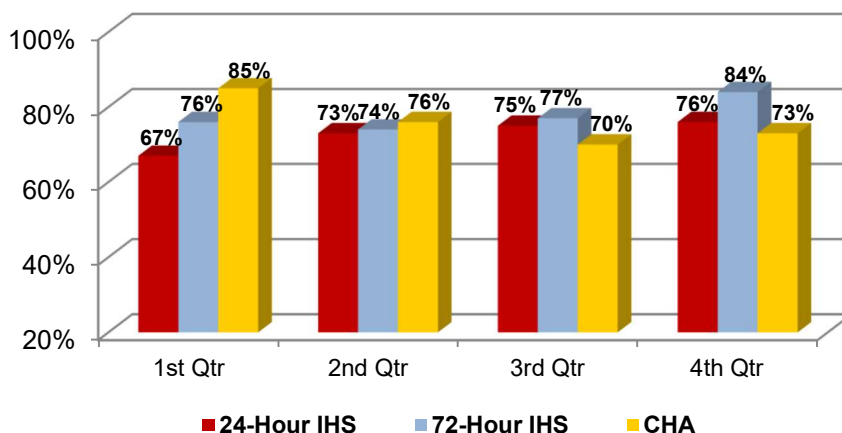

Children in Care who Received Monthly Face-to-Face Visits from Any DCFS Staff

Initial Health Screenings and Comprehensive Health Assessments

24-Hour and 72-Hour Initial Health Screenings and Comprehensive Health Assessments

When a child enters foster care due to an allegation of severe maltreatment, DCFS must conduct an Initial Health Screening (IHS) within 24 hours. All other incoming foster children require an initial screening within 72 hours.

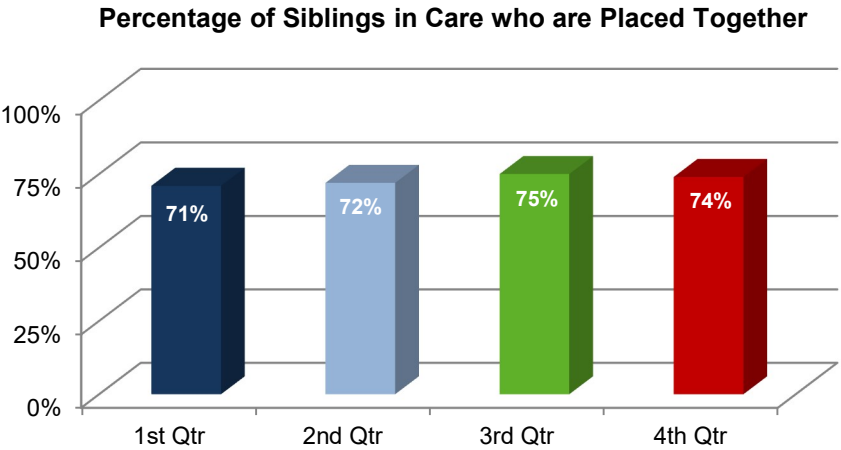

Children must also receive a Comprehensive Health Assessment (CHA) within 60 days of entering foster care.

Quick Facts

Siblings in Care Who Are Placed Together

At the end of the quarter, 74 percent of the children with siblings in foster care were placed with at least one of their siblings, while 55 percent were placed with all of their siblings.

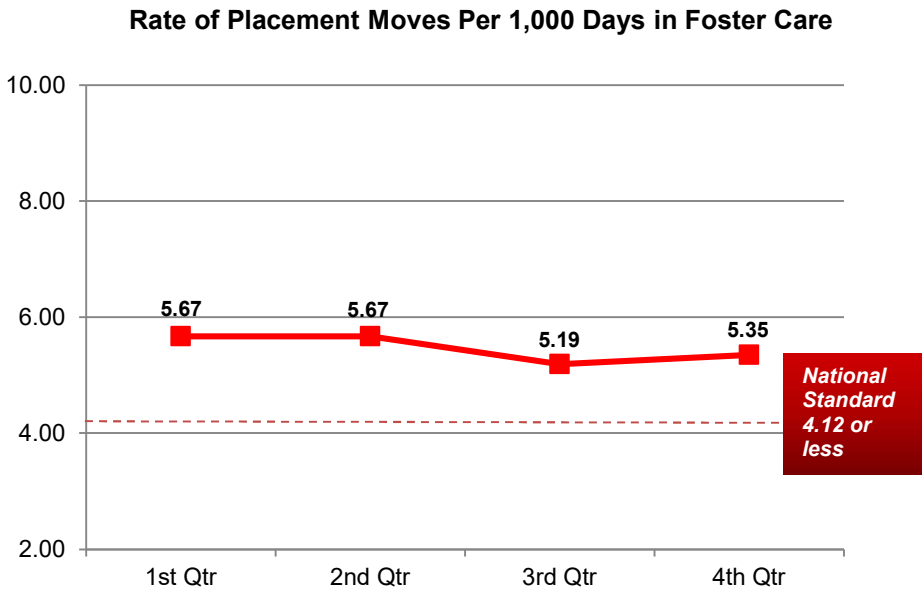

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

Placement Stability of Children in Foster Care

Placement stability is measured by the rate of placement moves per 1,000 days in foster care for children who enter care over a 12-month period.

For the fourth quarter, the placement stability rate was 5.35, slightly higher than the rate observed for the previous quarter. The national standard is 4.12.

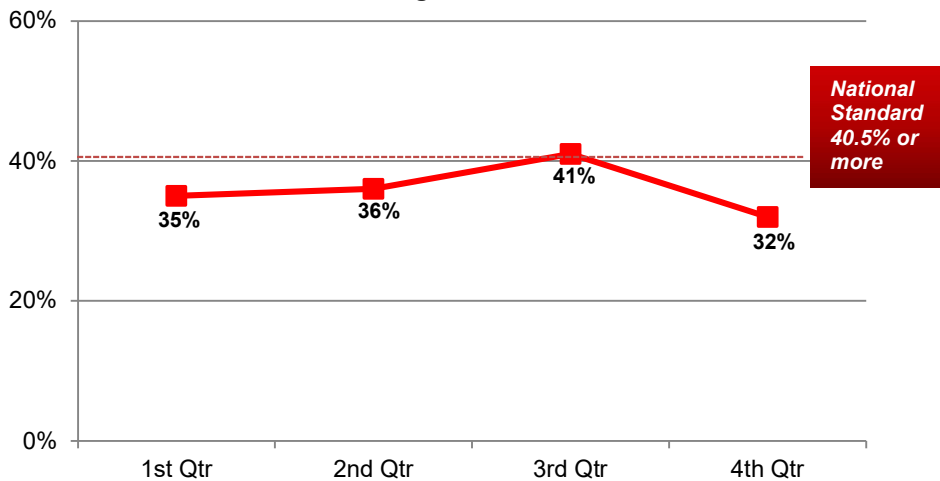

Quick Facts

Benefits to Children and Families

Achieving Permanency Within Twelve Months

Permanency within 12 Months
of Entering Foster Care

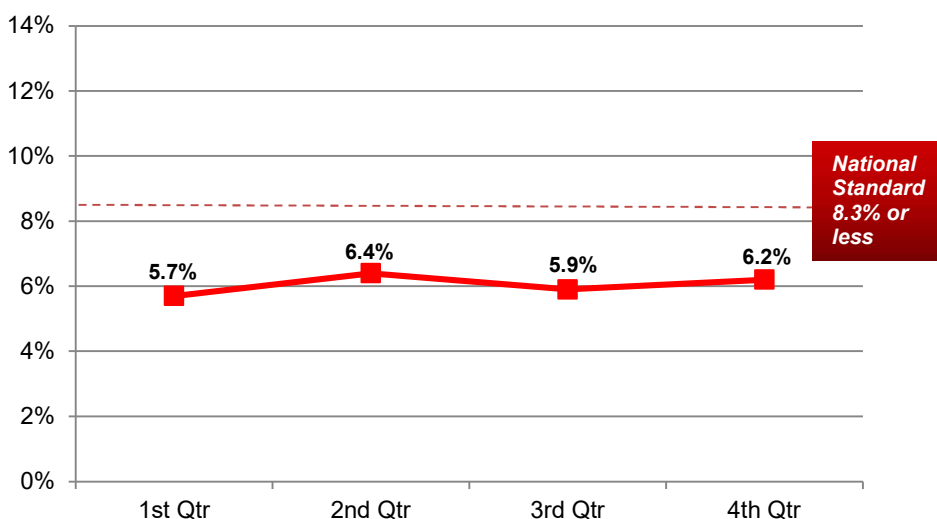

The national standard is for 40.5 percent of all children entering foster care to achieve permanency (i.e., exiting foster care to a permanent living situation) within 12 months of removal. Discharges from foster care due to reunification, relative custody, non-custodial parent custody, guardianship, adoption, and non-relative custody are considered to be permanent living situations.

For the fourth quarter of SFY 2025, 32 percent of the children entering care in Arkansas achieved permanency within 12 months. This is lower than the previous quarter.

Preventing Children's Re-Entry Into Foster Care

Re-Entries Into Foster Care

Six percent of children who had reunited with their families subsequently re-entered foster care within 12 months of discharge for the fourth quarter of SFY 2025. This is less than the national standard (8.3 percent).

Quick Facts

Adoption

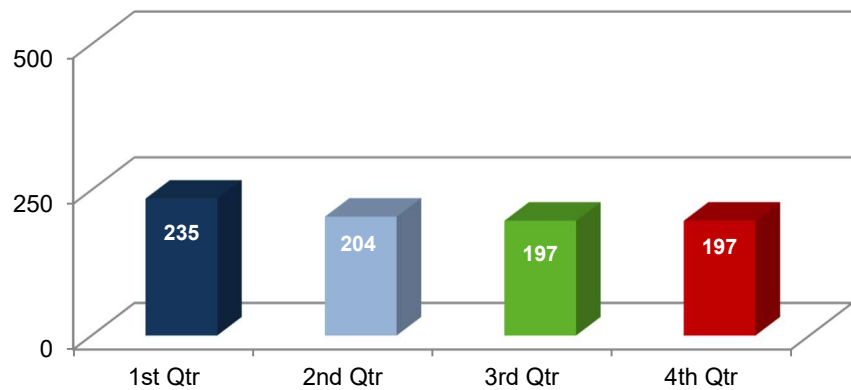

Volume and Description of Cases

Children Available for Adoption³

At the end of the fourth quarter, 197 children were available for adoption.

DCFS estimates that it has identified a possible pre-adoptive placement for approximately 20 percent of the children available for adoption.

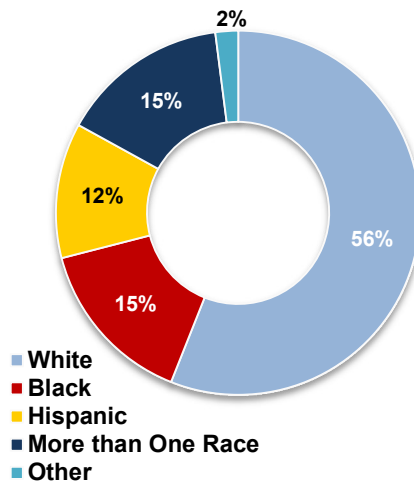

Number of Children Available for Adoption at the End of the Quarter

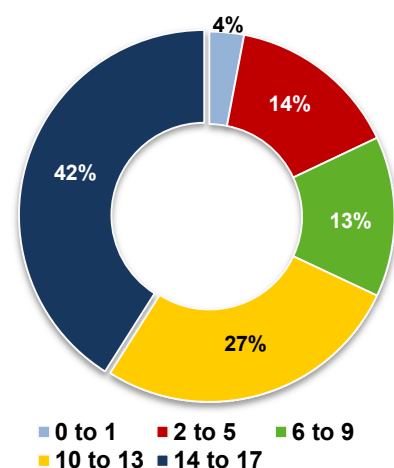

Characteristics of Children Available for Adoption

Of the available children, 56 percent were white, 15 percent were black, 15 percent were multiracial, and 12 percent were Hispanic. Children ages ten and older made up 69 percent of the children available for adoption.

Race/Ethnicity of Children Available for Adoption

Age of Children Available for Adoption

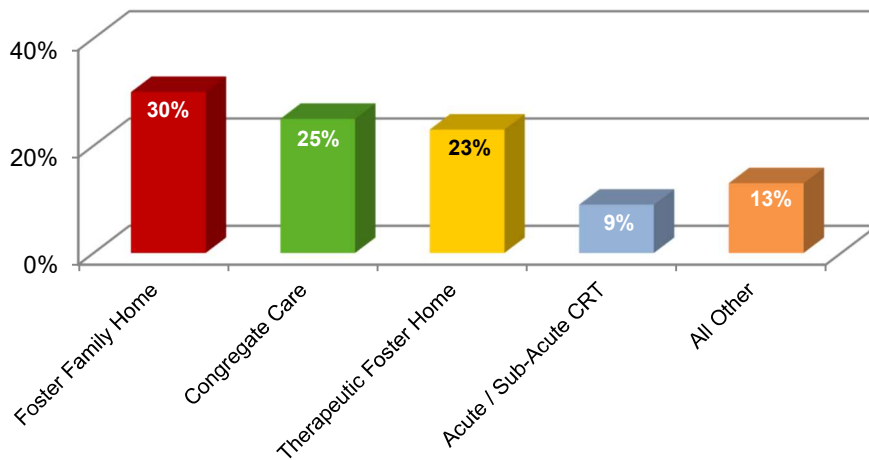

³ Children available for adoption are defined as those who (1) have a termination of parental rights on both parents, (2) have a permanency goal of adoption, and (3) are not placed with relatives, fictive kin, or a pre-adoptive family.

Quick Facts

Placement of Children Available for Adoption

Just over half (53 percent) of the children available for adoption resided in either a foster family home or therapeutic foster home at the end of the quarter. Twenty-five percent resided in congregate care.

Placement of Children Available for Adoption

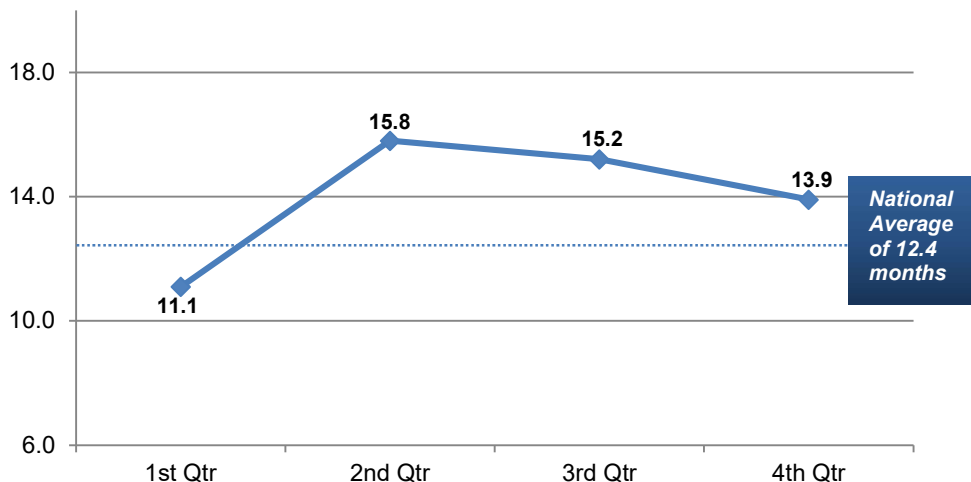

Meeting Agency Policies

Length of Time to Adoption

Arkansas' average length of time from termination of parental rights (TPR) until adoption finalization was just under 14 months during the quarter, shorter than the previous quarter but longer than the national average (12.4 months).

Length of Time From TPR to Finalization of Adoption (Months)

Quick Facts

Benefits to Children and Families

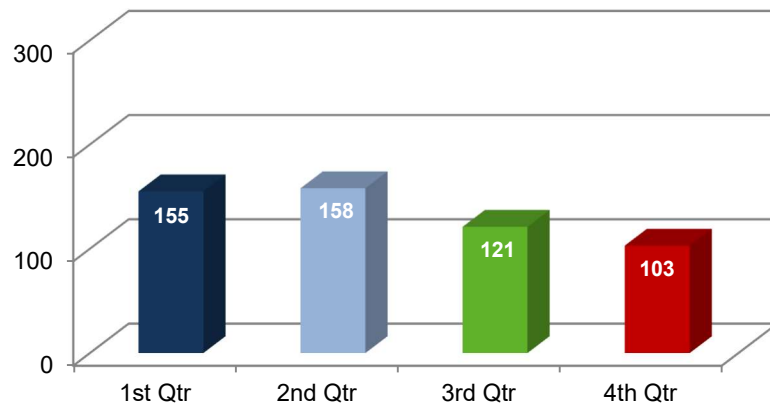

Finalized Adoptions

One-hundred and three adoptions were finalized during the fourth quarter of SFY 2025.

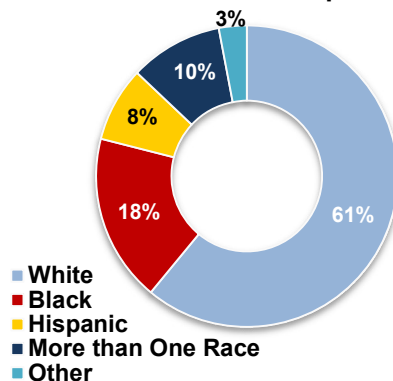

Of those adoptions, 28 percent were finalized by relatives.

Children ages two to five made up the largest group (36 percent) among those adopted during the quarter. Sixty-one percent of those adopted during the quarter were white.

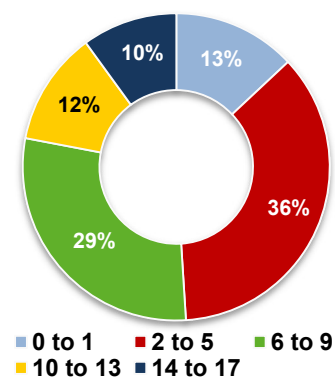

Number of Adoptions Finalized During the Quarter

Race/Ethnicity of Children with Finalized Adoption

Age of Children with Finalized Adoption

Subsidized Adoptions

Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- Healthy child of color and at least two years of age
- Member of any sibling group placed together, sharing at least one biological parent, who develop a bond
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental, or emotional conditions documented by a medical professional

During the fourth quarter, **133** children began receiving adoption subsidies. Of those, 129 were federally funded subsidies and 4 were state funded subsidies.

During the quarter, a total of **8,214** children received adoption subsidies.

Resources

Quick Facts

Caseworkers and Caseloads

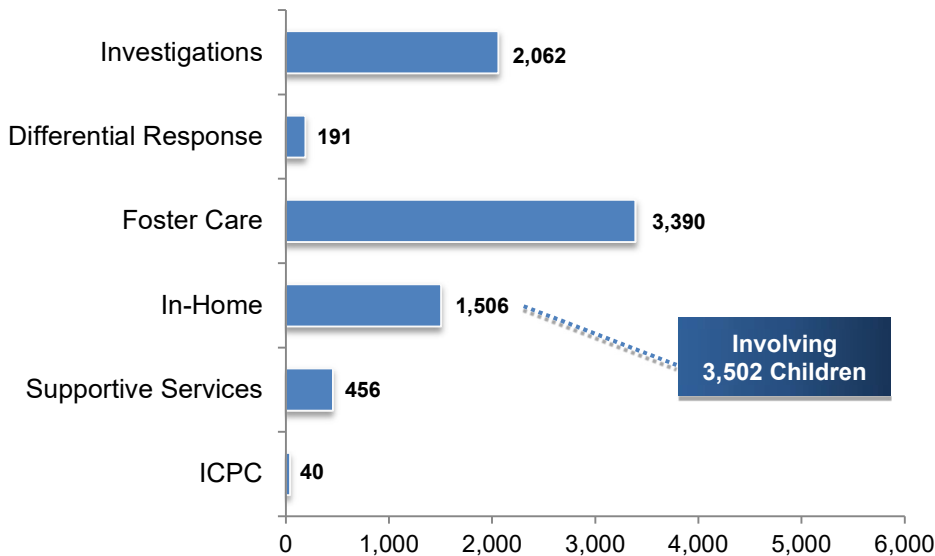

Caseloads at the End of the Quarter

At the end of the fourth quarter, the Division was responsible for:

- 2,062 investigations of child maltreatment and 191 DR cases;
- 3,390 foster care cases;
- 1,506 in-home protective services cases, involving 3,502 children;
- 456 supportive services cases and 40 interstate compact for the placement of children (ICPC) cases.

This is while the Division was staffed with 438 family service workers who were responsible for handling these cases.

Types of Cases at the End of the Quarter

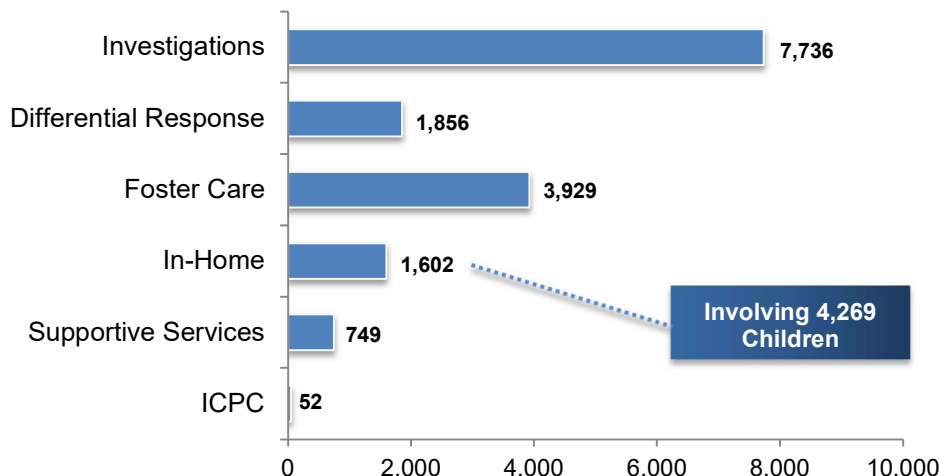

One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.

Caseloads Handled *During* the Quarter

This figure illustrates the number of cases that cycled through the system anytime during the quarter (as opposed to those open at the end of the quarter, described above).

The Division oversaw 7,736 investigations, 1,856 DR cases, 3,929 children in foster care, 1,602 in-home protective services cases, 749 supportive services cases, and 52 ICPC cases.

Types of Cases Served During the Quarter

Quick Facts

Average Caseload

The average caseload statewide was 17 cases per worker at the end of the quarter. The Division's goal is 20 or fewer cases per worker.

The average caseload for each county as of June 2025 is presented in Appendix B.

Foster Homes

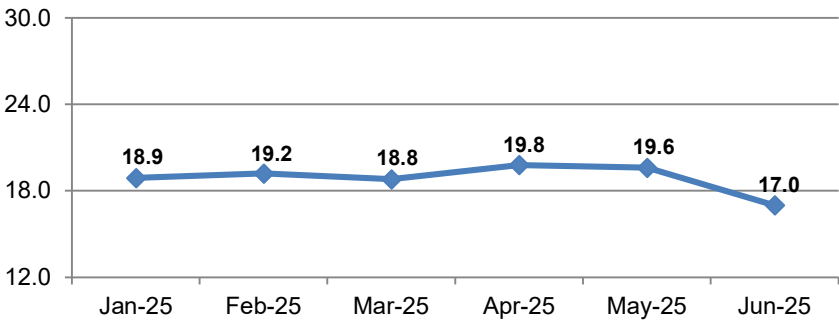

Foster Homes and Beds

There were 1,362 licensed foster family homes open statewide at the end of the fourth quarter, providing a total of 2,644 available beds.

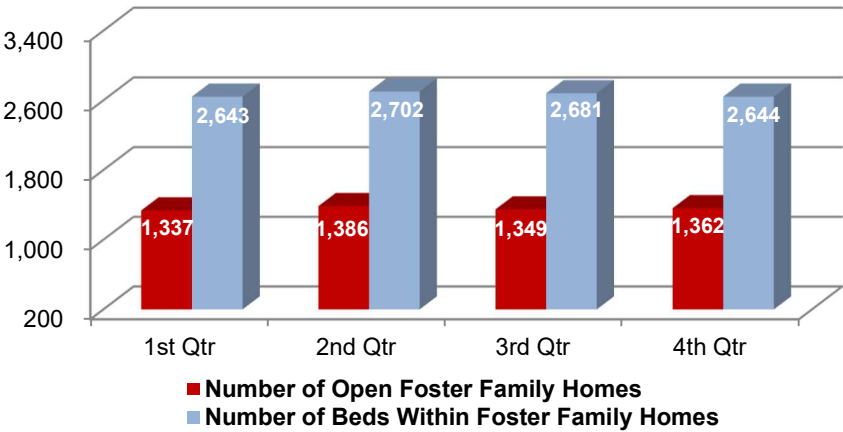

During the most recent quarter, 261 new foster homes were opened and 237 were closed, resulting in a net gain of 24 homes.

Appendix C displays the closure reasons for the foster homes that closed during the quarter.

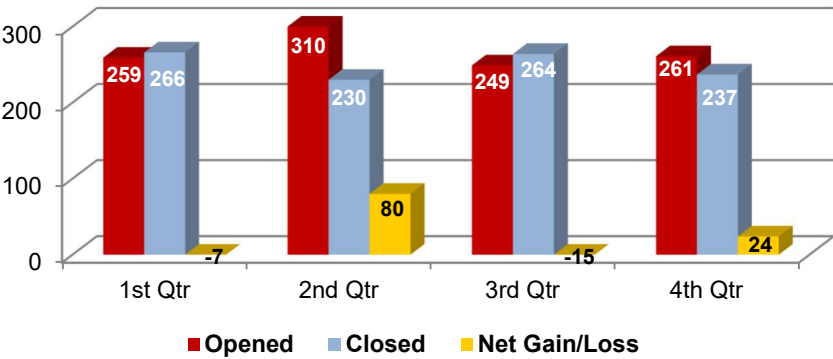

Average Caseload at the End of Month

Number of Foster Homes and Beds at the End of Quarter

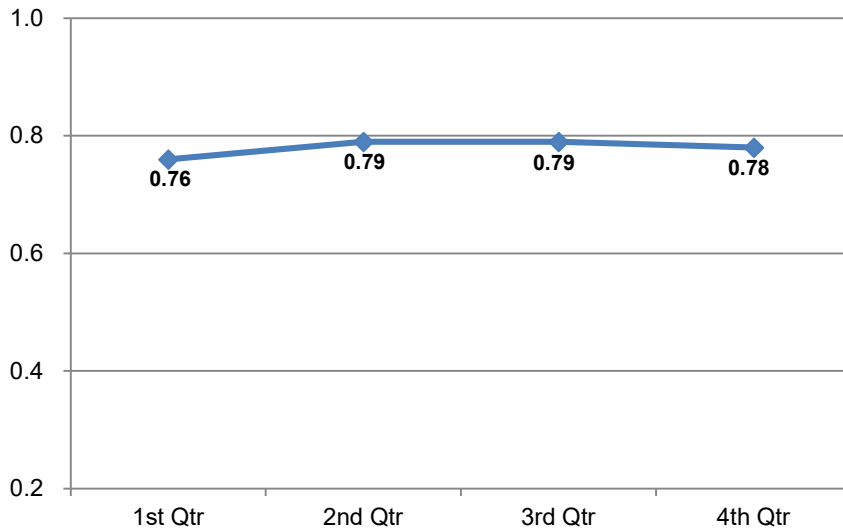

Number of Foster Homes Opened and Closed During the Quarter

Quick Facts

Ratio of Foster Home Beds to Foster Children

Foster Home Bed to Foster Child Ratio

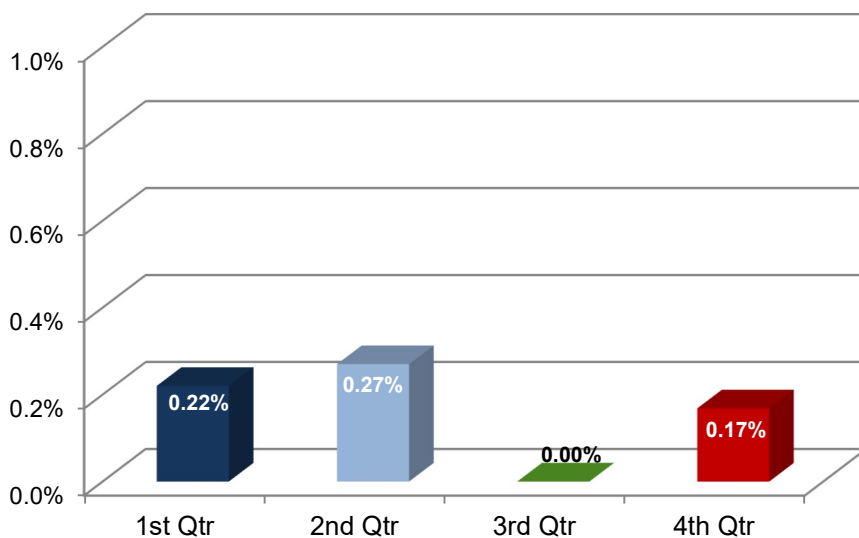

The ratio of licensed foster home beds to children in foster care stood at 0.78 at the end of the fourth quarter, similar to previous quarters.

The Division's goal is to have at least one foster home bed available for each child in foster care.

Percentage of Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

Three reports in which a foster parent was identified as an alleged offender were determined to be true during the fourth quarter. Based on the 1,782 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.17 percent.

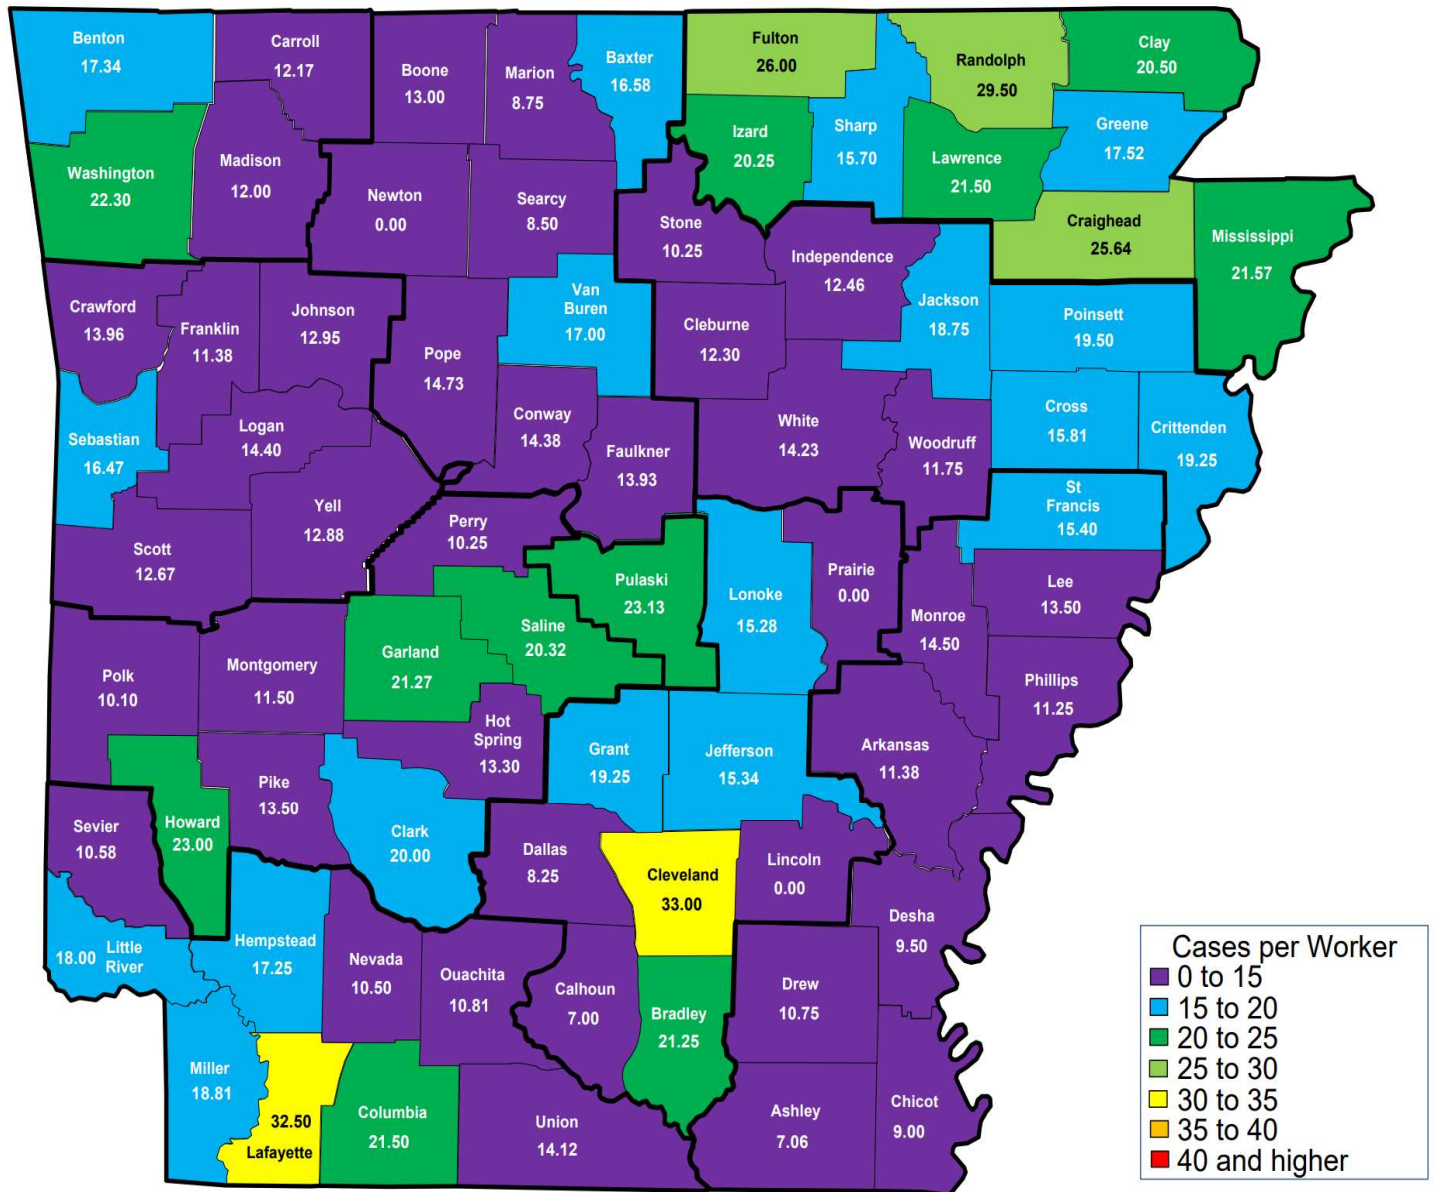

Appendix D provides more detail on reports of alleged maltreatment concerning foster homes.

Appendix A: Breakdown of Child Maltreatment Reports Received During the Quarter and Substantiation Rates of Maltreatment Investigations⁴

| | DCFS | | | | CACD | | |
|---------------------|-----------------------------------|--|---------------------|--------------|--|---------------------|--------------|
| | Total Assessments Assigned for DR | Total Assessments Assigned for Investigation | True Investigations | Percent True | Total Assessments Assigned for Investigation | True Investigations | Percent True |
| First Quarter 2025 | 1,094 | 4,128 <i>4,110 Closed</i> | 931 | 23% | 1,444 <i>1,331 Closed</i> | 433 | 33% |
| Second Quarter 2025 | 1,651 | 5,660 <i>5,595 Closed</i> | 963 | 17% | 1,691 <i>1,506 Closed</i> | 448 | 30% |
| Third Quarter 2025 | 1,488 | 4,799 <i>4,771 Closed</i> | 861 | 18% | 1,394 <i>1,299 Closed</i> | 359 | 28% |
| Fourth Quarter 2025 | 1,654 | 5,450 <i>5,408 Closed</i> | 882 | 16% | 1,603 <i>1,441 Closed</i> | 380 | 26% |

⁴ The data cited in this appendix run two months behind the referenced quarter (e.g., the fourth quarter refers to 2/1/2025 through 4/30/2025); as a result, the numbers cited in this appendix differ from those cited throughout the report, which considers the actual quarter. This is because investigations have a 45-day completion timeframe and this allows enough time to pass to measure the disposition of the investigations. An investigation is excluded from the calculation of the substantiation rate in the event that it has not yet been closed (and thus a disposition has not yet been rendered).

Appendix B: Average Caseload as of June 30, 2025, by County

Lincoln, Newton, and Prairie counties did not have any family service workers at the end of SFY 2025; their cases were assigned to workers from other counties.

Appendix C: Foster Home Closure Reasons

| Area | County | Change in Family Circumstances | Foster Family's Decision | No Longer Meets Requirements | Adopted / Custody / Guardianship / Relative Only | Founded Abuse / Neglect | Provider / Services No Longer Needed | Other | Total |

Appendix D: Summary of Foster Care Maltreatment Reports

Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, 4th Quarter SFY 2025

One-hundred and forty-nine reports of alleged maltreatment involving children in foster care were received by the hotline during the fourth quarter of SFY 2025.

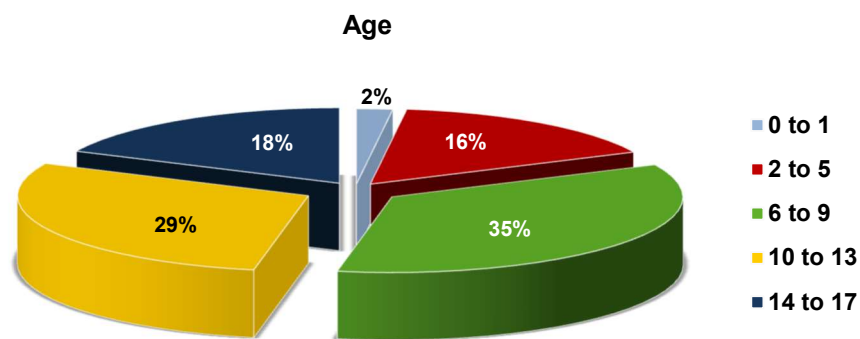

In 51 reports involving 63 children, foster parents⁵ were identified as the alleged offenders. As shown in the following table, three of those reports were found to be true. The foster homes identified in those three reports were closed.

**Foster Home Maltreatment Reports
4th Quarter SFY 2025**

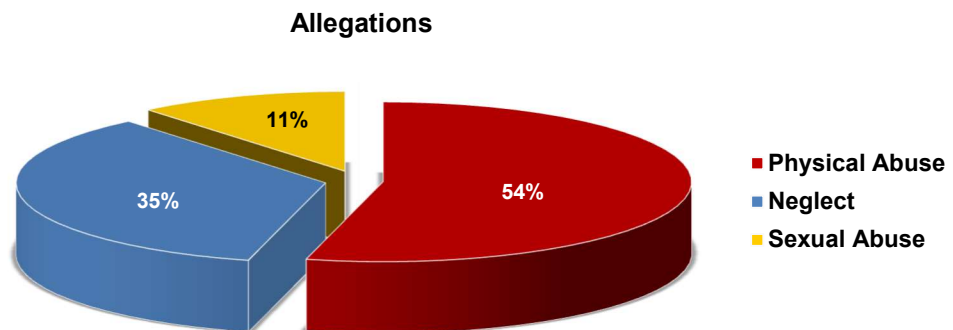

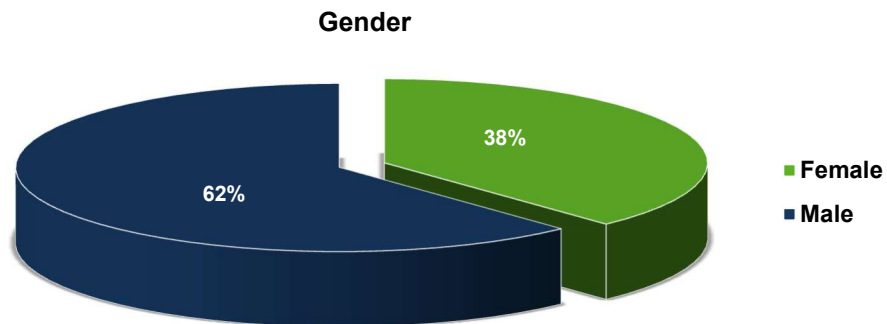

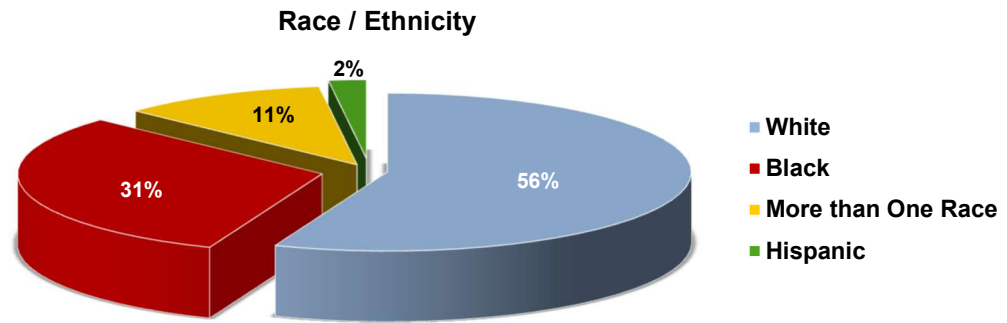

| True | Unsubstantiated | Pending |
|------|-----------------|---------|
| 3 | 43 | 5 |

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts describe the characteristics of the 63 children in foster care who were involved in allegations of maltreatment with foster parents identified as the alleged offenders.

⁵ This includes foster family homes and therapeutic foster homes.

Location of Foster Homes in Which Alleged Maltreatment Occurred

| County | Number of Children Involved in Maltreatment Report(s) |
|--------------|---|
| Jefferson | 12 |
| Pulaski | 9 |
| Crawford | 8 |
| Washington | 5 |
