# A Bill

HOUSE BILL 1557

5 By: Representative R. Scott Richardson  
6 By: Senator J. Bryant  
7

## For An Act To Be Entitled

8  
9 AN ACT TO AMEND THE DUTIES AND POWERS OF THE DIVISION  
10 OF INFORMATION SYSTEMS CONCERNING INFORMATION  
11 TECHNOLOGY; TO AMEND THE DEFINITIONS UNDER THE  
12 ARKANSAS CODE RELATED TO THE DIVISION OF INFORMATION  
13 SYSTEMS; AND FOR OTHER PURPOSES.  
14

## Subtitle

15  
16  
17 TO AMEND THE DUTIES AND POWERS OF THE  
18 DIVISION OF INFORMATION SYSTEMS  
19 CONCERNING INFORMATION TECHNOLOGY.  
20

21 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:  
22

23 SECTION 1. Arkansas Code § 25-4-103(6), concerning the definition of  
24 "information technology" as it applies to the Division of Information  
25 Systems, is amended to read as follows:

26 (6) "Information technology" means ~~any component related to~~  
27 ~~information processing and wired and wireless telecommunications, including~~  
28 ~~data processing and telecommunications hardware, software, services,~~  
29 ~~planning, personnel, facilities, and training~~ the use, development,  
30 management, and application of computer systems, networks, and electronic  
31 data processing to collect, store, process, transmit, retrieve, and secure  
32 information and includes without limitation:

- 33 (1) Hardware;
- 34 (2) Software;
- 35 (3) Networking and telecommunications;
- 36 (4) Data management;

- 1           (5) Cybersecurity;  
 2           (6) Privacy;  
 3           (7) Third-party hosting; and  
 4           (8) Emerging technology;

5  
 6           SECTION 2. Arkansas Code § 25-4-105(a)(2)(R), concerning the  
 7 development of a state information technology plan by the Division of  
 8 Information Systems, is amended to read as follows:

9                   (R) ~~Developing a state information technology plan that~~  
 10 ~~shall establish a state level mission, goals, and objectives for the use of~~  
 11 ~~information technology~~ Developing, implementing, and maintaining a unified  
 12 biannual statewide information technology plan through analysis of  
 13 information technology plans developed by each state agency that includes:

14                           (i) A statewide disaster recovery plan that  
 15 identifies risks in each budget unit and directs state agencies to adopt risk  
 16 mitigation strategies, methods, and procedures to minimize risks;

17                           (ii) A list of approved state agency projects by  
 18 category;

19                           (iii) A detailed list of information technology  
 20 assets that are owned, leased, or employed by the state; and

21                           (iv) Detailed budget information for each state  
 22 agency's approved technology plan;

23  
 24           SECTION 3. Arkansas Code Title 25, Chapter 4, is amended to add an  
 25 additional section to read as follows:

26           25-4-130. Statewide information technology – Duties and powers.

27           (a) In addition to the duties under § 25-4-105, the Division of  
 28 Information Systems shall:

29                           (1) Administer the state's information technology;

30                           (2) Provide statewide project management for any information  
 31 technology projects, including without limitation procedures for the:

32                                   (A) Assessment of viability, operational efficiencies, and  
 33 cost-benefit analysis of a proposed project;

34                                   (B) Determination of whether a joint project or system is  
 35 appropriate, including without limitation:

36   (i) Methods for the approval and prioritization of

1 projects that aim to eliminate duplicative and overlapping services and  
2 maximize information technology cost savings; and

3 (ii) Publication to each state agency of an annual  
4 priority standards list that each project will be evaluated against for  
5 approval;

6 (3)(A) Establish and enforce statewide minimum mandatory  
7 standards for information technology that apply to all state agencies,  
8 including without limitation executive departments.

9 (B) The standards of a state agency may be more stringent  
10 than the statewide minimum standards, but in no case less than the minimum  
11 standards.

12 (C) When federal standards apply that are stricter than  
13 statewide minimum standards, the federal standards shall apply;

14 (4) Develop performance reporting guidelines and requirements  
15 for information technology systems and conduct an annual review to compare  
16 state agency plans and budgets with results and expenditures;

17 (5) Establish a centralized information technology governance  
18 model to provide uniformity and procurement oversight for information  
19 technology across state agencies, including without limitation:

20 (A) Defining clear roles, responsibilities, and decision-  
21 making authority at the state and department levels;

22 (B) Creation of an information technology governance team  
23 to prioritize initiatives and allocate resources effectively;

24 (C) Identifying areas for cost reduction by eliminating  
25 duplication of efforts and procurement of information technology; and

26 (D) Increasing the state's purchasing power by negotiating  
27 enterprise pricing for information technology; and

28 (6) Provide a report on the statewide information technology  
29 plan and projects annually to the Joint Committee on Advanced Communications  
30 and Information Technology that includes without limitation:

31 (A) Overall metrics for system performance costs;

32 (B) A comparison of expected costs to actual costs after  
33 project completion;

34 (C) User satisfaction analysis; and

35 (D) A project approval matrix for the next following  
36 fiscal year.

1           (b) A state agency shall not:

2                   (1) Use state funds for or enter into any agreement for the  
3 acquisition, development, or enhancement of any information technology or any  
4 contract for information technology services without approval from the  
5 Director of the Division of Information Systems unless:

6                           (A) The purchase price of the product or service is less  
7 than or equal to five thousand dollars (\$5,000) and the product is included  
8 on an approved information technology list maintained by the division; or

9                           (B) The purchase price of the product or service is more  
10 than five thousand dollars (\$5,000) but less than or equal to twenty thousand  
11 dollars (\$20,000), the product is listed on a statewide contract, and the  
12 product is included on an approved information technology list maintained by  
13 the division; or

14                   (2) Develop or enter into a contract for the development of  
15 customized information technology without written authorization by the  
16 director.
