# A Bill

SENATE BILL 534

5 By: Senator G. Leding  
6 By: Representative Eubanks  
7

## For An Act To Be Entitled

9 AN ACT TO ESTABLISH THE ARKANSAS KRATOM CONSUMER  
10 PROTECTION ACT; TO REMOVE MITRAGYNINE AND 7-  
11 HYDROXYMITRAGYNINE, ALSO KNOWN AS KRATOM, FROM THE  
12 CONTROLLED SUBSTANCES LIST IN ARKANSAS; AND FOR OTHER  
13 PURPOSES.  
14

## Subtitle

15  
16 TO ESTABLISH THE ARKANSAS KRATOM  
17 CONSUMER PROTECTION ACT; AND TO REMOVE  
18 MITRAGYNINE AND 7-HYDROXYMITRAGYNINE,  
19 ALSO KNOWN AS KRATOM, FROM THE  
20 CONTROLLED SUBSTANCES LIST IN ARKANSAS.  
21  
22

23 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:  
24

25 SECTION 1. Arkansas Code Title 20, Chapter 56, is amended to add an  
26 additional subchapter to read as follows:

27 Subchapter 5 – Arkansas Kratom Consumer Protection Act  
28

29 20-56-501. Title.

30 This subchapter shall be known and may be cited as the “Arkansas Kratom  
31 Consumer Protection Act”.  
32

33 20-56-502. Legislative findings.

34 The General Assembly finds that:

35 (1) On February 1, 2016, the Department of Health added  
36 mitragynine and 7-hydroxymitragynine, which are two (2) constituent compounds

1 of the kratom plant, as Schedule I substances;

2 (2) The Department of Health justified this action on the basis  
3 that mitragynine and 7-hydroxymitragynine induce opioid-like effects when  
4 consumed and included kratom as a Schedule I substance since it has no  
5 approved medical use by the United States Food and Drug Administration;

6 (3)(A) The United States Food and Drug Administration had  
7 encouraged every state to ban kratom on the premise that it would be  
8 scheduled by the United States Drug Enforcement Administration as a  
9 controlled substance in 2016 and that Alabama, Wisconsin, Indiana, and  
10 Vermont had already classified kratom as a Schedule I substance.

11 (B) Rhode Island also banned kratom in 2017 based on  
12 information provided by the United State Food and Drug Administration;

13 (4) On October 13, 2016, the United States Drug Enforcement  
14 Administration withdrew the United States Drug Enforcement Administration's  
15 scheduling recommendation for kratom, citing insufficient evidence to meet  
16 the requirements for classifying mitragynine and 7-hydroxymitragynine as  
17 Schedule I substances;

18 (5) On August 16, 2018, the Assistant Secretary of Health of the  
19 United States Department of Health and Human Services withdrew the United  
20 States Food and Drug Administration's second scheduling recommendation for  
21 mitragynine and 7-hydroxymitragynine as Schedule I substances citing  
22 "disappointingly poor evidence and data and a failure to consider overall  
23 public health";

24 (6) On December 1, 2021, the Expert Committee on Drug Dependence  
25 at the United Nations Commission on Narcotic Drugs rejected the  
26 recommendation for international scheduling of mitragynine and 7-  
27 hydroxymitragynine citing insufficient evidence to support that action;

28 (7) On February 21, 2023, the Indiana House of Representatives,  
29 on a vote of 53-40, passed a repeal of the kratom ban and replaced it with  
30 the Kratom Consumer Protection Act;

31 (8)(A) On March 1, 2023, the Vermont Department of Health  
32 accepted a petition by the American Kratom Association to remove the kratom  
33 ban.

34 (B) Upon completion of the planned rulemaking of the  
35 Vermont Department of Health, the number of states with a kratom ban has been  
36 reduced to five (5) states;

1           (9) On March 10, 2023, the Wisconsin Controlled Substances Board  
2 passed a motion affirming to the Wisconsin State Legislature that kratom does  
3 not meet the statutorily-mandated eight factors established by the Controlled  
4 Substances Act for scheduling despite their view kratom should not be removed  
5 from scheduling until more research is available;

6           (10) The Rhode Island Legislature is proceeding with the Kratom  
7 Consumer Protection Act after the Interim Director of the Rhode Island  
8 Department of Health acknowledged kratom does not meet the criteria for  
9 scheduling;

10           (11) At this time, nine (9) states, including Utah, Georgia,  
11 Arizona, Nevada, Oregon, Colorado, Oklahoma, West Virginia, and Virginia,  
12 have passed versions of the Kratom Consumer Protection Act;

13           (12) On March 16, 2022, United States Department of Health and  
14 Human Services Secretary Becerra, in a letter to Senator Mike Lee and  
15 Representative Mark Pocan, acknowledged “knowledge gaps” on kratom and that  
16 “kratom-involved overdose deaths have occurred after use of adulterated  
17 kratom products or taking kratom with other substances”;

18           (13) On December 29, 2022, President Joe Biden signed the FY23  
19 Omnibus with kratom report language commending the National Institute on Drug  
20 Abuse for funding studies on kratom that “may provide help for some Americans  
21 struggling with addictions, given its analgesic and less addictive properties  
22 as compared to opioids”;

23           (14)(A) Data from the Department of Health shows that fatal  
24 opioid overdoses have been on the rise in recent years.

25           (B) In 2021, the Department of Health reported there were  
26 six hundred twenty-eight (628) drug overdose deaths in Arkansas; and

27           (15)(A) On May 17, 2022, the Director of the National Institute  
28 on Drug Abuse, Dr. Nora Volkow, testified regarding the drug overdose crisis  
29 at a hearing of the United States Senate Appropriations Subcommittee on  
30 Labor, Health and Human Services, Education, and Related Agencies.

31           (B) When asked about overdose prevention strategies, Dr.  
32 Volkow stated: “There’s also interest in the community to test other products  
33 that may serve as harm reduction. For example, the use of kratom, which is  
34 sold as tea and that contains a drug molecule that has effects that are  
35 similar to a dose of buprenorphine but could be utilized also for decreasing  
36 withdrawal or depression.”

1  
2 20-56-503. Definitions.

3 As used in this subchapter:

4 (1) "Food" means a food, food product, food ingredient, dietary  
5 ingredient, dietary supplement, or beverage for human consumption;

6 (2)(A) "Kratom product" means a food containing any part of the  
7 leaf of the plant Mitragyna speciosa or an extract of the plant mitragyna  
8 speciosa.

9 (B) A "kratom product" may be manufactured as a powder,  
10 capsule, pill, beverage, extract, or other edible form;

11 (3) "Kratom extract" means a food containing any part of the  
12 leaf of the plant Mitragyna speciosa that has been extracted in order to  
13 provide more standardized dosing;

14 (4) "Processor" means a person who sells, prepares,  
15 manufactures, distributes, or maintains kratom products or advertises,  
16 represents, or holds itself out as selling, preparing, or maintaining kratom  
17 products; and

18 (5) "Retailer" means a person that sells, distributes,  
19 advertises, represents, or holds itself out as selling or maintaining kratom  
20 products.

21  
22 20-56-504. Kratom product limitations.

23 A processor shall not prepare, distribute, sell, or expose for sale any  
24 of the following:

25 (1) A kratom product that:

26 (A)(i) Is adulterated with a dangerous non-kratom  
27 substance.

28 (ii) A kratom product is adulterated with a  
29 dangerous non-kratom substance if the kratom product is mixed or packed with  
30 a non-kratom substance and that substance affects the quality or strength of  
31 the kratom product to such a degree as to render the kratom product injurious  
32 to a consumer;

33 (B)(i) Is contaminated with a dangerous non-kratom  
34 substance.

35 (ii) A kratom product is contaminated with a  
36 dangerous non-kratom substance if the kratom product contains a poisonous or

1 otherwise deleterious non-kratom ingredient, including without limitation the  
2 substances listed in the state's controlled substances list;

3 (C) Contains:

4 (i) A level of 7-hydroxymitragynine in the alkaloid  
5 fraction that is greater than one percent (1%) of the overall alkaloid  
6 composition of the product; or

7 (ii) Any synthetic alkaloids including synthetic  
8 mitragynine, synthetic 7-hydroxymitragynine, or any other synthetically  
9 derived compounds of the kratom plant;

10 (2) A kratom extract that contains levels of residual solvents  
11 higher than is allowed in the U.S. Pharmacopeia Chapter 467; or

12 (3) A kratom product or kratom extract that does not provide  
13 adequate labeling directions necessary for safe use by consumers, including a  
14 recommended serving size, the recommended number of servings per day, and the  
15 number of servings in the package that is sold.

16  
17 20-56-505. Age limits.

18 A processor or retailer shall not distribute, sell, or expose for sale  
19 a kratom product to an individual under eighteen (18) years of age.

20  
21 20-56-506. Processor registration.

22 (a)(1) A processor shall register annually with the Department of  
23 Agriculture any kratom product or kratom extract intended to be offered for  
24 sale to an end consumer that is in an approved kratom delivery form and pay a  
25 fee that is adjusted annually to cover all administrative costs for  
26 processing and administering the registrations.

27 (2) The registration shall include a certificate of analysis  
28 from a certified independent third-party laboratory showing compliance with  
29 the requirements for kratom products or kratom extracts in this subchapter.

30 (b)(1) Upon receipt of a credible report of noncompliance with this  
31 subchapter on a kratom product or kratom extract offered for sale, the  
32 department shall require the processor to produce an updated and current  
33 certificate of analysis in a reasonable time frame from a certified  
34 independent third-party laboratory showing compliance with the requirements  
35 of this subchapter for safe kratom products or kratom extracts.

36 (2) If the processor does not provide the certificate of

1 analysis in subdivision (b)(1) of this section in the specified time frame,  
2 the registration for that kratom product or kratom extract shall be revoked.

3 (c)(1) Upon receipt of any adverse event related to a registered  
4 kratom product or kratom extract, the processor shall submit a copy of the  
5 adverse event report via certified mail to the department that is required to  
6 be submitted to the United States Food and Drug Administration under Section  
7 761 of the Federal Food, Drug, and Cosmetic Act.

8 (2) The department may revoke the kratom product's or kratom  
9 extract's registration for any documented failure to report an adverse event  
10 to the department.

11 (d)(1) If the department has a reasonable basis to require an  
12 independent third-party test of a registered kratom product or kratom extract  
13 by a laboratory of the department's choice, the processor shall be required  
14 to submit payment for the test within a reasonable time frame.

15 (2) If the processor does not tender payment to the department  
16 within a set time period upon receipt of the invoice for the testing, the  
17 department shall revoke the registration for that kratom product or kratom  
18 extract.

19  
20 20-56-507. Violations.

21 (a)(1) A processor that violates this subchapter is subject to an  
22 administrative fine of not more than five hundred dollars (\$500) for the  
23 first offense and not more than one thousand dollars (\$1,000) for a second or  
24 subsequent offense.

25 (2) Upon the request of a person to whom an administrative fine  
26 is issued, the Secretary of the Department of Agriculture shall conduct a  
27 hearing in accordance with the Arkansas Administrative Procedure Act, § 25-  
28 15-201 et seq.

29 (b) A retailer does not violate this subchapter if it is shown by a  
30 preponderance of the evidence that the retailer relied in good faith upon the  
31 representations of a processor of food represented to be a kratom product or  
32 kratom extract.
