"SECTION 1. Arkansas Code § 23-17-404 is amended to read as follows:

23-17-404. Preservation and promotion of universal service.

(a)(1) The Arkansas Universal Service Fund (AUSF) is established by this section in order to promote and assure the availability of universal service at rates that are reasonable and affordable and to provide for reasonably comparable services and rates between rural and urban areas.

(2) The AUSF will provide funding to eligible telecommunications carriers that provide basic local exchange services over ~~facilities owned~~ their own facilities or a combination of their own facilities and resale of another carrier's services by the eligible telecommunications carrier.

(3) The AUSF shall be designed to provide predictable, sufficient, and sustainable funding to eligible telecommunications carriers serving rural or high-cost areas of the state.

(b)(1) The AUSF is to provide a mechanism to restructure the present system of telecommunication service rates in the state as provided herein, and all telecommunications providers, except as prohibited by federal law, shall be charged for the direct and indirect value inherent in the obtaining and preserving of reasonable and comparable access to telecommunications services in the rural or high-cost areas. The value and utility of access to and interconnection with the public switched network will be lessened if the rural or high-cost areas do not have comparable access and subscribership.

(2)(A) This AUSF charge for all telecommunications providers shall be proportionate to each provider's Arkansas intrastate retail telecommunications service revenues.

(B) Because customers of the telecommunications providers that would pay the AUSF charge receive the benefits of a universal network, the telecommunications providers may surcharge their customers to recover the AUSF charges paid by the telecommunications provider. Therefore, the AUSF charge is not a tax and is not affected by state laws governing taxation.

(C) For the purpose of assessing mobile telecommunications services, the administrator shall continue to assess only Arkansas intrastate retail telecommunications service revenues and only to the extent such revenues may be considered located in the State of Arkansas in accordance with the Mobile Telecommunications Sourcing Act, Pub. L. No. 106-252.

(c)(1)(A) The Arkansas Public Service Commission shall delegate to a trustee, the "administrator", the administration, collection, and distribution of the AUSF in accordance with the rules and procedures established by the commission and consistent with this subchapter.

(B) The Arkansas Public Service Commission shall take reasonable action to ensure that the administrator has the capability and capacity to perform its function in a timely and effective manner. The commission shall seek proposals from appropriate entities.

(2)(A) The administrator shall enforce and implement all rules and directives governing the funding, collection, and eligibility for the AUSF.

(B) Within sixty (60) days after receipt of a request for AUSF funds, the administrator shall review and determine the accuracy and appropriateness of the request and advise the entity requesting the funds of his or her determination.

(C) The affected parties shall have thirty (30) days to request reconsideration by the commission of the administrator's determination, and the commission after notice and hearing, if requested, shall issue its opinion on the reconsideration within thirty (30) days after the request of reconsideration.

(D) Persons aggrieved by the commission's opinion shall have the right to appeal the opinion in accordance with law.

(d)(1) The AUSF administrator periodically shall establish and notify each telecommunications provider of the AUSF charge levels required to be paid by the telecommunications provider.

(2) Any telecommunications provider that without just cause fails to pay the AUSF charge that is due and payable pursuant to this section after notice and opportunity for hearing shall have its authority to do business as a telecommunications provider in the State of Arkansas revoked by the commission.

(3) The AUSF charge shall not be subject to any state or local tax or franchise fees.

(4) The commission is authorized to increase the AUSF charge by those amounts necessary to recover the cost of administration of the AUSF.

(e) After reasonable notice and hearing, the commission shall establish rules and procedures necessary to implement the AUSF. The commission shall implement the AUSF and make AUSF funds available to eligible telecommunications carriers no later than ninety (90) days following the later of February 4, 1997, or the effective date of a Federal Communications Commission order pursuant to 47 U.S.C. § 254 that approves, establishes, or modifies interstate universal service funding. Prior to the implementation and availability of funds from the AUSF, the commission shall not require any local exchange carrier to reduce rates for intrastate switched-access services or require any local exchange carrier to reduce its net revenue received from the Arkansas IntraLATA Toll Pool (AITP). In establishing and implementing the AUSF, the commission shall adhere to the following instructions and guidelines:

(1)(A) AUSF funding shall be provided directly to eligible telecommunications carriers~~;~~.

(B) In order for an eligible telecommunications carrier to receive funds from the AUSF, the eligible telecommunications carrier must agree to be subject to the telecommunications provider rules promulgated by the commission;

(2)(A) After reasonable notice and hearing, the commission may revise the list of universal services identified in § 23-17-403 that may be supported by the AUSF to establish and maintain end-user rates for universal services that are reasonably comparable between urban and rural areas or to reflect changes in the type and quality of telecommunications services considered essential by the public, as evidenced, for example, by those telecommunication services that are purchased and used by a majority of single-line urban customers. At the hearing, the commission shall consider the cost to customers in mandating changes to the list and balance the justification for including the service on the list versus its impact on AUSF assessments.

(B) The commission shall determine and approve AUSF funding to eligible telecommunications carriers to recover the cost of additions or revisions to the universal service list concurrent with any such revisions to the list of universal services identified in § 23-17-403;

(3) If the commission establishes or utilizes a minimum or threshold universal service rate, threshold rate, for the purpose of determining the amount of AUSF that an eligible telecommunications carrier may receive, the commission shall adhere to the following requirements:

(A) A rate case proceeding or earnings investigation or analysis shall not be required or conducted in connection with the determination or implementation of increases in universal service rates associated with commission use of a threshold rate, and the increases shall not be included in the calculation of the basic local exchange service rate increase limits specified in §§ 23-17-407 and 23-17-412; and

(B) The commission may not require a reduction in universal service rates to a threshold rate unless any associated decrease in revenues is allowed to be concurrently recovered from the AUSF;

(4)(A)(i) In the event of a Federal Communications Commission order, rule, or policy pursuant to 47 U.S.C. § 254(a)(2), the effect of which is to change the federal Universal Service Fund revenues of an incumbent local exchange carrier, the commission shall either increase the rates for basic local exchange service or increase the incumbent local exchange carrier's recovery from the AUSF or a combination thereof to replace the reasonably projected change in revenues.

(ii) In determining whether to increase basic local exchange service rates or increase the AUSF for a tier one company pursuant to this section, the commission shall take into account that company's rates and consider whether the rates are below the statewide average.

(B)(i)(a) Through December 31, 2003, any rural telephone company, excluding tier one companies, that, as a result of changes caused by new or existing federal or state regulatory or statutory directives, experiences a change in intrastate or interstate switched-access services revenues or in net revenue received from the intrastate Carrier Common Line Pool, interstate access charge pools, or the Arkansas IntraLATA Toll Pool shall be allowed to recover the reductions from the AUSF or through modifications in rates applicable to basic local exchange service. The recovered amounts shall be limited to the net reduction in revenues from all sources of support listed in subdivision (e)(4)(A) of this section and this subdivision (e)(4)(B).

(b) Beginning January 1, 2004, any rural telephone company, excluding tier one companies, that, as a result of changes caused by new or existing federal or state regulatory or statutory directives, experiences a change in intrastate or interstate switched-access services revenues or in net revenue received from the intrastate Carrier Common Line Pool prior to January 1, 2004, interstate access charge pools, or the Arkansas IntraLATA Toll Pool shall be allowed to recover the reductions from the AUSF or through modifications in rates applicable to basic local exchange service. The recovered amounts shall be limited to the net reduction in revenues from all sources of support listed in subdivision (e)(4)(A) of this section and this subdivision (e)(4)(B).

(ii)(a) This subdivision (e)(4)(B)(ii) shall become effective on January 1, 2004.

(b) No ILEC shall receive reimbursement from the AUSF for losses resulting from exiting the AICCLP or for a reduction of its carrier common line net revenue requirement unless:

(1) The ILEC is eligible to be in the AICCLP on January 1, 2004; and

(2)(A) The AICCLP no longer provides a mechanism by which ILECs may recover their carrier common line net revenue requirements.

(B)(i) If any provision of the AICCLP is declared invalid for any reason or preempted by any court or any administrative agency and the Arkansas Public Service Commission determines that the provision is material, then each AICCLP member shall individually compute and charge a per-access minute carrier common line rate to fund its carrier common line net revenue requirement.

(ii) The AICCLP members shall charge the rate under subdivision (e)(4)(B)(ii)(b)(2)(B)(i) of this section to underlying carriers.

(iii) The ILECs shall charge a reciprocal rate to other ILECs.

(iv) The commission may review the accuracy of the reciprocal rates and the per-access minute carrier common line rate charged under subdivision (e)(4)(B)(ii)(b)(2)(B) of this section.

(c) If the AICCLP fails to provide an ILEC's carrier common line net revenue requirement, the commission shall provide for concurrent recovery of the revenue loss from the AUSF, basic local exchange rates, or a combination thereof.

(C) In connection with the receipt of AUSF funds for these changes referred to in subdivisions (e)(4)(A) or (B) of this section, it shall not be conditioned upon any rate case or earnings investigation by the commission. The AUSF administrator shall verify the calculations and accuracy of the net revenue reductions, based on a comparison between:

(i) The total annual revenues received from these sources by the eligible telecommunications carrier during the most recent twelve (12) months preceding the required regulatory or statutory changes; and

(ii) The reasonable projection of total test-year annual revenue after the changes are implemented.

(D)(i)(a) Through December 31, 2003, except as provided in this subdivision (e)(4)(D), the intrastate Carrier Common Line Pool charges billed to carriers by the Arkansas Intrastate Carrier Common Line Pool (AICCLP) shall be determined as provided in the AICCLP tariff effective on December 31, 2000. Following April 20, 2001, carriers must continue to report RBMOUs associated with the traffic that they reported as of December 2000 except that incumbent local exchange carriers may discontinue reporting RBMOUs associated with their intracompany flat-rated optional plans that exist as of June 1, 2001. The AICCLP charges shall be adjusted to eliminate any credits to the AICCLP or to interexchange carriers that have been previously required.

(b) Beginning January 1, 2004, except as provided in this subdivision (e)(4)(D), the intrastate Carrier Common Line charges billed to ILECs and underlying carriers shall be determined at the rate of one and sixty-five hundredths cents (1.65›) per intrastate access minute, exclusive of the amounts specified in subdivisions (e)(4)(D)(ii), (iii), and (iv) of this section. However, ILECs that are not AICCLP members may charge at a rate that is less than one and sixty-five hundredths cents (1.65›) and may recover the difference between the actual rate charged and one and sixty-five hundredths cents (1.65›) as allowed under § 23-17-416(b)(3). Following April 20, 2001, carriers must continue to report RBMOUs associated with the traffic that they reported as of December 2000 and shall continue to report through December 31, 2003, except that incumbent local

exchange carriers may discontinue reporting RBMOUs associated with their intracompany flat-rated optional plans that exist as of June 1, 2001. The AICCLP charges shall be adjusted to eliminate any credits to the AICCLP or to interexchange carriers that have been previously required.

(ii)(a) There is created an allocation of AICCLP funds to be known as the "Extension of Telecommunications Facilities Fund".

(b) A maximum of five hundred thousand dollars ($500,000) per year of AICCLP funds shall be allocated to fund the Extension of Telecommunications Facilities Fund to assist in the extension of telecommunications facilities to citizens not served by the wire line facilities of an eligible telecommunications carrier.

There is also created an AICCLP allocation to be known as the "Arkansas Calling Plan Fund".

(2) Through December 31, 2003, the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund will be funded by the AICCLP by assessing one-half (1/2) of the fund to be paid by ILECs and one-half (1/2) of the fund to be paid by all other telecommunications providers reporting intrastate retail billed minutes of use to the AICCLP.

(b) The Arkansas Calling Plan Fund shall receive a maximum of four million five hundred thousand dollars ($4,500,000) per year to assist in funding the provision of calling plans in telephone exchanges in the state.

(iv)(a) Through December 31, 2003, the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund will be funded by the AICCLP assessing one-half (1/2) of the fund to be paid by incumbent local exchange carriers (ILECs) and one-half (1/2) of the fund to be paid by all other telecommunications providers reporting intrastate retail billed minutes of use to the AICCLP. Beginning January 1, 2004, the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund will be paid by the AICCLP members, exiting ILECs, and underlying carriers as follows:

(1) Each AICCLP member and each exiting ILEC shall remit to the AICCLP administrator on a monthly basis the proportion of the total assessment each was paying before December 31, 2003, for a collective total of one-half (1/2) of those funds;

(2) Underlying carriers shall pay to the administrator a collective total of one-half (1/2) of the cost of the Arkansas Calling Plan Fund and Extension of Telecommunications Facilities Fund; and

(3) Each underlying carrier shall continue to remit to the administrator on a monthly basis its portion of the underlying carrier funding requirement of the Arkansas Calling Plan Fund and Extension of Telecommunications Facilities Fund, based upon the underlying carrier's share of Arkansas intrastate telecommunications services revenues and special intrastate ILEC revenues proportionate to the total Arkansas intrastate telecommunications services revenues and special intrastate ILEC revenues of all underlying carriers.

(b) Through December 31, 2003, ILECs shall be individually assessed in accordance with the proportion that the ILEC funds the AICCLP credits that are being eliminated by this section, and each other telecommunications provider shall be assessed based on its portion of the total non-ILEC intrastate retail billed minutes of use.

(c) Amounts paid by ILECs to fund either the Extension of Telecommunications Facilities Fund or the Arkansas Calling Plan Fund created by this section shall not be recoverable from the Arkansas Universal Service Fund (AUSF).

The assessments shall commence upon the first day of the month following April 20, 2001.

(2) The first four million dollars ($4,000,000) shall be allocated monthly as collected to assure that the AUSF has adequate funds to compensate any retroactive claims that may be made against the AUSF due to the change in the test

period resulting from the decision in AT&T Communications of the S.W., Inc. v. Arkansas Pub. Serv. Comm'n, 344 Ark. 188, 40 S.W.3d 273 (2001).

(3) Following the allocation to the AUSF, assessments shall be made with respect to the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund only to the extent necessary, but not more than the maximum specified in this section, to fund any extensions of facilities or calling plans approved by the Arkansas Public Service Commission in accordance with applicable law and this section.

(v)(a) AICCLP charges determined and billed through December 2000 shall be considered final and not subject to further true up or adjustment.

(b) In addition, if an eligible telecommunications carrier was financially harmed by a court-ordered change in the test period applicable for the AUSF funding and an alternate test period was used by the eligible telecommunications carrier for more than one (1) year, then the test period for the harmed eligible telecommunications carrier shall remain the test period originally set by the commission.

Unless an audit is requested prior to February 28, 2004, by a two-thirds (2/3) vote of the participating carriers of the AICCLP as it is constituted prior to January 1, 2004, charges determined and billed through December 2003 shall be considered final and not subject to audit.

(2) The administrator of the AICCLP as it existed prior to January 1, 2004, may supervise any audit that is requested and may further take any action deemed reasonable or necessary to finalize the winding-up process of the AICCLP as it existed prior to January 1, 2004;

(5) All eligible telecommunications carriers may request high-cost funding from the AUSF as necessary in the future to maintain rates for universal services that are reasonable, affordable, and comparable between urban and rural areas. Except as otherwise provided in this subchapter, the funding shall be based on all net investment, including embedded investment, and expenses incurred by the eligible telecommunications carriers in the provision of universal service. High-cost funding shall be provided to eligible telecommunications carriers as needed for the following:

(A) Investments and expenses required to provide, maintain, and support universal services;

(B) Infrastructure expenditures in response to facility or service requirements established by any legislative, regulatory, judicial authority, or governmental entity; and

(C) For other purposes deemed necessary by the commission to preserve and advance the public education and welfare;

(6) In identifying and measuring the costs of providing universal services, exclusively for the purpose of determining high-cost funding levels under this subdivision (e)(6), eligible telecommunications carriers shall have the following options:

(A) The eligible telecommunications carrier may utilize traditional rate case methods and procedures to identify universal service revenue requirements and a residual AUSF funding requirement;

(B) The eligible telecommunications carrier may identify high-cost areas within its local exchange area, the area being no smaller than a single exchange or wire center, and perform a fully distributed allocation of cost and identification of associated revenue in order to quantify funding needs for the areas; or

(C) The commission shall adopt reasonable cost proxies that may be used by an eligible telecommunications carrier for this purpose;

(7) In calculating revenue requirements only for the purpose of establishing high-cost funding needs from the AUSF, the commission shall not fix depreciation rates. However, the commission may make reasonable adjustments to

depreciation expense if an eligible telecommunications carrier's composite depreciation annual accrual rate is greater than the weighted average of composite rates for similar plant and equipment of all other telecommunications providers providing comparable services in the state. In that case, the commission may adjust depreciation expenses of the eligible telecommunications carrier to levels that would not exceed fifteen percent (15%) above a composite accrual rate comparable to the statewide weighted average; ~~and~~

(8)(A)(i) The commission shall establish by regulation a grant program to make grants available to eligible telecommunications carriers for the extension of facilities to citizens who are not served by wire line services of an eligible telecommunications carrier. Grants may be requested by an eligible telecommunications carrier or citizens who are not served or both.

(ii) The commission shall delegate to a trustee the administration, collection, and distribution of the Extension of Telecommunications Facilities Fund in accordance with the rules and procedures established by the commission. The trustee shall enforce and implement all rules and directives governing the funding, collection, and eligibility for the Extension of Telecommunications Facilities Fund.

(B)(i) In establishing regulations for the grant program, the commission shall consider demonstrated need, the length of time the citizens have not been served, the households affected, the best use of the funds, and the overall need for extensions throughout the state.

(ii) The commission may require each potential customer to be served by the extension of facilities to pay up to two hundred fifty dollars ($250) of the cost of extending facilities.

(C) The plan shall be funded by customer contributions and by the Extension of Telecommunications Facilities Fund established by subdivision (e)(4)(D) of this section.

(D)(i) The commission shall provide quarterly reports to the Legislative Council. The reports shall include, but shall not be limited to, the number of requests for grants, the number of grants awarded, the amount awarded, and the number of additional customers served.

(ii) The commission shall notify members of the General Assembly of grants made in their districts.

(E) In order to allow time for potential applicants to request grants, no grants shall be awarded for three (3) months after the effective date of the rules establishing the program.~~;~~ and

(9)(A) Through a surcharge on its customer bills over its total customer access base, an eligible ILEC may recover any reduction in its AUSF payments up to the amount authorized by the AUSF administrator as of July 1, 2005.

(B) The surcharge is not a tax.

(C)(i) For an electing company under § 23-17-401, the surcharge shall be in addition to any rate increase authorized under § 23-17-401.

(ii) For a non-electing ILEC, no general rate application or earnings review shall be required to implement the surcharge.

(f) On or within thirty (30) days following the fifth anniversary of February 4, 1997, the commission and the AUSF administrator shall complete and deliver a report on the status and performance of the AUSF to the Legislative Council.

(g) The current Universal Telephone Service Fund established pursuant to § 23-17-301 et seq. will continue to exist until the AUSF is funded and operational. At that time any funds remaining in the current fund will be transferred to the AUSF, and the current fund will no longer be operational.

(h) The commission shall adopt portability rules as necessary to allow competitive eligible telecommunications carriers to have access to the AUSF funds of eligible telecommunications carriers receiving funds from the AUSF. The commission shall consider cost issues and quality of service issues in the rule making process.

SECTION 2. Arkansas Code § 23-17-405 is amended to read as follows:

23-17-405. Eligible telecommunications carrier.

(a) The incumbent local exchange carrier, its successors and assigns, which owns, maintains, and provides facilities for universal service within a local exchange area on February 4, 1997, shall be the eligible telecommunications carrier within the local exchange area.

(b) Where the incumbent local exchange carrier receives AUSF support, ~~except in areas served by rural telephone companies,~~ the Arkansas Public Service Commission, consistent with 47 U.S.C. § 214(e)(2), after reasonable notice and hearing, may designate other telecommunications providers to be eligible for high-cost support pursuant to § 23-17-404 under the following conditions:

(1)(A) The other telecommunications provider accepts the responsibility to provide service to all customers in an incumbent local exchange carrier's local exchange area using its own facilities or a combination of its own facilities and resale of another carrier's services.

(B) High-cost support under this section will not begin until the telecommunications provider has facilities in place and offers to serve all customers in its service area;

(2) The telecommunications provider may only receive funding for the portion of its facilities that it owns and maintains;

(3) The telecommunications provider will not receive AUSF funding at a level higher than the level of funding received by the incumbent local exchange carrier in the same area;

(4) The telecommunications provider advertises the availability and the charges for the services, using media of general distribution; ~~and~~

(5) The telecommunications provider shall:

(A) Provide a five-year plan demonstrating how high-cost universal service support will be used to improve its coverage, service quality, or capacity throughout the service area for which it seeks designation;

(B) Demonstrate its ability to remain functional in emergency situations;

(C) Demonstrate that it will satisfy consumer protection and service quality standards;

(D) Offer local usage plans comparable to those offered by the incumbent local exchange carrier in the area for which it seeks designation; and

(E) Acknowledge that it may be required to provide equal access if all other eligible telecommunications carriers in the designated service area relinquish their designations; and

(6) ~~It is determined by the~~ The commission determines that the designation is in the public interest after:

(A) Reviewing the benefits of increased consumer choice and the unique advantages and disadvantages of the competitor's service offering;

(B) Examining the potential for cream-skimming effects in instances where the application seeks designation below the study area level of a rural incumbent local exchange carrier;

(C) Offering local usage plans comparable to those offered by the incumbent local exchange carrier in the area for which it seeks designation; and

(D) Acknowledging that it may be required to provide equal access if all other eligible telecommunications carriers in the designated service area relinquish their designations.

(c) In exchanges or wire centers where the commission has designated more than one (1) eligible telecommunications carrier, the commission shall permit a local exchange carrier to relinquish its designation as an eligible telecommunications carrier, consistent with 47 U.S.C. § 214(e)(4), upon a finding that at least one (1) eligible telecommunications carrier will continue to serve the area.

(d)~~(1) For the entire area served by a rural telephone company, excluding tier one companies, for the purpose of the AUSF and the federal Universal Service Fund, there shall be only one (1) eligible telecommunications carrier which shall be the incumbent local exchange carrier that is a rural telephone company.~~

~~(2) The rural telephone company may elect to waive its right to be the only eligible telecommunications carrier within the local exchange area by filing notice with the commission.~~

~~(3)~~ If there is more than one eligible telecommunications carrier, an eligible telecommunications carrier may petition the commission and be granted relief from designation as an eligible telecommunications carrier.

(e) An eligible telecommunications carrier may use commercial mobile services to provide universal services.

SECTION 3. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that there is an immediate need for the amendment of the Telecommunications Regulatory Reform Act of 1997 to ensure compliance with federal law and regulations and to continue to encourage investment in rural telecommunications; that any delay in the effective date of this act could create an undue burden upon Arkansas citizens and could work irreparable harm upon the efficient provision of telecommunications services in the State of Arkansas. Therefore, an emergency is declared to exist and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:

(1) The date of its approval by the Governor;

(2) If the bill is neither approved nor vetoed by the Governor, the expiration of the period of time during which the Governor may veto the bill; or

(3) If the bill is vetoed by the Governor and the veto is overridden, the date the last house overrides the veto."

ARKANSAS SENATE

EIGHTY-FIFTH GENERAL ASSEMBLY

REGULAR SESSION

Amendment No. 1 to SENATE BILL NO. 928

Amend Senate Bill No. 928 as originally introduced:

Insert the additional sections immediately following SECTION 8 of the bill to read as follows:

" SECTION 9. Arkansas Code 19-5-302(10) concerning the Miscellaneous Agencies Fund Account is amended to read as follows:

(10)(A) Miscellaneous Agencies Fund Account. The Miscellaneous Agencies Fund Account may be used for the state's membership in regional or national associations, grants to certain organizations, and maintenance, operations, and improvements of appropriation units as may be authorized by the General Assembly.

(B) The Miscellaneous Agencies Fund Account shall consist of:

(i) Those general revenues as may be provided by law;

(ii) Nonrevenue income derived from services provided by the various agencies and programs funded from the Miscellaneous Agencies Fund Account; and

(iii) Federal reimbursement received on account of eligible expenditures of the various agencies and programs receiving primary support from the Miscellaneous Agencies Fund Account.

~~(C)(i) In the event that the amount of funds estimated to be available for the Miscellaneous Agencies Fund Account is less than the total of the appropriations made from the Miscellaneous Agencies Fund Account, the Chief Fiscal Officer of the State shall determine the amount of each appropriation to be financed after full funding is provided for all national and regional association dues by using the following procedure:~~

~~(a) Determine from each appropriation the lesser of the estimated expenditures for the fiscal year preceding the fiscal year from which the funding level is to be determined and the amount of the appropriation for the fiscal year for which the funding level is to be determined. This result shall be called the "base appropriation";~~

~~(b) From the amount determined in subdivision (10)(C)(i)(a) of this section subtract the amount appropriated for the fiscal year for which the funding level is to be determined. This result shall be called the "improvement level";~~

~~(c) The sum of the amounts determined in (10)(c)(i)(a) of this section shall be subtracted from the estimated amount to be available for the Miscellaneous Agencies Fund Account;~~

~~(d) If the amount estimated to be available for the Miscellaneous Agencies Fund Account is less than the sum of all base appropriations, then the amount of funding to be made available to each appropriation shall be determined by multiplying each appropriation's base appropriation percentage of the sum of all base appropriations by the amount estimated to be available for the Miscellaneous~~

~~Agencies Fund Account; and~~

~~(e) If the amount estimated to be available for the Miscellaneous Agencies Fund Account is greater than the sum of all base appropriations, each appropriation shall first receive full funding of its base appropriation and then it's proportionate share of the amounts determined in subdivision (10)(C)(i)(b) of this section based upon the total of all improvement levels.~~

~~(ii) Upon completing the procedure in subdivision (10)(C)(i)(a) – (d) of this section, the Chief Fiscal Officer of the State shall notify the Legislative Council.~~

~~(iii) However, the Chief Fiscal Officer of the State shall determine for any appropriation authorized for a biennial period the portion of the biennial appropriation that shall be used in the computations as the base appropriation and that portion shall be used as the improvement level.~~

~~(D)(i) The Department of Finance and Administration may upon approval of the Chief Fiscal Officer of the State and the Legislative Council or the Joint Budget Committee transfer any savings that may accrue in any fiscal year in the Miscellaneous Agencies Fund Account to the Department of Rural Services of the Arkansas Rural Development Commission, the Arkansas Science and Technology Authority, the Arkansas Soil and Water Conservation Commission, and the Arkansas Spinal Cord Commission.~~

~~(ii) The transfer is to enable those agencies to fund critical needs of grant and service recipients across the state with the savings from other agencies funded by the Miscellaneous Agencies Fund Account.~~

~~(E)(i) Determining the maximum number of employees and the maximum amount of appropriation and general revenue funding for a state agency each fiscal year is the prerogative of the General Assembly. This is usually accomplished by delineating such maximums in the appropriation act or acts for a state agency and the general revenue allocations authorized for each fund and fund account by amendment to this chapter.~~

~~(ii) The General Assembly has determined that the Department of Finance and Administration may operate more efficiently if some flexibility is provided to the Department of Finance and Administration by authorizing broad powers under this subdivision (10). Therefore, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee as provided by this subdivision (10).~~

~~(iii) The requirement of approval by the Legislative Council or Joint Budget Committee is not a severable part of this section. If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of competent jurisdiction, this entire section is void.~~

(C) If there are not sufficient funds available in the Miscellaneous Agencies Fund Account to support the amounts appropriated from the Miscellaneous Agencies Fund Account, the Chief Fiscal Officer of the State shall determine the amount of moneys to be made available for each of the appropriations made from the Miscellaneous Agencies Fund Account, after having first provided full funding for all national and regional association dues.

(b) School boards and their employees have an obligation to the public to exert full and continuing efforts to achieve the highest possible education standards in the institutions that they serve. This requires the establishment and maintenance of an educational climate and working environment that will attract and retain a highly qualified staff and stimulate optimum performance.

(c)(1) Experience has shown that school boards and their employees can best reach these objectives if each utilizes the ability, experience, and judgment of the other in formulating policies and making decisions that involve the terms and conditions of employee service and other matters of mutual concern.

(2) Such joint participation can be accomplished most effectively if the

employees have the right to the following activities to improve the terms and conditions of employee service and other matters of mutual concern:

(A) Form, join, and assist employee organizations; and

(B) Confer, consult, and negotiate with such school boards through representatives of their own choosing.

(d) The General Assembly hereby declares that it is the policy of the State of Arkansas to recognize the rights of employees of school boards to:

(1) Form, join, and assist employee organizations;

(2) Confer, consult, and negotiate with school boards over the terms and conditions of employee service and other matters of mutual concern through representatives of their own choosing for the purpose of establishing, maintaining, protecting, and improving terms and conditions of employee service and other matters of mutual concern; and

(b)(1) The commission shall consist of three (3) members appointed by the Governor with the approval of the Senate.

(2) The members appointed in 2005 shall serve the following terms:

(2) Any member of the Commission may be removed by the Governor, upon notice and hearing, solely for neglect of duty or malfeasance in office.

(f)(1) The commission shall meet at times and places the chairperson deems necessary. No meetings shall be held outside of the State of Arkansas.

(2) Two (2) members of the commission shall constitute a quorum for the purpose of transacting business.

(3) A vacancy in the Commission shall not impair the right of the remaining members to exercise all of the powers of the Commission.

(b) Employees' organizations shall have:

(1)(A)(i) Access at reasonable times to areas in which employees work;

(ii) The right to use institutional bulletin boards, mail boxes, or other communication media, subject to reasonable regulation; and

(iii) The right to use institutional facilities at reasonable times for the purpose of meetings concerned with the exercise of the rights guaranteed by this act.

(B) However, if a representative of the school employee organization has been selected or designated under Section 6 of this act, a school board shall deny access and usage to any other employees' organization until such time as a lawful and timely challenge to the majority status of the representative is raised under Section 6 of this act; and

(2)(A) The right to have deducted from the salary of school employees, upon receipt of an appropriate authorization form that shall not be revocable for a period of more than one (1) year, the fees and dues required for membership in an employees' organization.

(B) However, if a representative has been selected or

designated under Section 6 of this act, a school board shall deny such deduction to any other employees' organization.

SECTION 6. (a)(1) The representative designated or selected for the purpose of professional negotiation by the majority of the school employees in an appropriate negotiating unit shall be the exclusive representative of all of the school employees in such unit for such purpose, and a school board shall not negotiate matters covered by this act with any other representative.

(2)(A) However, nothing contained herein shall be construed to prevent school employees, individually or as a group, from presenting grievances informally to a school board and from having such grievances adjusted without the intervention of the representative designated or selected by the majority of the school employees in the unit of which they are a part if:

(i) The representative is given an opportunity to be present at the adjustment to make the representative's views known; and

(ii) The adjustment is not inconsistent with the terms of an agreement between the school board and their representative that is currently in effect.

(B) However, the employees shall not be represented by an officer or agent of any employees' organization.

(b)(1) Any employees' organization may file a request with a school board alleging that a majority of the school employees in an appropriate negotiating unit wish to be represented for the purposes of professional negotiation by the organization and asking the school board to recognize it as the exclusive representative under subsection (a) of this section.

(2) Such a request shall describe the grouping of jobs or positions that constitute the unit claimed to be appropriate and shall include a demonstration of majority support through verified membership lists.

(3) Notice of the request to the appropriate negotiating unit shall immediately be posted by the school board on a bulletin board at each school or other facility in which members of the unit claimed to be appropriate are employed.

(4) The request for recognition shall be granted by the school board unless:

(A) The school board doubts in good faith the accuracy or validity of the evidence demonstrating majority support in an appropriate negotiating unit or as to the appropriateness of the claimed unit;

(B) Another employees' organization files with the school board a competing claim of majority support within ten (10) calendar days after the posting of notice of the original request and submits as evidence of its claim of majority support verified membership lists demonstrating support of at least thirty percent (30%) of the school employees in the appropriate negotiating unit;

(C) There is currently in effect a lawful written agreement negotiated by the school board and another employees' organization covering any school employees included in the unit described in the request for recognition; or

(D) The school board has, within the previous twelve (12) months, lawfully recognized another employees' organization as the exclusive representative of any school employees included in the unit described in the request for recognition.

(c) A petition may be filed with the School Employee Relations Commission, in accordance with such rules and regulations as the commission may prescribe for filing, asking the commission to investigate and decide the question of whether school employees have selected or designated an exclusive representative under subsection (a) of this section by:

(1) A school board alleging that it has received a request for exclusive recognition from an employees' organization and doubts in good faith the accuracy or validity of evidence demonstrating majority support in an appropriate unit or as to the appropriateness of the claimed unit;

(2) An employees' organization alleging that it has filed a request for recognition as exclusive representative with a school board and that such request has been denied or has not been acted upon within thirty (30) days after the filing of said request; or

(3) One (1) or more school employees or employees' organization asserting that the school employees in an appropriate unit no longer desire a particular employees' organization as their exclusive representative; provided, however, that such petition is supported by signed statements to that effect from at least thirty percent (30%) of the professional employees in the appropriate negotiating unit.

(d)(1) Upon receipt of such petition, the commission or its agents shall conduct inquiries and investigations or hold such hearings as it shall deem necessary in order to decide the questions raised by the petition.

(2) The commission's determination may be based upon the evidence adduced in such inquiries, investigations or hearings as the commission or its agent shall make or hold, or upon the results of a secret ballot election as the commission shall direct and conduct if deemed necessary; provided, however that the commission shall dismiss, without determining the questions raised therein, any petition filed pursuant to subsections, (c)(2) or (3) of this section if:

(A) The petition filed by an employees' organization is not supported by credible evidence in the form of verified membership lists that at least thirty percent (30%) of the school employees in the unit described therein are members in good standing of the organization seeking recognition;

(B) There is currently in effect a lawful written agreement negotiated by such school board and employees' organization other than the petitioner covering any school employees included in the unit described in the petition, unless the agreement has been in effect for more than three (3) years, or unless the request for recognition is filed less than sixty (60) days prior to the expiration date of the agreement or such greater number of days prior to the expiration date of the agreement as the commission may determine is reasonable because of the budget-making procedure of the school board; or

(C) The school board has, within the previous twelve (12) months, lawfully recognized an employees' organization other than the petitioner as the exclusive representative of any school employees included in the unit described in the petition.

(e) If the commission decides that it is necessary to direct and conduct a secret ballot election in order to resolve the questions raised by the petition, it shall order such election held, but in no event shall the name of any intervening employees' organization appear on the ballot unless the organization has submitted to the commission credible evidence in the form of verified membership lists demonstrating that at least thirty percent (30%) of the school employees in the appropriate unit are members in good standing of such organization.

(f) In each case where the appropriateness of the claimed unit is at issue, the commission shall decide the question on the basis of the community interest between and among the school employees of the school board, their wishes, and their established practices including, among others, the extent to which such employees have joined an employees' organization, whether the unit appropriate for the purposes of negotiation shall consist of all persons employed by the school board who are engaged in teaching or performing other duties of an educational nature or some subdivision thereof.

SECTION 7. (a)(1) Either a school board or the representative selected or designated under Section 6 of this act may declare that an impasse has been reached between the parties in negotiation over the terms and conditions of employee service and other matters of mutual concern and may request the School Employee Relations Commission to appoint a mediator for the purpose of assisting them in reconciling their differences and resolving the controversy on items that are

mutually acceptable.

(2) If the commission determines that impasse exists, it shall, in no event later than five (5) days after the receipt of a request, appoint a mediator in accordance with rules and procedures for such appointment prescribed by the commission.

(3) The commission may, on its own initiative, declare an impasse and appoint a mediator in any particular negotiation.

(4)(A) The mediator shall meet with the parties or their representatives, or both, either jointly or separately, and shall take such other steps as he or she may deem appropriate in order to persuade the parties to resolve their differences and effect a mutually acceptable agreement.

(B) However, the mediator shall not, without the consent of both parties, make findings of fact or recommend terms of settlement.

(b) The services of the mediator, including, if any, per diem expenses, and actual and necessary travel and subsistence expenses, shall be provided by the commission without cost to the parties. Nothing in this subsection shall be construed to prevent the parties from mutually agreeing upon their own mediation procedure and, in the event of such agreement, the commission shall not appoint its own mediator unless failure to do so would be inconsistent with the effectuation of the policies of this act.

(c)(1) If the mediator is unable to effect settlement of the controversy within fifteen (15) days after his appointment, either party may, by written notification to the other, request that their differences be submitted to fact-finding with recommendations.

(2) Within ten (10) days after receipt of the written request for fact-finding, the parties shall select a person to serve as fact-finder and obtain a commitment to serve.

(3) If they are unable to agree upon a fact-finder or to obtain such a commitment within ten (10) days, either party may request the commission to designate a fact-finder.

(4) The commission, shall, within five (5) days after receipt of such request, designate a fact-finder in accordance with rules and regulations prescribed by the commission.

(5) The fact-finder so designated shall not, without the consent of both parties, be the same person who was appointed mediator pursuant to subsection (a) of this section.

(d)(1)(A) The fact-finder shall, within ten (10) days after his appointment, meet with the parties or their representatives, or both, either jointly or separately, at which time each party shall submit a certified copy of the last and best offer that it has made to the other party.

(B) The fact-finder may make inquiries and investigations, hold hearings, and take such other steps as he may deem appropriate.

(C) For the purpose of such hearings, investigations, and inquiries, the fact-finder shall have the power to issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence.

(2) The several departments, commissions, divisions, authorities, boards, bureaus, agencies, and officers of the State of Arkansas or any political subdivision thereof, shall furnish the fact-finder, upon his request, with all records, papers, and information in their possession relating to any matter under investigation by or in issue before the fact-finder.

(3)(A) If the dispute is not settled within thirty (30) days after his appointment, the fact-finder shall make findings of fact and recommend terms of settlement that shall consist of the final offer by either party which in the opinion of the fact-finder is the most fair and reasonable.

(B) Such recommendations by the fact-finder shall be binding on the school board and the employees' organization. A copy shall be submitted to the school board, the employees' organization, and the commission.

(C) When making his or her findings of fact and recommended terms of settlement, the fact-finder shall consider:

(i) The interests and the welfare of the public;

(ii) The interests and the welfare of the employees;

(iii) The interests and the welfare of students;

(iv) The finances of the district;

(v) The cost of living;

(vi) Comparisons with other employees in Arkansas and the nation; and

(vii) Other factors normally taken into consideration in similar arbitration proceedings.

(e)(1) Contracts and any other agreements covering salaries of employees and other conditions of employment that were subjects of disputes and were submitted to fact-finding shall, for the next contract period, be based on and consistent with the recommendations of the fact-finder.

(2) Refusal by either party to enter into and to comply with contracts and agreements based on the fact-finders recommended terms of settlement shall be in violation of this act.

(f)(1) The costs for the services of the fact-finder, including per diem expense, if any, and actual and necessary travel and subsistence expenses, and any other mutually incurred costs, shall be borne equally by the school board and the employees' representative.

(2) Any individually incurred costs shall be borne by the party incurring them.

SECTION 8. (a) A school board and a representative selected or designated under Section 6 of this act who enter into an agreement covering terms and conditions of employee service and other matters of mutual concern may include in the agreement procedures for final and binding arbitration of such disputes as may arise involving the interpretation, or application of such agreement or of established policies or practices of the school board affecting terms and conditions of employee service and other matters of mutual concern.

(b) If the agreement does not include procedures of the type provided for in subsection (a) of this section, either party to the agreement may submit such disputes to final and binding arbitration pursuant to rules and procedures prescribed by the commission.

(c) Where a party to the agreement is aggrieved by the failure, neglect, or refusal of the other party to proceed to arbitration pursuant to the procedures provided therefore in the agreement pursuant to subsection (b) of this section, the aggrieved party may file a complaint in court for a summary action without jury seeking an order directing that the arbitration proceed pursuant to the procedures provided therefore in the agreement or pursuant to subsection (b) of this section.

(d) An award of an arbitrator under this section shall be final and binding upon the parties and may be enforced by the court unless the award of an arbitrator is deficient because:

(1) The award was procured by corruption, fraud, or other misconduct;

(2) The arbitrator was not impartial; or

(3) The arbitrator exceeded his powers or so imperfectly executed them that a final and definite award upon the subject matter was not made.

SECTION 9. (a) It shall be unlawful for a school board to:

(1)(A) Impose or threaten to impose reprisals on employees;

(B) Discriminate or threaten to discriminate against employees; or

(C) Otherwise interfere with, restrain, or coerce employees because of their exercise of rights guaranteed in this act;

(2) Deny to employees' organizations the rights guaranteed to them by

this act; or

(3) Refuse or fail to negotiate in good faith with the representatives selected or designated pursuant to the provisions of Section 6 of this act if requested to do so.

(b) It shall be unlawful for:

(1)(A) An employee or an employees' organization to cause or attempt to cause a school board to engage in conduct in violation of Section 9(a) of this act.

(B) However, this subsection shall not impair the right of an employees' organization to prescribe its own rules with respect to the acquisition or retention of membership therein;

(2) A representative selected or designated under Section 6 of this act to refuse or fail to negotiate in good faith with a school board if requested to do so; or

(3) Employees to strike.

SECTION 10. Except as otherwise expressly provided herein, this act shall not operate so as to annul, modify, or preclude the renewal or continuation of any lawful agreement previously entered into between a school board and an employees' organization covering terms and conditions of employee services and other matters of mutual concern."

(a) The General Assembly finds that many two-year college students enroll in one-year certificate programs or to complete courses with no intention of completing a degree and the retention rate from semester-to-semester would best capture this characteristic of two-year colleges. The General Assembly further finds that the improvement of the semester-to-semester retention rate of full-time students would be overlooked when only measuring graduation rates.

(b)(1) Incentive funding for two-year colleges shall be linked to the semester-to-semester retention rates of full-time degree or certificate seeking students.

(2)(A) The multiplier shall be 1.00 for two-year colleges that do not improve their semester-to-semester retention rate.

(B) The multiplier for two-year colleges that exhibit improvement in the semester-to-semester retention rate will vary from 1.00 to 1.02 depending upon the degree improvement.

SECTION 3. (a)(1) The General Assembly finds that the retention from the freshman year to the sophomore year at a university, referred to as the one-year retention rate, is critical in increasing the likelihood that a full-time student will graduate and improving the one-year retention rate is imperative in order to improve graduation rates.

(2) The General Assembly further finds that the improvement of the first-to-second year retention rate of full-time students would be overlooked when only measuring graduations rates of universities.

(b) (1) Incentive funding for universities shall be linked to the one-year retention rate of first-time, full-time degree-seeking students.

(2)(A) The multiplier shall be 1.00 for universities that do not improve their one-year retention rate.

(B) The multiplier for universities that exhibit improvement in the first-to-second year retention rate will vary from 1.00 to 1.02 depending upon the degree of improvement.

SECTION 4. Funding.

(a)(1) An incentive pool of one million dollars ($1,000,000) shall be established to award two-year colleges and universities based upon Sections 1 through 3 of this act during each year of the 2007-2009 biennium.

(2) The Arkansas Higher Education Coordinating Board shall have the authority to recommend a larger incentive appropriation and funding for the second year of the biennium when the impact upon the funding formulas is better understood and after the level of funding for the 2008 fiscal year is determined.

(b) The funds awarded to the two-year colleges and universities based upon Sections 1 through 3 of this act shall not impact an institution's base funding."

25-37-108. Criteria for review.

The Government Efficiency and Accountability Review Subcommittee and its staff shall consider the following criteria in determining whether a public need exists for the continuation of a state agency or for the performance of the functions of the state agency:

(1) The efficiency with which the state agency operates;

(2) An identification of the objectives intended for the state agency and the problem or need that the state agency was intended to address, the extent to which the objectives have been achieved, and any activities of the state agency in addition to those granted by statute and the authority for these activities;

(3) An assessment of less restrictive or alternate methods of performing any regulation that the state agency performs that could adequately protect the public;

(4) The extent to which the state agency is needed and is used;

(5) The extent to which the jurisdiction of the state agency and the programs administered by the state agency overlap or duplicate those of other state agencies and the extent to which the programs administered by the state agency can be consolidated with the programs of other state agencies;

(6) Whether the state agency has recommended to the legislature statutory changes calculated to be of benefit to the public rather than to an occupation, a business, or an institution that the state agency regulates;

(7) The promptness and effectiveness with which the state agency disposes of complaints concerning persons affected by the state agency;

(8) The extent to which the state agency has encouraged participation by the public in making its rules and decisions as opposed to participation solely by those it regulates and the extent to which the public participation has resulted in rules compatible with the objectives of the state agency;

(9) The extent to which the state agency has complied with the applicable requirements of:

(A) An agency of the United States or of this state regarding equality of employment opportunity and the rights and privacy of individuals; and

(B) State law and applicable rules of any state agency regarding purchasing goals and programs for historically underutilized businesses;

25-37-109. Recommendations.

(a) In its report on a state agency, the Government Efficiency and Accountability Review Subcommittee shall:

(1) Make recommendations on the abolition, continuation, or

reorganization of each affected state agency and on the need for the performance of the functions of the state agency;

(2) Make recommendations on the consolidation, transfer, or reorganization of programs within state agencies not under review when the programs duplicate functions performed in state agencies under review;

(3) Recommend appropriation levels for each state agency for which abolition or reorganization is recommended under subdivision (a)(1) or subdivision (a)(2) of this section; and

(4) Include drafts of legislation necessary to carry out the subcommittee's recommendations under subdivisions (a)(1) and (2) of this section.

(b)(1) The General Assembly shall forward a copy of the report to the Legislative Auditor.

(2) Based on a risk assessment of and subject to the Legislative Joint Audit Committee's approval of including the examination in the audit plan under § 25-37-110, the Legislative Auditor may examine the recommendations which do not require a statutory change and include as part of the next approved audit of the state agency a report on whether the state agency has implemented the recommendations and, if so, in what manner.

25-37-110. Review of certain state agencies.

(a) In the two-year period preceding the date scheduled for the abolition of a state agency under this chapter, the Governmental Efficiency and Accountability Review Subcommittee may exempt certain state agencies from the provisions of this chapter relating to staff reports, hearings, and evaluations.

(c) The subcommittee's action in exempting state agencies under this section shall be done by a majority vote of the subcommittee.

25-37-111. Monitoring of recommendations.

During each regular legislative session, the Government Efficiency and Accountability Review Subcommittee shall monitor legislation affecting state agencies that have undergone review under this chapter.

25-37-112. Continuation by law.

(a) During the regular legislative session immediately before the abolition of a state agency that is subject to this chapter, the General Assembly by law may continue the state agency for a period not to exceed twelve (12) years.

(b) This chapter does not prohibit the General Assembly from:

(1) Terminating a state agency subject to this chapter at a date earlier than that provided in this chapter; or

(2) Considering any other legislation relative to a state agency subject to this chapter.

25-37-113. Procedure after termination.

(a)(1) A state agency that is abolished in an odd-numbered year may continue in existence until June 30 of the following year to conclude its business.

(4) Unless the law provides otherwise, all rules that have been adopted by the state agency expire at the expiration of the one-year period.

(b) Any unobligated and unexpended appropriations of an abolished state agency shall lapse on June 30 of the even-numbered year after abolishment.

(c)(1) Except as provided by subsection (f) of this section or as otherwise provided by law, all money in a dedicated fund of an abolished state agency on June 30 of the even-numbered year after abolishment shall be transferred to the General Revenue Fund Account of the State Apportionment Fund.

(2) The part of the law dedicating the money to a specific fund of an abolished state agency becomes void on June 30 of the even-numbered year after abolishment.

(d) Unless the law or a line item appropriation in an appropriation act of the General Assembly provides otherwise, an abolished state agency funded in an appropriation act of the General Assembly for both years of the biennium may not spend or obligate any of the money appropriated to it for the second year of the biennium.

(e)(1) Unless the Governor designates an appropriate state agency as prescribed by subsection (f) of this section, property and records in the custody of an abolished state agency on June 30 of the even-numbered year after abolishment shall be transferred to the Office of State Procurement of the Department of Finance and Administration.

(2) If the Governor designates an appropriate state agency, the property and records shall be transferred to the designated state agency.

(f)(1) The General Assembly recognizes the state's continuing obligation to pay bonded indebtedness and all other obligations, including lease, contract, and other written obligations, incurred by a state agency abolished under this chapter, and this chapter does not impair or impede the payment of bonded indebtedness and all other obligations, including lease, contract, and other written obligations, in accordance with their terms.

(2) If an abolished state agency has outstanding bonded indebtedness or other outstanding obligations, including, but not limited to, lease, contract, and other written obligations, the bonds and all other obligations shall remain valid and enforceable in accordance with their terms and subject to all applicable terms and conditions of the laws and proceedings authorizing the bonds and all other obligations, including lease, contract, and other written obligations.

(3) The Governor shall designate an appropriate state agency that shall continue to carry out all covenants contained in the bonds and in all other obligations, including lease, contract, and other written obligations, and the proceedings authorizing them, including the issuance of bonds, and the performance of all other obligations, including lease, contract, and other written obligations, to complete the construction of projects or the performance of other obligations, including lease, contract, and other written obligations.

(4) The designated state agency shall provide payment from the sources of payment of the bonds in accordance with the terms of the bonds and shall provide payment from the sources of payment of all other obligations, including lease, contract, and other written obligations, in accordance with their terms, whether from taxes, revenues, or otherwise, until all bonds and interest on the bonds are paid in full and all other obligations, including lease, contract, and other written obligations, are performed and paid in full.

(5) If the proceedings so provide, all funds established by laws or proceedings authorizing the bonds or authorizing other obligations, including lease, contract, and other written obligations, shall remain with the Director of the Department of Finance and Administration or the previously designated trustees.

(6) If the proceedings do not provide that the funds remain with the Director of the Department of Finance and Administration or the previously designated trustees, the funds shall be transferred to the designated state agency.

25-37-114. Subpoena power.

(a)(1) The Government Efficiency and Accountability Review Subcommittee may issue process to compel the attendance of witnesses and the production of books, records, papers, and other objects necessary or proper for the purposes of

the subcommittee proceedings.

(2) The process may be served on a witness at any place in this state.

(b) If a majority of the subcommittee directs the issuance of a subpoena, the chair of the subcommittee shall issue the subpoena in the name of the subcommittee.

(c) If the chair is absent, the chair's designee may issue a subpoena or other process in the same manner as the chair.

(d)(1) If necessary to obtain compliance with a subpoena or other process, the subcommittee may issue attachments.

(2) The attachments may be addressed to and served by any peace officer in this state.

(e) Testimony taken under subpoena shall be reduced to writing and given under oath subject to the penalty of perjury.

(f) A witness who attends a subcommittee proceeding under process is entitled to the same mileage and per diem as a witness who appears before a grand jury in this state.

25-37-115. Assistance and access to state agencies.

(a)(1) The Government Efficiency and Accountability Review Subcommittee may request the assistance of state agencies and officers.

(2) When assistance is requested, a state agency or officer may assist the subcommittee.

25-37-116. Records protected from disclosure.

A record held by another entity that is confidential by law and that the Government Efficiency and Accountability Review Subcommittee receives in connection with the performance of the subcommittee's functions under this chapter or another law remains confidential and is excepted from the Freedom of Information Act of 1967, § 25-19-101 et seq.

25-37-117. Relocation of employees.

If an employee is displaced because a state agency is abolished, reorganized, or continued, the state agency and the Arkansas Employment Security Department shall make a reasonable effort to relocate the displaced employee.

25-37-118. Saving provision.

Except as otherwise provided, abolition of a state agency does not affect rights and duties that matured, penalties that were incurred, civil or criminal liabilities that arose, or proceedings that were begun before the effective date of the abolition.

25-37-119. Gifts and grants.

(a) The Government Efficiency and Accountability Review Subcommittee may accept gifts, grants, and donations from any organization described in Section 501(c)(3) of the Internal Revenue Code as it existed on January 1, 2005, for the purpose of funding any activity under this chapter.

(b) All gifts, grants, and donations shall:

(1) Be accepted in an open meeting by a majority of the voting members of the subcommittee; and

(2) Reported in the public record of the subcommittee with the name of the donor and the purpose of the gift, grant, or donation.

25-37-120. Attrition.

Whenever possible, state government is encouraged to utilize attrition as a long-term approach to reducing state agency costs and as a means of saving

taxpayer money.

25-37-121. Review of proposed legislation creating regulatory state agency.
(a) Each bill filed in the General Assembly that would create a new state agency having regulatory authority shall be forwarded to the Government Efficiency and Accountability Review Subcommittee.
(b) The subcommittee shall review the bill to determine if:
(1) The proposed regulatory or other functions of the state agency or committee may be administered by one (1) or more existing state agencies;
(2) The form of regulation, if any, proposed by the bill is the least restrictive form of regulation that will adequately protect the public;
(3) The bill provides for adequate public input regarding any regulatory function proposed by the bill; and
(4) The bill provides for adequate protection against conflicts of interest within the state agency.
(c) After reviewing the bill, the subcommittee shall forward a written comment on the legislation to the sponsor of the bill and to the chair of the committee to which the bill is referred.

Delete SECTIONS 1 through 7 entirely and substitute the following:

"SECTION 1. Arkansas Code Title 18, Chapter 11 is amended to add an additional subchapter to read as follows:

18-11-601. Purpose.

The purpose of this subchapter is to encourage owners of land to make land and water areas available to municipal governments for municipal water supply purposes by limiting the liability of landowners toward persons entering on the land and water areas.

18-11-602. Definitions.

As used in this subchapter:

(1) "Land" means real property, roads, water, watercourses, private ways, and buildings, structures, and machinery or equipment when attached to the real property;

(2) "Municipal water supply purpose" includes, but is not limited to, any of the following, separately or in any combination:

(A) Construction or maintenance of a water intake structure;

(B) Maintenance of a water intake source;

(C) Research concerning a water intake source or structure; and

(D) Other activity associated with a water intake source or structure; and

(3) "Owner" means the possessor of a fee interest or a

tenant, lessee, occupant, or person in control of the land.

18-11-603. Construction.

Nothing in this subchapter shall be construed to:

(1) Create a duty of care or a basis for liability for injury to persons or property; or

(2) Relieve any person using the land of another for municipal water supply purposes from any obligation that he or she may have in the absence of this subchapter to exercise care in his or her use of the land and in his or her activities on the land or relieve any person from the legal consequences of failure to employ such care.

18-11-604. Duty of care.

Except as specifically provided in § 18-11-607, an owner owes no duty of care to keep the land safe for entry or use by others for municipal water supply purposes or to give any warning of a dangerous condition, use, structure, or activity on the land to persons entering for municipal water supply purposes.

18-11-605. Owner's immunity from liability.

Except as specifically provided in § 18-11-607, an owner who, either directly or indirectly, invites or permits any person to use his or her land for municipal water supply purposes does not:

(1) Extend any assurance that the land is safe for any purpose;

(2) Confer upon the person the legal status of an invitee or licensee to whom a duty of care is owed;

(3) Assume responsibility for or incur liability for any injury to person or property caused by an act or omission of the person; or

(4) Assume responsibility for or incur liability for injury to the person or property caused by any natural or artificial condition, structure, or personal property on the land.

18-11-606. Land leased to municipality.

Unless otherwise agreed to in writing, the provisions of §§ 18-11-604 and 18-11-605 shall be deemed the sole source of the duties and liability of an owner who leased or otherwise provided land to a municipality for municipal water supply purposes.

18-11-607. Exceptions to owner's immunity.

Nothing in this subchapter limits in any way liability that otherwise exists for malicious, but not mere negligent, failure to guard or warn against an ultra-hazardous condition, structure, personal property, use, or activity actually known to the owner to be dangerous."

~~(B) The school bus must be assigned to a regular school bus route for transporting students to and from the public schools during the regular school term.~~
~~(C) To qualify for state aid, the bus must have a capacity of at least eleven (11) students.~~
~~(D) All approved transportation units shall be in good repair, sanitary, and in safe operating condition as indicated by regular maintenance and safety inspections;~~

~~(B) In those instances in which the average daily membership for fewer than three (3) quarters is specified, the number of days used in the calculation shall be the days in the specified period of time.~~
~~(C) As applied to this subchapter, students who may be counted for average daily membership are:~~
~~(i) Students who reside within the boundaries of the school district and are enrolled in a public school operated by the district or a private school for special education students, with such attendance resulting from a written tuition agreement approved by the Department of Education;~~

~~6-20-1703. Calculation of transportation aid.~~

~~A local school district's base aid is determined by adding the school district's student aid and bus allowance using the worksheet for transportation in § 6-20-1716 and the formula components set forth in § 6-20-1704.~~

~~6-20-1704. Calculation of transportation aid components.~~

~~(a) Calculation of Average Daily Transported.~~
~~(1)(A) Average daily transported may include resident students who reside two (2) route miles or more from their assigned schools.~~
~~(B) Districts may count students who live in this area, even if private transportation is provided for these students, so long as a school bus is operated by the district for the potential transportation of these students.~~
~~(C) The school district must determine whether a student lives without or within the two-mile distance for each assigned school using an established bus route.~~
~~(2)(A) Average daily transported may include legally transferred students, school choice students, and tuition agreement students.~~
~~(B) However, a legally transferred student, a school choice student, or a tuition agreement student may only be counted toward average daily transported if the district actually transports this student.~~
~~(C) Under § 6-18-206, if both the resident district and the receiving district provide transportation to a legally transferred student, a school choice student, or a tuition agreement student, both districts may count this student on their average daily transported calculation.~~
~~(3) Average daily transported may not include students living within the two-mile distance of the assigned school, using an established bus route, even if students are picked up at courtesy bus stops within the two-mile distance.~~

~~(4) In order to verify average daily transported, all school districts must keep accurate records indicating:~~
~~(A) The number of students who live outside the two-route-mile distance from their assigned school;~~
~~(B) The bus in which students identified in subdivision (a)(4)(A) of this section are transported;~~
~~(C) The distance which students identified in subdivision (a)(4)(A) of this section live from the assigned school as measured by an established bus route;~~
~~(D) All legally transferred students who are transported;~~
~~(E) All school choice students who are transported; and~~
~~(F) All tuition agreement students who are transported.~~
~~(b) Calculation of student aid. Student aid is determined by multiplying the district's average daily transported times the rate per student pursuant to § 6-20-1715.~~
~~(c) Calculation of bus allowance. (1) Total bus allowance is determined by summing the following: For each category of bus seating capacity of approved transportation units, multiply the number of approved transportation units times the allowance.~~
~~(2)(A) To determine the number of approved transportation units for the current school year, use the number of approved transportation units operated in the previous year.~~
~~(B) Approved transportation units that run a double or triple run are counted as one (1) unit.~~
~~(C) Activity buses, feeder buses, shuttle buses, and spare buses shall not be included for aid purposes.~~
~~(3) Approved transportation units may qualify for an allowance based on bus seating capacity as follows:~~

~~Bus Seating Capacity~~	~~Allowance per Unit~~
~~89~~	~~$4,400~~
~~83~~	~~$4,100~~
~~77~~	~~$3,800~~
~~71~~	~~$3,500~~
~~65~~	~~$3,200~~
~~59~~	~~$3,100~~
~~53~~	~~$3,000~~
~~47~~	~~$2,900~~
~~41~~	~~$2,800~~
~~35~~	~~$2,700~~
~~23~~	~~$2,500~~
~~Special units~~	~~$2,400~~

~~(d) District's base aid amount. The district's base aid is determined by adding the total student aid and the total bus allowance.~~

~~6-20-1705. Modification of transportation aid.~~

~~(a) Base aid shall be modified by applying two (2) factors to the district's base aid:~~
~~(1) Minimum base aid; and~~
~~(2) Maximum base aid.~~
~~(b) The sum of base aid as adjusted by subsection (a) of this section, handicapped aid, and disaster aid shall be further modified by application of the high cost transportation adjustment factor.~~

~~6-20-1706. Minimum transportation aid.~~

~~(a) The minimum amount of base aid for which a district may qualify is determined by comparing the fleet seating capacity and the maximum eligible average daily~~

~~transported.~~
~~(b) Maximum eligible average daily transported is the average daily transported times one and two-tenths (1.2).~~
~~(c) If the maximum eligible average daily transported is less than the fleet seating capacity:~~
~~(1) Multiply the number of approved transportation units excluding special units times the maximum eligible average daily transported, including any adjustments for annexation or consolidation, or both and divide by the fleet seating capacity.~~
~~(2) Multiply the result in subdivision (c)(1) of this section times nine thousand two hundred dollars ($9,200) and add the total base aid for special units.~~
~~(d) If the maximum eligible average daily transported is greater than the fleet seating capacity, multiply the number of approved transportation units excluding special units times nine thousand two hundred dollars ($9,200) and add the base aid for special units.~~

~~6-20-1707. Maximum base aid.~~

~~(a) The maximum amount of base aid for which a district may qualify is determined by comparing the fleet seating capacity and the maximum eligible average daily transported.~~
~~(b) If the maximum eligible average daily transported is less than the fleet seating capacity:~~
~~(1) Multiply the number of approved transportation units, excluding special units, times the maximum eligible average daily transported, including any adjustments for annexation or consolidation or both, and divide by the fleet seating capacity; and~~
~~(2)(A) If transportation aid is funded in an amount less than nine million two hundred thousand dollars ($9,200,000), the result from subdivision (b)(1) of this section shall be multiplied times fourteen thousand eight hundred dollars ($14,800) and added to the base aid for special units; or~~
~~(B) If transportation aid is funded in the amount of nine million two hundred thousand dollars ($9,200,000) or more, the result from subdivision (b)(1) of this section shall be multiplied times sixteen thousand dollars ($16,000) and added to the base aid for special units.~~
~~(c) If the maximum eligible average daily transported is more than the fleet seating capacity; and~~
~~(1) If transportation aid is funded in an amount less than nine million two hundred thousand dollars ($9,200,000), the number of approved transportation units, excluding special units, shall be multiplied times fourteen thousand eight hundred dollars ($14,800) and added to the base aid for special units; or~~
~~(2) If transportation aid is funded in the amount of nine million two hundred thousand dollars ($9,200,000) or more, the number of approved transportation units, excluding special units, shall be multiplied times sixteen thousand dollars ($16,000) and added to the base aid for special units.~~

~~6-20-1708. Application of minimum and maximum adjustment factors.~~

~~(a) A school district may not qualify for less base aid than the minimum base aid, and it may not qualify for more than the maximum base aid.~~
~~(b) The adjusted base aid for which a district is qualified shall be:~~
~~(1) The school district's base aid if the base aid is less than the maximum base aid calculated under § 6-20-1707 and greater than the minimum base aid calculated in § 6-20-1706;~~
~~(2) The minimum base aid calculated under § 6-20-1706, if the school district's base aid amount is less than its minimum base aid; or~~
~~(3) The maximum base aid calculated under § 6-20-1707, if the school~~ district's base aid amount is more than the maximum base aid.

~~6-20-1709. High cost transportation adjustment factor.~~

~~(a) Total transportation aid shall be adjusted by application of the high cost transportation factor as follows:~~
~~(1) Multiply the high cost transportation factor, to be determined annually by the Department of Education, times the average daily membership of the district; and~~
~~(2) Subtract the result in subdivision (a)(1) of this section from the sum of adjusted base aid pursuant to § 6-20-1708, handicapped aid, and disaster aid on the transportation worksheet in § 6-20-1716.~~
~~(b) Workshop aid shall be provided exclusive of the high cost transportation adjustment.~~

~~6-20-1710. Workshop aid.~~

~~(a) In addition to the total amount of approved aid, a district shall be entitled to workshop aid.~~
~~(b) Workshop aid shall be calculated as follows:~~
~~(1)(A) Seventy dollars ($70.00) will be paid to the school district for each qualified route driver, substitute driver, and activity driver employed by the school district who attends the Department of Education-sponsored in-service workshop.~~
~~(B) To qualify for the seventy dollars ($70.00), attendees shall hold a valid Class "A", "B", "C", or "D" driver's license with a "P" or passenger endorsement.~~
~~(C) Payment shall be made from an instructor's sign-in sheet containing name and license number;~~
~~(2) Three hundred fifty dollars ($350) will be paid to the school district for each school bus mechanic who attends the annual workshop for mechanics sponsored by the department;~~
~~(3)(A) Resident districts or host districts that furnish instructors for the in-service program shall be reimbursed for all expenses incurred in the school bus driver training program.~~
~~(B)(i) Instructors shall receive seven dollars ($7.00) per qualified attendee, mileage at the current state allowable rate, and any related documented expenses associated with the in-service program for bus drivers.~~
~~(ii) Instructors will be paid one hundred fifty dollars ($150) for conducting a beginning school bus drivers workshop for schools.~~
~~(C) All school bus safety instructors shall be employed full time by a public/state educational institution.~~
~~(D) Payment is made during the current year of instruction;~~
~~(4) Documented expenses for five (5) Arkansas Association of Student Transportation officers will be paid to the Southeastern States Pupil Transportation Conference in July of each year. An officer elected at the yearly meeting who cannot attend shall not be replaced with a substitute, and the attendance option shall be forfeited that year; and~~
~~(5)(A) Documented expenses for six (6) delegates to the National Minimum School Bus Standards Conference will be paid. This conference, conducted every five (5) years, established the standards for operational and mechanical specifications for school buses nationwide.~~
~~(B)(i) All delegates shall be employed full time by a public school system and shall be active in the school transportation program.~~
~~(ii) All delegates shall be approved by the Director of the Department of Education.~~

~~6-20-1711. Handicapped aid.~~
~~(a) In addition to the total amount of adjusted base aid, a district shall be entitled to handicapped aid.~~
~~(b) Handicapped aid is determined by multiplying three hundred dollars ($300) times the number of school buses used primarily for transporting children with disabilities.~~

(c)(1) For each unit used primarily for transporting children with disabilities, the district may receive an additional two hundred dollars ($200) for each school bus equipped with a wheelchair lift.
(2) For each student requiring specialized transportation according to his or her individualized education plan, the district may receive an additional twenty-five dollars ($25.00) for each eligible student.

6-20-1712. Annexation and consolidation incentive.

(a)(1) A transportation incentive factor will be allowed for school districts annexing or consolidating. This incentive factor shall assume that all students of annexed or consolidated school districts are eligible to be transported until actual average daily transported can be determined.
(2) To calculate this incentive factor, the average daily membership of the nontransported students shall be added to the average daily transported before completing the transportation worksheet in § 6-20-1716.
(3) Once actual average daily transported can be determined, an adjustment may be made in average daily transported.
(b) In the event that a consolidation or annexation occurs during the school year, an adjustment in the average daily transported may be made at the time that the event occurs.
(c) On any additional approved transportation units used to transport the new average daily transported pursuant to subsection (a) of this section, depreciation will be allowed in the same manner as on all other approved transportation units.

6-20-1713. Disaster aid.

(a) Districts may apply for disaster aid by completing an application with written documentation of the natural or man-made disaster and returning it to the Department of Education.
(b) Disaster aid must be claimed during the school year in which the disaster occurred.
(c) Disaster aid is payable during the school year in which the disaster occurs or exists, and the aid is payable for a maximum of the current school year or until the temporary rerouting of the school bus ceases.
(d)(1) The department will calculate disaster aid by taking eighty-five percent (85%) of the state average cost per mile times the additional miles added to the bus route.
(2)(A) The state average cost per mile will be calculated using data from the previous year.
(B) The state average cost will include all expenditures from the previous year less any insurance settlement.

6-20-1714. Miscellaneous provisions.

(a)(1) Transportation aid deductions shall be made for those schools having fewer than the required number of school days as prescribed by the educational standards.
(2) Deductions shall be made as follows: Approved state aid divided by the required number of days equals aid per day. Aid per day times the number of days not in attendance equals deductions for a shortened school year.
(3) No deductions will be made if a waiver is granted by the Department of Education on the number of days in attendance.
(b) The department may deny transportation aid for children who are transported beyond a reasonable distance in cases where the children can be satisfactorily accommodated to an approved school nearer their residence. However, the state recognizes and supports that some districts may choose to bus students greater distances to achieve further desegregation. Superintendents are urged to survey

~~conditions and propose agreements between districts in keeping with sound administration and economy in the use of public school funds.~~
~~(c) The following penalties shall be assessed against districts:~~
~~(1) No transportation aid shall be granted to any district if the proper officials do not make such reports as are required for participation;~~
~~(2) An indication of an inaccurate report may be the basis for an investigation by the department; and~~
~~(3) Base aid shall be withheld on any approved transportation unit found to be operating in violation of the minimum standards as adopted by the State Board of Education.~~
~~(d)(1) Any state transportation aid funds distributed to a school district under this subchapter shall be used by the district only for those purposes as enumerated by the board as permitted uses of state transportation aid.~~
~~(2) Any balance of state transportation aid funds on hand in any school district at the end of any biennium shall be returned to the department for deposit in the state transportation aid formula unless a waiver is granted for the purchase of a school bus by the department.~~
~~(e) The board is authorized to formulate rules and regulations for the administration of funds distributed under this subchapter for high cost transportation.~~

~~6-20-1715. Density chart.~~

~~(a) If transportation aid is funded in an amount less than nine million two hundred thousand dollars ($9,200,000), the density chart shall be as follows:~~

STATE OF ARKANSAS
OFFICE OF THE GOVERNOR
State Capitol
Little Rock 72201

April 11, 2005

TO THE PRESIDENT AND MEMBERS OF THE SENATE

Dear Mr. President and Senators:

This is to provide notice that pursuant to Article 6, Section 15 of the Arkansas Constitution, on this date I vetoed Senate Bill 1174, a measure from the Eighty-Fifth General Assembly. Also in accordance with Article 6, Section 15, the bill is being returned to this body, the originating house for the bill, and accompanied this letter.

This bill would give cities the opportunity to create zones allowing open container consumption of alcohol beyond the borders of licensed establishments. While I realize that my veto may not be sustained, and I respect the will of the legislature, I cannot in good conscience sign a bill that would make it easier for underage drinkers to access alcohol in our streets. An issue that both my wife and I have worked prominently on during my tenure as Governor is to combat illegal, underage drinking. Allowing people to take open containers of alcohol from monitored and enclosed premises to public streets will make it easier for underage drinkers to access alcohol.

I can't believe that our tourism industry will be dependent on people's ability to carry about alcohol in the streets, not can I believe that the law enforcement community would welcome these additional burdens.

I respectfully request that you sustain this veto.

Sincerely,
(SIGNED) MIKE HUCKABEE
Governor

Without objection, Senate Bill No. 1102 was withdrawn by the author, Senator Trusty.

ARKANSAS SENATE

EIGHTY-FIFTH GENERAL ASSEMBLY

REGULAR SESSION

Amendment No. 2 to HOUSE BILL NO. 1177

Amend House Bill No. 1177 as engrossed , H3/21/05:

Add additional sections immediately following Section 7 to read as follows:

"SECTION 8. APPROPRIATION - QUALITY TEACHING AND LEARNING CENTERS. There is hereby appropriated, to the Department of Education - Educational Television Division, to be payable from the General Improvement Fund or its successor fund or fund accounts, for Quality Teaching and Learning Centers of the Department of Education - Educational Television Division for the biennial period ending June 30, 2007, the following:

ITEM NO.		FISCAL YEARS 2005-2006	2006-2007
(01)	AETN-QUALITY TEACHING & LEARNING CENTERS	$ 250,000	$ 250,000

SECTION 9. SPECIAL LANGUAGE. NOT TO BE INCORPORATED INTO THE ARKANSAS CODE NOR PUBLISHED SEPARATELY AS SPECIAL, LOCAL AND TEMPORARY LAW. CONTINGENCY. (a) To address needs emerging from the federally mandated transition to digital broadcast technology, the Department of Education, Educational Television Division shall establish and maintain for the ~~2003-2005~~ 2005-2007 biennium a pool of fifteen (15) classified positions, payable from funds appropriated herein for such purposes. These positions are to be used by the Department of Education- Educational Television Division in the event that the number and level of positions available to address the needs emerging from the installation of digital technology and the opportunity it presents to expand programming exceeds the classified positions regularly authorized for the Department of Education - Educational Television Division by the Legislature. (b) The Department of Education - Educational Television Division shall provide justification to the Department of Finance and Administration's Office of Personnel Management (OPM) for the need to allocate titles from this position pool. No classifications will be assigned to the pool until such time as specific positions are requested and justified by the Department of Education- Educational Television Division, recommended by OPM and approved by the Arkansas Legislative Council. The Department ofEducation- Educational Television Division may transfer positions and appropriations from this pool to any appropriation/pay schedule the agency currently maintains or any appropriation/pay schedule the agency receives during the ~~2003-2005~~ 2005-2007 biennium.(c)Determining the number of personnel to be employed by a state agency is the prerogative of the General Assembly and is usually accomplished by delineating the maximum number of personnel by identifying job titles and the maximum grade or salary attached to those titles. The General Assembly has determined that Department of Education - Educational Television Division could be operated more efficiently if some flexibility is given to that agency. That flexibility is being accomplished by providing growth pools in

subsection (a) of this section and since the General Assembly has granted the agency broad powers under the growth pool concept, it is both necessary and appropriate that the General Assembly maintain oversight of the utilization of the growth pool by requiring prior approval of the Legislative Council in the utilization of the growth pool. Therefore, the requirement of approval by the Legislative Council is not a severable part of this section. If the requirement of approval by the Legislative Council is ruled unconstitutional by a court of competent jurisdiction, this entire section is void. If the agency requests continuation of a "Growth Pool" position(s) as established herein during the next biennium, the position(s) must be requested as a new position(s) in the agency's biennial budget request. The provisions of this section shall be in effect only from July 1, ~~2003~~ 2005 through June 30, ~~2005~~ 2007."

And

Appropriately renumber the sections of the bill.

(SIGNED) SENATOR SHANE BROADWAY

The Amendment was read the first time, rules suspended, read the second time and adopted.

(SIGNED) ANN CORNWELL, SECRETARY

On motion of Senator Bisbee, and without objection, the rules were suspended pertaining to passage of Amendment and Bill on the same day.

TO THE PRESIDENT OF THE SENATE

Dear Mr. President:

This is to provide notice that pursuant to Article 6, Section 15 of the Arkansas Constitution, on this date I vetoed Senate Bill 227, a measure from the Eighty-Fifth General Assembly. Also in accordance with Article 6, Section 15, the bill is being returned to this body, the originating house for the bill, and accompanies this letter.

Under Article 5, Section 21, "[n]o bill shall be so altered or amended on its passage through either house, as to change its original purpose." As reflected in its title, the original purpose of this bill was to authorize counties to employ district judges to preside over first appearances in county courts. However, on April 7, the bill's title, sponsor and text were completely changed. As amended and passed, the bill now deals with the authorization of justices of the peace to perform marriages statewide. It is clear that the amendment violates the above constitutional provision. But for this unfortunate problem, I would heartily support the bill. While it pains me greatly to do so, I must veto it.

Sincerely yours,

(SIGNED) MIKE HUCKABEE

After reviewing the results of all our work and checking for errors, omissions or oversights, at this time, it appears that it will not be necessary for the regular session of the 85th General Assembly to reconvene in further extended session.

I take this opportunity to thank you for your cooperation, your support and the untiring efforts that you exerted during this session. I think the positive results of our work for the benefit of the citizens of the State of Arkansas will be visible as the days go by. I look forward to seeing you and working with you throughout the remainder of this biennium as we continue to work at facing and resolving the issues that come before us.

In accordance with the provisions of the sine die resolution, HCR1016, the Senate welcomes an appropriate number of Senators have been appointed to adjourn the Senate at 12:00 noon on Friday, May 13, 2005.
