16 ADVOCACY' AS THE 'DEPARTMENT OF RURAL
17 SERVICES'."

20 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:
21

22 SECTION 1. Arkansas Code 15-6-102 is amended to read as follows:

23 "15-6-102. Legislative intent.

24 (a) The General Assembly hereby finds and declares that:

25 (1) Federal, state, and local resources, and individual effort
26 available to address rural needs are often isolated and limited to individual
27 symptoms of blight and deterioration. Related programs are frequently
28 inaccessible to the residents they are designed to serve. The placement of
29 such programs within the various organizational structures is indistinct and
30 many localities have inadequate numbers of managerial, professional, or
31 technical personnel to pursue such assistance. Additionally, many public and
32 private agencies also lack adequate staffing to adapt programs and services to
33 the special needs and requirements of citizens and their environs. This
34 situation has contributed to a growing confusion and disintegrating force that
35 discourages coordinated individual policy and program development and delivery
36 of services intended to address the needs of rural localities and citizens.

1 Consequently, the energies and resources of the many individual federal,
2 state, and local, public and private initiatives that could help answer rural
3 needs and capitalize on the strengths of these areas are often frustrated or
4 diminished in their effort;

5 (2) An important role and challenge for state government,
6 therefore, is to get diverse groups to work together for the betterment of
7 Arkansas, and to combine their efforts in imaginative ways to the end that all
8 regions of the state may always offer the highest possible quality of life,
9 cultural and material standards of living without sacrificing individual
10 freedom or responsibility. The General Assembly believes that such individual
11 efforts can be significantly enhanced, and support and sustain each other in
12 the public interest; and many useful and innovative responses to rural needs
13 will be possible if a more focused and coordinated interdisciplinary approach
14 for addressing these problems and opportunities is made available through
15 state government;

16 (3) The General Assembly seeks to amplify the efforts of existing
17 agencies and individuals who are interested in such rural policy areas as
18 economic development and employment, local government and management,
19 business, agriculture, environment, land use, natural resources, community
20 revitalization, human services and community life, health care, education,
21 transportation, community facilities, and housing;

22 (4) Since no state office has been specifically created to
23 promote, harmonize, or assist efforts to address the unique needs, conditions,
24 and strengths of rural areas of the state, it is, therefore, the intent of the
25 General Assembly to create the Arkansas Rural Development Commission and ~~an~~
26 ~~Office of Rural Advocacy~~ a Department of Rural Services. The commission shall
27 serve as the focal point for generating rural development policy initiatives
28 for the State of Arkansas.

29 (b) The ~~office~~ department shall:

30 (1) Serve as a single contact point for rural governments,
31 service providers, state and federal agencies, and for individuals interested
32 in rural policies and programs of the state;

33 (2) Strive to promote cooperative and integrated efforts among
34 such agencies and programs that are designed to address rural needs;

35 (3) Recommend to the Governor and to the General Assembly the
36 suitable use of policies, programs, long-range plans, laws, and regulatory

1 mechanisms in order to meet such needs."

2
