8-7-421. Recycling transactions.

(a) The purposes of this section are:

(1) To promote the reuse and recycling of scrap material in Arkansas while protecting human health and the environment;

(2) To promote the goals of the Arkansas Pollution Prevention Act, § 8-10-201 et seq., and related Arkansas legislation intended to encourage recycling;

(3) To create greater equity in the statutory treatment of recycled versus virgin materials;

(4) To remove the disincentives and impediments to recycling in Arkansas created as an unintended consequence of certain liability provisions contained in this subchapter; and

(5) To incorporate into this subchapter amendments to the federal Comprehensive Environmental Response Compensation and Liability Act adopted by the United States Congress in 1999 in Pub. L. 106-113, thus ensuring that Arkansas law does not contain more stringent provisions than federal law.

(b)(1) For purposes of subsections (c)--(f) of this section, a person who arranged for recycling of recyclable material shall not be a "responsible party" under § 8-7-403 (b)(1)(C) or (D) with respect to the recyclable materials.

(2) Nothing in this section shall be deemed to affect the liability of a person under § 8-7-403 (b)(1)(C) or (D) with respect to materials that are not recyclable materials as defined in subsection (c) of this section.

(c)(1) As used in this section, "recyclable material" means scrap paper, scrap plastic, scrap glass, scrap textiles, scrap rubber other than whole tires, scrap metal, or spent lead-acid, spent nickel-cadmium, and other spent batteries, as well as minor amounts of material incident to, or adhering to, the scrap material as a result of its normal and customary use prior to becoming scrap.

(2) However, "recyclable material" does not include:

(A) Shipping containers of a capacity from thirty liters (30 l) to three thousand liters (3,000 l), whether intact or not, having any hazardous substance, but not metal bits and pieces or hazardous substances that form an integral part of the container, contained on, or adhering thereto; or

(B) Any item of material that contains polychlorinated biphenyls at a concentration in excess of fifty (50) parts per million or any new standard promulgated pursuant to applicable federal laws.

(d) Transactions involving scrap paper, scrap plastic, scrap glass, scrap textiles, or scrap rubber other than whole tires shall be deemed to be arranging for recycling of recyclable materials, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that all of the following criteria were met at the time of the transaction:

(1) The recyclable material met a commercial specification grade;

(2) A market existed for the recyclable material;

(3) A substantial portion of the recyclable material was made available for use as feedstock for the manufacture of a salable new product;

(4) The recyclable material could have been a replacement or substitute for a virgin raw material, or the product to be made from the recyclable material could have been a replacement or substitute for a product made, in whole or in part, from virgin raw material;

(5) For transactions occurring ninety (90) days or more after August 13, 2001, the person exercised reasonable care to determine that the facility where the recyclable material was handled, processed, reclaimed, or otherwise managed by another person, i.e., a consuming facility, was in compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with recyclable material; and

(6) For purposes of this subsection, "reasonable care" shall be determined using criteria that include:

(A) The price paid in the recycling transaction;

(B) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with recyclable material; and

(C)(i) The result of inquiries made to the appropriate federal, state, or local environmental agency regarding the consuming facility's past and current compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with the recyclable material.

(ii) For the purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activity associated with the recyclable materials shall be deemed to be a substantive provision.

(e)(1) Transactions involving scrap metal shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction the person:

(A) Met the criteria set forth in subsection (d) of this section with respect to the scrap metal;

(B) Was in compliance with any applicable regulations or standards regarding the storage, transport, management, or other activities associated with the recycling of scrap metal that the Arkansas Pollution Control and Ecology Commission promulgates subsequent to the enactment of this section and with regard to transactions occurring after the effective date of those regulations or standards; and

(C) Did not melt the scrap metal prior to the transaction.

(2) For purposes of subdivision (e)(1)(C) of this section, melting of scrap metal does not include the thermal separation of two (2) or more materials due to differences in their melting points, referred to as "sweating".

(3) Except for scrap metals that the federal Environmental Protection Agency or the commission excludes from this definition by regulation, for purposes of this subsection, the term "scrap metal" means:

(A) Bits and pieces of metal parts, such as bars, turnings, rods, sheets, or wire; or

(B) Metal pieces that may be combined together with bolts or soldering, such as radiators, scrap automobiles, or railroad box cars, which when worn or superfluous can be recycled.

(f) Transactions involving spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction:

(1) The person:

(A) Met the criteria set forth in subsection (d) of this section with respect to the spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries, but did not recover the valuable components of those batteries; and

(B) With respect to transactions involving lead-acid batteries, was in compliance with applicable federal and Arkansas environmental regulations or standards, and any amendments thereto, regarding the storage, transport, management, or other activities associated with the recycling of spent lead-acid batteries;

(2) With respect to transactions involving nickel-cadmium batteries, federal and Arkansas environmental regulations or standards were in effect

regarding the storage, transport, management, or other activities associated with the recycling of spent nickel-cadmium batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto; or

(3) With respect to transactions involving other spent batteries, federal and Arkansas environmental regulations or standards were in effect regarding the storage, transport, management, or other activities associated with the recycling of those batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto.

(g)(1) The exemptions set forth in subsections (d)--(f) of this section shall not apply if the person:

(A) Had an objectively reasonable basis to believe at the time of the recycling transaction:

(i) That the recyclable material would not be recycled;

(ii) That the recyclable material would be burned as fuel or for energy recovery or incineration; or

(iii) For transactions occurring more than ninety (90) days after August 13, 2001, that the consuming facility was not in compliance with a substantive, not procedural or administrative, provision of any federal, Arkansas, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, or other management activities associated with the recyclable material;

(B) Had reason to believe that hazardous substances had been added to the recyclable material for purposes other than processing for recycling; or

(C) Failed to exercise reasonable care with respect to the management and handling of the recyclable material, including adhering to customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances.

(2) For purposes of this subsection, an objectively reasonable basis for belief shall be determined using criteria that include:

(A) The size of the person's business;

(B) Customary industry practices, including customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances;

(C) The price paid in the recycling transaction; and

(D) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with the recyclable material.

(3) For purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activities associated with recyclable material shall be deemed to be a substantive provision.

(h) Nothing in this section shall be deemed to affect the liability of a person under § 8-7-403(b)(1)(A) or (B).

(i) The commission is authorized to promulgate additional regulations concerning this section.

(j) The exemptions provided in this section shall not affect any concluded judicial or administrative action or any pending judicial action initiated by the State of Arkansas before enactment of this section.

(k)(1) Any person who commences an action in contribution against a person who is not liable by operation of this section shall be liable to that person for all reasonable costs of defending that action, including all reasonable attorney's and expert witness fees.

(2) For the purpose of this subsection, the term "person" shall not include an agency, board, commission, or department of the State of Arkansas.

(l) Nothing in this section shall affect:

(1) Liability under any other federal, Arkansas, or local statute or regulation promulgated pursuant to any such statute, including any requirements promulgated by the commission under the Arkansas Hazardous Waste Management Act of 1979, § 8-7-201 et seq.; or

Arkansas Department of Environmental Quality, 352 Ark. 396, 102 S.W.3d 458 (2003), has raised questions regarding the factual proof required to establish a claim for cost recovery under the Arkansas Remedial Action Trust Fund Act and regarding the retroactivity of the statute. The General Assembly further finds and determines that the doubts raised by the decision in the Brighton case have created substantial uncertainty regarding the enforcement authority of the Arkansas Department of Environmental Quality and the rights and responsibilities of private parties under the Arkansas Remedial Action Trust Fund Act, all of which require urgent resolution. Therefore, an emergency is declared to exist; and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on July 1, 2005, and shall apply retroactively."

(B) A county may also use these funds to construct and maintain parking for county courthouses, county administration buildings, county health units, and county parks and to construct and maintain sidewalks that serve county courthouses, county administration buildings, county health units, county parks, public schools, and other publicly owned property.

(c)(1) All highway revenues transferred to the State Highway and Transportation Department Fund under the provisions of this subchapter shall be used for the construction, reconstruction, and maintenance of highways and bridges in the state highway system.

(2)(A) However, the department may use highway revenues transferred to the State Highway and Transportation Department Fund for the installation, upgrading, or improvement of any highway-railroad crossing safety device, railroad crossing traffic control device, warning lights, crossing gates, or other railroad crossing safety devices at public highway railroad crossings and for the construction, reconstruction, and maintenance of any highway-railroad crossing, including the construction or installation of any underpasses or overpasses.

(B) Except for the construction or installation of underpasses or overpasses, the department's goal is to expend one dollar ($1.00) of state funds for each dollar of federal funds received to improve railroad crossing safety and to reduce railroad crossing accidents.

(C) It is the intent of this subdivision (c)(2) to encourage the State Highway Commission to continue to upgrade the state's highway-railway crossings with traffic control devices, warning lights, crossing gates, and other appropriate devices in order to increase the safety of persons using the state's highways."

If the expenditure results in an increase in the value of the property, the lien shall also be for the increase in value.~~

~~(3) To create greater equity in the statutory treatment of recycled~~

versus virgin materials;

(4) To remove the disincentives and impediments to recycling in Arkansas created as an unintended consequence of certain liability provisions contained in this subchapter; and

(5) To incorporate into this subchapter amendments to the federal Comprehensive Environmental Response Compensation and Liability Act adopted by the United States Congress in 1999 in Pub. L. 106-113, thus ensuring that Arkansas law does not contain more stringent provisions than federal law.

(b)(1) For purposes of subsections (c)--(f) of this section, a person who arranged for recycling of recyclable material shall not be a "responsible party" under § 8-7-403 (b)(1)(C) or (D) with respect to the recyclable materials.

(2) Nothing in this section shall be deemed to affect the liability of a person under § 8-7-403 (b)(1)(C) or (D) with respect to materials that are not recyclable materials as defined in subsection (c) of this section.

(c)(1) As used in this section, "recyclable material" means scrap paper, scrap plastic, scrap glass, scrap textiles, scrap rubber other than whole tires, scrap metal, or spent lead-acid, spent nickel-cadmium, and other spent batteries, as well as minor amounts of material incident to, or adhering to, the scrap material as a result of its normal and customary use prior to becoming scrap.

(2) However, "recyclable material" does not include:

(A) Shipping containers of a capacity from thirty liters (30 l) to three thousand liters (3,000 l), whether intact or not, having any hazardous substance, but not metal bits and pieces or hazardous substances that form an integral part of the container, contained on, or adhering thereto; or

(B) Any item of material that contains polychlorinated biphenyls at a concentration in excess of fifty (50) parts per million or any new standard promulgated pursuant to applicable federal laws.

(d) Transactions involving scrap paper, scrap plastic, scrap glass, scrap textiles, or scrap rubber other than whole tires shall be deemed to be arranging for recycling of recyclable materials, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that all of the following criteria were met at the time of the transaction:

(1) The recyclable material met a commercial specification grade;

(2) A market existed for the recyclable material;

(3) A substantial portion of the recyclable material was made available for use as feedstock for the manufacture of a salable new product;

(4) The recyclable material could have been a replacement or substitute for a virgin raw material, or the product to be made from the recyclable material could have been a replacement or substitute for a product made, in whole or in part, from virgin raw material;

(5) For transactions occurring ninety (90) days or more after August 13, 2001, the person exercised reasonable care to determine that the facility where the recyclable material was handled, processed, reclaimed, or otherwise managed by another person, i.e., a consuming facility, was in compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with recyclable material; and

(6) For purposes of this subsection, "reasonable care" shall be determined using criteria that include:

(A) The price paid in the recycling transaction;

(B) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with recyclable material; and

(C)(i) The result of inquiries made to the appropriate federal, state, or local environmental agency regarding the consuming facility's past and current compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or

decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with the recyclable material.

(ii) For the purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activity associated with the recyclable materials shall be deemed to be a substantive provision.

(e)(1) Transactions involving scrap metal shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction the person:

(A) Met the criteria set forth in subsection (d) of this section with respect to the scrap metal;

(B) Was in compliance with any applicable regulations or standards regarding the storage, transport, management, or other activities associated with the recycling of scrap metal that the Arkansas Pollution Control and Ecology Commission promulgates subsequent to the enactment of this section and with regard to transactions occurring after the effective date of those regulations or standards; and

(C) Did not melt the scrap metal prior to the transaction.

(2) For purposes of subdivision (e)(1)(C) of this section, melting of scrap metal does not include the thermal separation of two (2) or more materials due to differences in their melting points, referred to as "sweating".

(3) Except for scrap metals that the federal Environmental Protection Agency or the commission excludes from this definition by regulation, for purposes of this subsection, the term "scrap metal" means:

(A) Bits and pieces of metal parts, such as bars, turnings, rods, sheets, or wire; or

(B) Metal pieces that may be combined together with bolts or soldering, such as radiators, scrap automobiles, or railroad box cars, which when worn or superfluous can be recycled.

(f) Transactions involving spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction:

(1) The person:

(A) Met the criteria set forth in subsection (d) of this section with respect to the spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries, but did not recover the valuable components of those batteries; and

(B) With respect to transactions involving lead-acid batteries, was in compliance with applicable federal and Arkansas environmental regulations or standards, and any amendments thereto, regarding the storage, transport, management, or other activities associated with the recycling of spent lead-acid batteries;

(2) With respect to transactions involving nickel-cadmium batteries, federal and Arkansas environmental regulations or standards were in effect regarding the storage, transport, management, or other activities associated with the recycling of spent nickel-cadmium batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto; or

(3) With respect to transactions involving other spent batteries, federal and Arkansas environmental regulations or standards were in effect regarding the storage, transport, management, or other activities associated with the recycling of those batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto.

(g)(1) The exemptions set forth in subsections (d)--(f) of this section shall not apply if the person:

(A) Had an objectively reasonable basis to believe at the time of

~~the recycling transaction:~~

~~(i) That the recyclable material would not be recycled;~~

~~(ii) That the recyclable material would be burned as fuel or for energy recovery or incineration; or~~

~~(iii) For transactions occurring more than ninety (90) days after August 13, 2001, that the consuming facility was not in compliance with a substantive, not procedural or administrative, provision of any federal, Arkansas, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, or other management activities associated with the recyclable material;~~

~~(B) Had reason to believe that hazardous substances had been added to the recyclable material for purposes other than processing for recycling; or~~

~~(C) Failed to exercise reasonable care with respect to the management and handling of the recyclable material, including adhering to customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances.~~

~~(2) For purposes of this subsection, an objectively reasonable basis for belief shall be determined using criteria that include:~~

~~(A) The size of the person's business;~~

~~(B) Customary industry practices, including customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances;~~

~~(C) The price paid in the recycling transaction; and~~

~~(D) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with the recyclable material.~~

~~(3) For purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activities associated with recyclable material shall be deemed to be a substantive provision.~~

~~(h) Nothing in this section shall be deemed to affect the liability of a person under § 8-7-403(b)(1)(A) or (B).~~

~~(i) The commission is authorized to promulgate additional regulations concerning this section.~~

~~(j) The exemptions provided in this section shall not affect any concluded judicial or administrative action or any pending judicial action initiated by the State of Arkansas before enactment of this section.~~

~~(k)(1) Any person who commences an action in contribution against a person who is not liable by operation of this section shall be liable to that person for all reasonable costs of defending that action, including all reasonable attorney's and expert witness fees.~~

~~(2) For the purpose of this subsection, the term "person" shall not include an agency, board, commission, or department of the State of Arkansas.~~

~~(l) Nothing in this section shall affect:~~

~~(1) Liability under any other federal, Arkansas, or local statute or regulation promulgated pursuant to any such statute, including any requirements promulgated by the commission under the Arkansas Hazardous Waste Management Act of 1979, § 8-7-201 et seq.; or~~

The General Assembly further finds and determines that the doubts raised by the decision in the Brighton case have created substantial uncertainty regarding the enforcement authority of the Arkansas Department of Environmental Quality and the rights and responsibilities of private parties under the Arkansas Remedial Action Trust Fund Act, all of which require urgent resolution. Therefore, an emergency is declared to exist; and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on July 1, 2005, and shall apply retroactively."

If the expenditure results in an

~~increase in the value of the property, the lien shall also be for the increase in value.~~

~~(b) The lien shall be effective upon the filing of a notice of lien by the state or by the state agency which made the expenditure. This notice shall be filed with the circuit clerk in the county in which the land is located.~~

~~(c) The lien obtained by this section shall not exceed the amount of expenditures, as itemized on an affidavit of expenditures attached to and filed with the notice of lien, and the increase in property value as a result of the response action taken, as determined by an independent appraisal. ~~(3) To create greater equity in the statutory treatment of recycled versus virgin materials;~~

~~(4) To remove the disincentives and impediments to recycling in Arkansas created as an unintended consequence of certain liability provisions contained in this subchapter; and~~

~~(5) To incorporate into this subchapter amendments to the federal~~

Comprehensive Environmental Response Compensation and Liability Act adopted by the United States Congress in 1999 in Pub. L. 106-113, thus ensuring that Arkansas law does not contain more stringent provisions than federal law.

(b)(1) For purposes of subsections (c)--(f) of this section, a person who arranged for recycling of recyclable material shall not be a "responsible party" under § 8-7-403 (b)(1)(C) or (D) with respect to the recyclable materials.

(2) Nothing in this section shall be deemed to affect the liability of a person under § 8-7-403 (b)(1)(C) or (D) with respect to materials that are not recyclable materials as defined in subsection (c) of this section.

(c)(1) As used in this section, "recyclable material" means scrap paper, scrap plastic, scrap glass, scrap textiles, scrap rubber other than whole tires, scrap metal, or spent lead-acid, spent nickel-cadmium, and other spent batteries, as well as minor amounts of material incident to, or adhering to, the scrap material as a result of its normal and customary use prior to becoming scrap.

(2) However, "recyclable material" does not include:

(A) Shipping containers of a capacity from thirty liters (30 l) to three thousand liters (3,000 l), whether intact or not, having any hazardous substance, but not metal bits and pieces or hazardous substances that form an integral part of the container, contained on, or adhering thereto; or

(B) Any item of material that contains polychlorinated biphenyls at a concentration in excess of fifty (50) parts per million or any new standard promulgated pursuant to applicable federal laws.

(d) Transactions involving scrap paper, scrap plastic, scrap glass, scrap textiles, or scrap rubber other than whole tires shall be deemed to be arranging for recycling of recyclable materials, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that all of the following criteria were met at the time of the transaction:

(1) The recyclable material met a commercial specification grade;

(2) A market existed for the recyclable material;

(3) A substantial portion of the recyclable material was made available for use as feedstock for the manufacture of a salable new product;

(4) The recyclable material could have been a replacement or substitute for a virgin raw material, or the product to be made from the recyclable material could have been a replacement or substitute for a product made, in whole or in part, from virgin raw material;

(5) For transactions occurring ninety (90) days or more after August 13, 2001, the person exercised reasonable care to determine that the facility where the recyclable material was handled, processed, reclaimed, or otherwise managed by another person, i.e., a consuming facility, was in compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with recyclable material; and

(6) For purposes of this subsection, "reasonable care" shall be determined using criteria that include:

(A) The price paid in the recycling transaction;

(B) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with recyclable material; and

(C)(i) The result of inquiries made to the appropriate federal, state, or local environmental agency regarding the consuming facility's past and current compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with the recyclable material.

(ii) For the purposes of this subsection, a requirement to

obtain a permit applicable to the handling, processing, reclamation, or other management activity associated with the recyclable materials shall be deemed to be a substantive provision.

(e)(1) Transactions involving scrap metal shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction the person:

(A) Met the criteria set forth in subsection (d) of this section with respect to the scrap metal;

(B) Was in compliance with any applicable regulations or standards regarding the storage, transport, management, or other activities associated with the recycling of scrap metal that the Arkansas Pollution Control and Ecology Commission promulgates subsequent to the enactment of this section and with regard to transactions occurring after the effective date of those regulations or standards; and

(C) Did not melt the scrap metal prior to the transaction.

(2) For purposes of subdivision (e)(1)(C) of this section, melting of scrap metal does not include the thermal separation of two (2) or more materials due to differences in their melting points, referred to as "sweating".

(3) Except for scrap metals that the federal Environmental Protection Agency or the commission excludes from this definition by regulation, for purposes of this subsection, the term "scrap metal" means:

(A) Bits and pieces of metal parts, such as bars, turnings, rods, sheets, or wire; or

(B) Metal pieces that may be combined together with bolts or soldering, such as radiators, scrap automobiles, or railroad box cars, which when worn or superfluous can be recycled.

(f) Transactions involving spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction:

(1) The person:

(A) Met the criteria set forth in subsection (d) of this section with respect to the spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries, but did not recover the valuable components of those batteries; and

(B) With respect to transactions involving lead-acid batteries, was in compliance with applicable federal and Arkansas environmental regulations or standards, and any amendments thereto, regarding the storage, transport, management, or other activities associated with the recycling of spent lead-acid batteries;

(2) With respect to transactions involving nickel-cadmium batteries, federal and Arkansas environmental regulations or standards were in effect regarding the storage, transport, management, or other activities associated with the recycling of spent nickel-cadmium batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto; or

(3) With respect to transactions involving other spent batteries, federal and Arkansas environmental regulations or standards were in effect regarding the storage, transport, management, or other activities associated with the recycling of those batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto.

(g)(1) The exemptions set forth in subsections (d) - (f) of this section shall not apply if the person:

(A) Had an objectively reasonable basis to believe at the time of the recycling transaction:

(i) That the recyclable material would not be recycled;

(ii) That the recyclable material would be burned as fuel or for energy recovery or incineration; or

(iii) For transactions occurring more than ninety (90) days after August 13, 2001, that the consuming facility was not in compliance with a substantive, not procedural or administrative, provision of any federal, Arkansas, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, or other management activities associated with the recyclable material;

(B) Had reason to believe that hazardous substances had been added to the recyclable material for purposes other than processing for recycling; or

(C) Failed to exercise reasonable care with respect to the management and handling of the recyclable material, including adhering to customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances.

(2) For purposes of this subsection, an objectively reasonable basis for belief shall be determined using criteria that include:

(A) The size of the person's business;

(B) Customary industry practices, including customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances;

(C) The price paid in the recycling transaction; and

(D) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with the recyclable material.

(3) For purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activities associated with recyclable material shall be deemed to be a substantive provision.

(h) Nothing in this section shall be deemed to affect the liability of a person under § 8-7-403(b)(1)(A) or (B).

(i) The commission is authorized to promulgate additional regulations concerning this section.

(j) The exemptions provided in this section shall not affect any concluded judicial or administrative action or any pending judicial action initiated by the State of Arkansas before enactment of this section.

(k)(1) Any person who commences an action in contribution against a person who is not liable by operation of this section shall be liable to that person for all reasonable costs of defending that action, including all reasonable attorney's and expert witness fees.

(2) For the purpose of this subsection, the term "person" shall not include an agency, board, commission, or department of the State of Arkansas.

(l) Nothing in this section shall affect:

The General Assembly of the State of Arkansas hereby finds and determines that the decision of the Arkansas Supreme Court in Arkansas Department of Environmental Quality v. Brighton Corp. 352 Ark. 396, 102 S.W.3d 458 (2003), has raised questions regarding the factual proof required to establish a claim for cost recovery under the Arkansas Remedial Action

Trust Fund Act and regarding the retroactivity of the statute. The General Assembly further finds and determines that the doubts raised by the decision in the Brighton case have created substantial uncertainty regarding the enforcement authority of the Arkansas Department of Environmental Quality and the rights and responsibilities of private parties under the Arkansas Remedial Action Trust Fund Act, all of which require urgent resolution. Therefore, an emergency is declared to exist; and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on July 1, 2005, and shall apply retroactively."

1-2-124. Respectful language — Disabilities.

(a)(1) The General Assembly recognizes that language used in reference to individuals with disabilities shapes and reflects society's attitudes towards people with disabilities. ARKANSAS SENATE

EIGHTY-FIFTH GENERAL ASSEMBLY

REGULAR SESSION

Amendment No. 6 to SENATE BILL NO. 457

Amend Senate Bill No. 457 as engrossed, S3/28/05:

Add a new section immediately following Section 21 to read as follows:
"SECTION 22. SPECIAL LANGUAGE. NOT TO BE INCORPORATED INTO THE ARKANSAS CODE NOR PUBLISHED SEPARATELY AS SPECIAL, LOCAL AND TEMPORARY LAW. ESTABLISHMENT OF A "POSITION POOL". (a) To address needs emerging from statewide education issues and the necessity of recruiting and retaining qualified personnel, the Arkansas Department of Education or its successor agency is authorized for the 2005-2007 biennium a pool of twenty five (25) non-classified positions at a maximum salary level not to exceed one hundred twenty five thousand dollars ($125,000) per year. These positions are to be used by the Department of Education in the event that the personal services needs of the Department during the 2005-2007 biennium require additional positions, either by title or in number, that are not authorized by the General Assembly in Section 1 of this Act. These positions may also be used to properly classify positions when the Department does not have a vacant position available with the appropriate title and salary level.

(b) To address needs emerging from statewide education issues and the necessity of recruiting and retaining qualified personnel, the Arkansas Department of Education or its successor agency is authorized for the 2005-2007 biennium a pool of twenty five (25) classified positions at up to a grade twenty six (26). These positions are to be used by the Department of Education in the event that the personal services needs of the Department during the 2005-2007 biennium require additional positions, either by classification or in number, that are not authorized by the General Assembly in Section 1 of this Act. These positions may also be used to properly classify positions when the Department does not have a vacant position available with the appropriate title and grade level.

(c) Any salary determinations or adjustments administered under the provisions of Subsections (a) and (b) of this Section shall be made by comparing the qualifications and salary levels of similar employees in school districts or in other state education agencies.

(d) The Department of Education is authorized to access the pool positions authorized in this Section at any time during the biennium when it is determined by the Director that the need exists. The Director shall provide a quarterly report of the justification for the need to allocate titles from this growth pool to the Chief Fiscal Officer of the State and to the Arkansas Legislative Council for review. The report shall also include an accounting of the names, titles, and salaries of personnel whose salaries have been adjusted under provisions of Subsections (a) and (b) of this Section.

(e) If the Department of Education requests continuation of any "Position Pool" position(s) as established herein during the next biennium, the position(s) must be requested as a new position(s) in the agency's biennial budget request.

(f) Determining the number of personnel to be employed by a state agency is the prerogative of the General Assembly and is usually accomplished by delineating the maximum number of personnel by identifying job titles and the maximum grade or salary attached to those titles. The General Assembly has determined that the Arkansas Department of Education could be operated more efficiently if some flexibility is given to that agency. That flexibility is being accomplished by providing a position pool in Subsections (a) and (b) of this Section and since the General Assembly has granted the agency broad powers under the growth pool concept, it is both necessary and appropriate that the General Assembly maintain oversight of the utilization of the position pool by requiring review of the Legislative Council in the utilization of the position pool. Therefore, the requirement of review by the Legislative Council is not a severable part of this section. If the requirement of review by the Legislative Council is ruled unconstitutional by a court of competent jurisdiction, this entire section is void.

The provisions of this section shall be in effect only from July 1, 2005 through June 30, 2007."

And

Appropriately renumber the sections of the bill.

ARKANSAS SENATE

EIGHTY-FIFTH GENERAL ASSEMBLY

REGULAR SESSION

Amendment No. 1 to SENATE BILL NO. 1160

Amend Senate Bill No. 1160 as originally introduced:

Delete everything after the ENACTING CLAUSE and substitute the following:

"SECTION 1. Arkansas Code § 15-20-1106, concerning designated nutrient application, is amended to add a new subsection as follows:

(f) Application of poultry litter to soils or associated crops within a nutrient surplus area shall be done in accordance with a nutrient management plan or poultry litter management plan after January 1, 2007.

SECTION 2. Arkansas Code Title 15, Chapter 20, is amended to add an additional subchapter to read as follows:

15-20-1201. Legislative intent.

The General Assembly finds that:

(1) Proper application of nutrients is necessary for maximum soil fertility and proper plant growth;

(2) The Environmental Protection Agency has determined that land applications of dry poultry litter from a concentrated animal feeding operation are subject to National Pollution Discharge Elimination System permitting requirements;

(3) The State of Arkansas should establish and administer its own program to prevent, control, or abate pollution, working with the regulated community to develop a program that will address the problem of excessive nutrients and promote conservation-based farming in the least burdensome way possible; and

(4) The Arkansas Soil and Water Conservation Commission or its successor, the Arkansas Natural Resources Commission, is authorized to administer a program to comply with Environmental Protection Agency requirements.

15-20-1202. Definitions.

(a) As used in this subchapter:

(1) "Animal feeding operation" means a lot or facility where:

(A) Animals have been, are, or will be stabled or confined and fed or maintained for a total of forty-five (45) days or more in any twelve-month period; and

(B) Crops, vegetation, forage growth, or post-harvest residues are not sustained in the normal growing season over any portion of the lot or facility;

(2) "Commission" means the Arkansas Soil and Water Conservation Commission and its successor, the Arkansas Natural Resources Commission;

(3) "Concentrated animal feeding operation" means an animal feeding operation that due to size or designation by the Environmental Protection Agency Regional Administrator or the commission must file a comprehensive nutrient management plan, apply for a permit, or coverage under a general permit, and meet requirements established by the commission to meet the Environmental Protection Agency's requirements for concentrated animal feeding operations;

(4) "Director" means the Executive Director of the Arkansas Soil and Water Conservation Commission;

(5) "Permit" means individual and general permits administered by the

commission as provided by § 402(b) of the Federal Water Pollution Control Act, 33 U.S.C. § 1251 et seq., as in effect on January 1, 2005, and approved under that act by the United States Environmental Protection Agency; and

(6) "Significant portion of income" means ten per cent (10%) or more of gross personal income in a calendar year or fifty percent (50%) or more of gross personal income in a calendar year if the recipient of the income is more than sixty (60) years of age and is receiving that portion of income under retirement benefits, including a pension or similar arrangement.

(b) All undefined words and phrases used in this subchapter shall have the same meaning as used in the Federal Water Pollution Control Act, 33 U.S.C. § 1251 et seq., as in effect January 1, 2005, and the regulations adopted under that act.

15-20-1203. Administration of dry poultry litter -- Concentrated animal feeding operations program.

(a) Without limiting the generality of the provisions of this subchapter or of the powers that the Arkansas Soil and Water Conservation Commission and the director may have under this or any other law, the Arkansas Soil and Water Conservation Commission shall:

(1) Administer a dry poultry litter permit program on behalf of the state for concentrated animal feeding operation programs including the power and duty to issue, renew, revoke, modify, or deny individual concentrated animal feeding operation permits or coverage under general permits so long as no permit action would violate the provisions of any federal law, rule, or regulation;

(2) Submit to the Administrator of the Environmental Protection Agency a complete description of the program that the commission proposes to establish and administer, as provided by § 402(b) of the Federal Water Pollution Control Act, 33 U.S.C. § 1251 et seq., as in effect on January 1, 2005, for Environmental Protection Agency approval; and

(3) Accept a delegation of authority from the Administrator of the Environmental Protection Agency to administer the dry poultry litter program.

(b) No member of the commission who receives or has received during the previous two (2) years a significant portion of his or her income directly or indirectly from dry litter concentrated animal feeding operation permit holders or dry litter concentrated animal feeding operation permit applicants shall participate in the approval of any concentrated animal feeding operation permit application or portions of any application, if participation by commissioners is required.

(c) The commission may delegate, by rule or resolution, portions of the administration of the program established by this subchapter to the Executive Director of the Arkansas Soil and Water Conservation Commission or conservation districts, or both.

15-20-1204. Service of notice and other documents.

Except as otherwise expressly provided in this subchapter, any notice, order, or other document issued by or under authority of the Arkansas Soil and Water Conservation Commission may be served upon any person affected by the notice or other document by the following means:

(1) Personal service;

(2) By mailing a copy of the notice, order, or other document, by certified mail, directed to the person affected at his or her last known address as shown by the files or records of the commission;

(3) By one (1) publication of notice in a newspaper of general circulation in the area affected; or

(4) By any method acceptable for service of a summons in a civil action in the courts of the State of Arkansas.

15-20-1205. Disposition of collected money.

(a) Fees and penalties collected under this subchapter shall be deposited in

the Arkansas Water Development Fund and used in furtherance of the program established by this subchapter, except that a portion of fees may be retained by conservation districts if a portion of the program has been delegated to conservation districts.

(b) Fees or penalties collected shall be cash funds when received by the Treasurer of State and shall not be deposited or deemed to be a part of the State Treasury for purposes of:

(1) Arkansas Constitution, Article 5 § 29;

(2) Arkansas Constitution, Article 16, § 12;

(3) Arkansas Constitution, Amendment 20; or

(4) Any other constitutional or statutory provision.

15-20-1206. Application for individual concentrated animal feeding operation permit, coverage under a general permit, and permit modification.

An applicant for an individual concentrated animal feeding operation permit, coverage under a general concentrated animal feeding operation permit, or a major modification of an existing concentrated animal feeding operation permit shall submit an application and fee to the Arkansas Soil and Water Conservation Commission as required by commission rule.

15-20-1207. Approval of applications.

(a) Applications consistent with the requirements of federal law, rules, the terms of any delegation of authority from the Environmental Protection Agency to the commission, and any general concentrated animal feeding operation permits held by the commission shall be approved by the commission by a process set forth in rules adopted under this subchapter unless:

(1) The application contains misleading or false information;

(2) The Administrator of the Environmental Protection Agency objects in writing to the issuance of the permit or permit coverage in accordance with § 402(d) of the Federal Water Pollution Control Act; or

(3) The application meets additional grounds for denial established by rule.

15-20-1208. Renewal.

An individual concentrated animal feeding operation permit or coverage under a general permit issued under this subchapter shall be renewed by:

(1) Submitting an application for renewal to the Arkansas Soil and Water Conservation Commission at least one hundred eighty (180) days before the expiration date of the coverage; and

(2) Complying with any other requirements established by this subchapter and by rule.

15-20-1209. Transfer of permit or permit coverage.

(a) Permits and coverage under general permits shall remain freely transferable, provided the applicant for the transfer notifies the Arkansas Soil and Water Conservation Commission at least thirty (30) days in advance of the proposed transfer date and completely submits the commission's transfer form.

(b) Transfer may only be denied if:

(1) Relevant information submitted through the transfer form is deliberately falsified or omitted;

(2) The applicant has a history of environmental noncompliance; or

(3) The applicant owns or operates other animal feeding facilities not in compliance with state law or rules.

(c) The permit or permit coverage is automatically transferred to the new operator unless the commission denies the request within thirty (30) days of the receipt of the transfer form.

15-20-1210. Temporary variances and interim authority.

(a) Unless otherwise prohibited by federal law, the Arkansas Soil and Water Conservation Commission may grant, for compelling reasons and good cause shown:

(1) Temporary variances from the requirements of any individual concentrated animal feeding operation permit or coverage issued by the commission; or

(2) Interim authority to operate during the application review and concentrated animal feeding operation permit issuance process.

15-20-1211. Enforcement.

(a) Representatives of the Arkansas Soil and Water Conservation Commission may enter onto private property to determine compliance with this subchapter.

(b) The commission shall notify the animal feeding facility operator before entry.

(c) Documentation of bio-security measures taken and bio-security certification received by the inspection agent, including a bio-security log book, shall be available to the owner upon request.

(d) Upon notice of disease outbreak by the Arkansas Livestock and Poultry Commission, inspection under this subchapter shall be automatically suspended until notification by the Arkansas Livestock and Poultry Commission that it is safe to resume inspections.

(e) The commission may issue subpoenas as provided in § 15-22-208.

15-20-1212. Emergency orders.

(a) When the Arkansas Soil and Water Conservation Commission finds that an emergency exists requiring immediate action to protect the public health or welfare it may issue an order, without notice or hearing, reciting the existence of such emergency and requiring that such action be taken as it deems necessary to meet the emergency.

(b) The order shall be effective immediately upon service on the operator.

(c) Any person to whom the order is directed shall immediately comply but will be afforded a hearing upon timely request as set forth in the commission's rules.

15-20-1213. Involuntary permit modification, suspension, or revocation.

(a) The Arkansas Soil and Water Conservation Commission, after notice and opportunity for a hearing, may modify, suspend, or revoke a concentrated animal feeding operation permit or general concentrated animal feeding operation permit coverage for any of the following reasons:

(1) Violation of any condition of the permit or general permit coverage; or

(2) Acquisition of the permit or coverage by misrepresentation or failure to disclose fully all relevant facts of storage, treatment, or disposal practice.

15-20-1214. Administrative penalties for violation of concentrated animal feeding operation permit requirements.

(a)(1) Any person who violates any provision of this subchapter, rules, or concentrated animal feeding operation permits issued under this subchapter or rules promulgated under this subchapter may be assessed an administrative penalty not to exceed ten thousand dollars ($10,000) per violation.

(2) Each day of a continuing violation may be deemed a separate violation for purposes of penalty assessment.

(b) No administrative penalty may be assessed until the person charged with the violation has been given the opportunity for a hearing in accordance with rules adopted by the Arkansas Soil and Water Conservation Commission.

(c) Administrative penalties may not be used in conjunction with civil or criminal penalties.

(d) The administrative procedures may also be used to recover all costs, expenses, and damages to the commission and any other agency or subdivision of the state in enforcing or effectuating the provisions of this subchapter, including, but not limited to, natural resource damages.

15-20-1215. Civil remedies for violation of concentrated animal feeding operation permit requirements.

(a) The Arkansas Soil and Water Conservation Commission may institute a

(1)(A) Restrain any violation of or compel compliance with the provisions of this subchapter and of any rules, orders, or concentrated animal feeding operation permits issued under this subchapter.

(2) Affirmatively order that remedial measures be taken as may be necessary or appropriate to implement or effectuate the purposes and intent of this subchapter;

(3) Recover all costs, expenses, and damages to the commission and any other agency or subdivision of the state in enforcing or effectuating the provisions of this subchapter, including, but not limited to, natural resource damages; and

(4) Assess and recover civil penalties in an amount not to exceed five thousand dollars ($ 5,000) per violation per day for violations of this subchapter and of any rules, concentrated animal feeding operation permits, or plans issued pursuant to this subchapter.

(b) Civil penalties may not be used in conjunction with administrative or criminal penalties.

15-20-1216. Criminal penalties for violation of concentrated animal feeding operation permit requirements.

(a) Any person who knowingly makes any false statement, representation, or certification in any form, notice, or report, required or kept as a condition of concentrated animal feeding operation permit issuance shall be guilty of a misdemeanor and shall be subject to a fine of not more than five thousand dollars($ 5,000).

ARKANSAS SENATE

EIGHTY-FIFTH GENERAL ASSEMBLY

REGULAR SESSION

Amendment No. 1 to SENATE BILL NO. 1046

Amend Senate Bill No. 1046 as originally introduced:

Delete everything after the enacting clause and substitute:

"SECTION 1. Arkansas Code § 10-3-201 is amended to read as follows:

10-3-201. Legislative findings.

(a) It is found and determined by the General Assembly that:

(1) There has been a phenomenal increase in the volume and complexity of matters affecting state and local government and affecting the citizens of the state, which must be considered and determined by the General Assembly at each session;

(2) The cost of state and local government has increased significantly in the past few years and the General Assembly has the primary responsibility for allocating state revenues to the various agencies, departments, and programs of state government as well as to the various political subdivisions and school districts within the state;

(3) It is not possible during the limited legislative sessions for the members of the General Assembly to make the detailed studies and investigations and to give the very important matters coming before it the necessary consideration and deliberation that is essential for it to make decisions in the best interests of this state and its citizens;

(4) The great increase in the number, complexity, and magnitude of federal programs and projects which must be administered primarily at the state and local level, together with the unprecedented growth and increase in state programs, projects, and services, and the necessary increases in revenues of the state which provide support for these programs, make it necessary that the General Assembly and the members thereof spend a great deal more time in becoming familiar with the various programs, projects, and services in order that they may properly represent their constituents in those matters when they come before the General Assembly; and

(5) In order for the members of the General Assembly to carry out their primary responsibility of making decisions in behalf of the citizens of this state regarding the many expensive but worthwhile programs, projects, and services, and regarding the allocation of revenues to finance the more essential programs, projects, and services and to wisely enact and revise both civil and criminal laws applicable in this state, it is necessary that a system of interim committees of the General Assembly be established whereby the individual members of the House of Representatives and Senate will have an opportunity during the interim between sessions to study and analyze the many problems which will face them at the next session of the General Assembly in order that they will have a proper basis for casting their vote on those matters when the occasion arises.

(b) The General Assembly further finds that:

(1) It is essential to a proper and efficient legislative system that adequate professional and clerical assistance and facilities be provided the interim committees of the General Assembly during the interim between sessions in order to facilitate and coordinate the efforts of the various interim committees; and

(2) To accomplish this purpose, it is essential that the services and facilities available to the General Assembly be properly coordinated and organized in order to avoid duplication of effort and inefficiency in the legislative department.

(c) The General Assembly further finds that:

(1) The legal issues facing the legislature each session are extremely complex and require time for adequate legal review by legislative staff and the corresponding legal advice that follows adequate legal review;

(2) The interim committees created by the legislature should be more fully utilized to review and prepare drafts of agency-recommended legislation prior to each regular session; and

(3) It is essential to the proper and efficient legislative system for the interim committees and agencies to better coordinate the preparation of agency-recommended legislation during the interim to ensure that agency-recommended legislation receives adequate review and preparation and that the legislation is ready to be filed when the regular session commences.

SECTION 2. Arkansas Code § 10-3-202 is amended to read as follows:

10-3-202. Purpose and intent.

It is the purpose and intent of ~~§§ 10-3-201 - 10-3-208, 10-3-212 - 10-3-214, and 10-3-216~~ this subchapter to:

(1) ~~provide~~ Provide for the necessary interim activities of the General Assembly in order that the members of the General Assembly may become better informed in matters coming before the General Assembly~~,~~;

(2) ~~to assure~~ Assure greater participation by all members of the General Assembly in the study of the many complex problems which face the General Assembly each session~~, and~~;

(3) ~~to provide~~ Provide the General Assembly with the essential staff and facilities to effectively carry out its responsibility as representatives of the citizens of this state; and

(4) Improve the coordination of the drafting of agency-recommended legislation by better utilizing the interim committees.

SECTION 3. Arkansas Code § 10-3-204 is amended to read as follows:

10-3-204. Interim committee chairs.

(a)(1) The chair and vice chair of each House of Representatives standing committee which composes a House interim committee shall serve as chair and vice chair of the House interim committee and the chair and vice chair of each Senate standing committee which composes a Senate interim committee shall serve as chair and vice chair of the Senate interim committee.

(2) If the House and Senate interim committees of comparable subject matter jurisdiction elect to meet jointly, the chair of the House committee and the chair of the Senate committee may alternately serve as chair of the interim committee in such manner as they agree.

(b)(1)(A) The chair of each interim committee may request agency-recommended legislative changes in markup format as defined under § 10-3-213(a) for the upcoming regular session that is related to the subject matter jurisdiction of the interim committee on which the chair serves.

(B) If an agency fails to respond to the chair's request for agency-recommended legislative changes under this subsection, then the chair may request that the Joint Budget Committee hold the agency's budget during the pre-session budget hearings conducted by the Legislative Council and the Joint Budget Committee.

(2) Legislation submitted by the chair of the interim committee under this subsection to the Bureau of Legislative Research and the resulting draft of legislation prepared by the Bureau of Legislative Research shall be treated in the same manner regarding confidentiality as other legislation requests submitted by legislators.

SECTION 4. Arkansas Code § 10-3-205 is amended to read as follows:

10-3-205. Staff — Assignment and duties.

(a) The purpose of legislative staff is to assist and serve legislators, members of interim legislative committees, and other entities in the legislative branch of the government of the State of Arkansas.

~~(a)~~(b)(1) The Director of the Bureau of Legislative Research shall have the responsibility of employing the necessary professional and clerical personnel to staff the interim committees.

(4) Assist with the coordination of the drafting of agency-recommended legislation during the interim; and

(5) ~~shall provide~~ Provide other assistance as may be necessary to assist the committee in carrying out its functions and duties.

~~(c)~~(d) If any interim committee finds that the staff assigned to that committee is inadequate or that separate or additional staffing is necessary on a temporary or permanent basis in order to enable the committee to carry out its functions and duties, the chair of the committee may file a request for additional staff with the director, who shall present the request to the Legislative Council for its consideration, or the committee may request the House of Representatives or Senate to employ the separate or additional staff pursuant to the authority granted in Acts 1995, No. 1312, § 20.

SECTION 5. Arkansas Code § 10-3-213 is amended to read as follows:

10-3-213. Requests for and receipt of information — Continuing studies — Agency assistance.

(a) For the purposes of this section:

(1) "Agency" means any entity created under the laws of the State of Arkansas that receives funding appropriated by the General Assembly;
