# A Bill

SENATE BILL 573

5 By: Senators J. Petty, Caldwell  
6 By: Representative Jean  
7

## For An Act To Be Entitled

8 AN ACT TO AMEND THE METHOD OF VALUATION UNDER  
9 ARKANSAS CONSTITUTION, ARTICLE 16, § 5, BY DEFINING  
10 THE TERMS USED IN THE ESTABLISHED METHODS OF  
11 VALUATION FOR PURPOSES OF PROPERTY TAX; TO CLARIFY  
12 AND DEFINE A STANDARD OF VALUATION FOR PROPERTY TAX;  
13 AND FOR OTHER PURPOSES.  
14

## Subtitle

15  
16  
17 TO AMEND THE METHOD OF VALUATION UNDER  
18 ARKANSAS CONSTITUTION, ARTICLE 16, § 5,  
19 BY DEFINING THE TERMS USED IN THE  
20 ESTABLISHED METHODS OF VALUATION FOR  
21 PURPOSES OF PROPERTY TAX.  
22  
23

24 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:  
25

26 SECTION 1. DO NOT CODIFY. Legislative intent.

27 The General Assembly intends for this act to be remedial and to clarify  
28 the law.  
29

30 SECTION 2. Arkansas Code Title 26, Chapter 23, Subchapter 1, is  
31 amended to add an additional chapter to read as follows:

32 26-23-101. Definitions.

33 As used in this subtitle:

34 (1) "Cost approach" means an approach used to estimate the fair  
35 market value of property based on the estimated current cost to construct  
36 improvements plus the value of the land minus all forms of depreciation,

1 including without limitation any loss in value caused by physical  
2 deterioration, functional obsolescence, economic obsolescence, or any  
3 combination of physical deterioration, functional obsolescence, or economic  
4 obsolescence;

5 (2) "Economic life" means the period of time over which a  
6 structure or component of property may reasonably be expected to be  
7 profitably used for the purpose originally intended;

8 (3) "Economic obsolescence" or "external obsolescence" means the  
9 loss in value of property caused by factors external to the property,  
10 including without limitation the economics of an industry, increased costs or  
11 loss of material or labor sources, lack of utilization, excess operating  
12 costs, new legislation or regulation, changes in ordinances, reduced demand,  
13 increased competition, inflation or interest rates, and other factors;

14 (4) "Fair market value", "market value", "true and full market  
15 or actual value", "true market value", or "usual selling price of similar  
16 property" means the value prescribed by Arkansas Constitution, Article 16, §  
17 5, which is the most probable price expressed in terms of money that a  
18 property will bring on the open market in a transaction between a willing and  
19 knowledgeable seller and willing and knowledgeable buyer in an arms-length  
20 transaction;

21 (5) "Functional obsolescence" or "internal obsolescence" means  
22 the loss in value of property caused by the inefficiencies or inadequacies of  
23 the property itself, resulting from changes in tastes, preferences, technical  
24 innovations or improvements, market standards, or other factors;

25 (6) "Income approach" or "income and expense approach" means an  
26 approach used to estimate the fair market value of property based on the  
27 present value of the projected income stream ultimately attributable to the  
28 taxable portion of the property;

29 (7) "Market approach" or "sales comparison approach" means an  
30 approach used to estimate the fair market value of property based on  
31 comparing sales of similar properties by identifying appropriate units of  
32 comparison and making qualitative comparisons with or quantitative adjustment  
33 to the sales prices of the comparable properties based on relevant market-  
34 derived elements of comparison;

35 (8) "Physical deterioration" or "physical depreciation" means a  
36 loss in value of property resulting from the using up or expiration of the

1 useful life or economic life of the property caused by ordinary wear and  
2 tear, deterioration, physical stresses, the forces of nature, or other  
3 factors;

4 (9) "Physical life" means the period of time over which a  
5 structure or component of property may reasonably be expected to physically  
6 exist before deteriorating or fatiguing to an unusable condition from  
7 physical causes; and

8 (10) "Useful life" means the period of time over which a  
9 structure or component of property may reasonably be expected to perform the  
10 function for which the structure or component of property was designed.

11  
12 SECTION 3. EFFECTIVE DATE. Section 2 of this act is effective for  
13 assessment years beginning on or after January 1, 2025.
